

K-12 Parent Regional Meeting - September 12, 2006 Laguna Creek High School
Parking Lot Issues

- Teachers should act professionally and be role models to our students. No child left behind. No stereotyping because of race or color. Uniformity in discipline, do not show favoritism
- Slogans in public view don't reflect a positive image. Class of 2009 banner in LCHS gym
- If EGUSD is a "college prep" district, why doesn't the traditional schedule reflect that of the college schedule? Check out J.C.s and Lodi Unified's modified traditional schedule. It works for the students and isn't that really who we work
- Social Science - greater creativity and subjects to learn other than American Indians, missions. There's much, much
- How do we deal with the negativity that is a result of the redirected students - "I don't want to be here - This isn't my school." No ownership by redirected students.
- In order to make our students marketable and to prepare them for a global economy, we need our top 2 languages at the high school level to be 1. Mandarin and 2. Chinese
- We need to recognize that not all our students will go to college and prepare them accordingly. Not only that, but college bound students need life skills too ... budgeting, child rearing/care, home ec. (cooking, sewing, woodworking)
