## Career Technical Education

## Advanced Graphic Communications

Department: Career Technical Education
Graduation Requirement: Career Technical Education
$\begin{array}{lrr}\text { Grade Level: 10-12 } & \text { Credits: } \mathbf{1 0 . 0} & \text { Max Credits: } \mathbf{1 0 . 0} \\ \text { UC/CSU: Elective: Other (g) } & \text { NCAA: No }\end{array}$
In this Capstone course, students will demonstrate their mastery of a compilation of skills by preparing a portfolio of original artwork which will be completed in digital format and evaluated on an ongoing basis through the use of programs and techniques including, but not limited to, 2D graphic design (i.e. branding, package design, advertising, illustration, animation, printed design, web design, type design, UX design), printmaking, digital imaging, and multi-media presentations and design. The student portfolio will be used as entry into post-secondary scholarship competitions, programs, and entry-level businesses in the arts, media, and entertainment industry. The course culminates with digital presentations of the students' concentrated efforts. This course may provide an opportunity for students to earn industry-recognized certification or transferrable college credits. Pre-requisite(s): Digital Photography II, Digital Art and Graphic Design II, or Commercial Art

Adopted curricular materials: No textbook assigned

## Advanced Manufacturing I

12351
Department: Career Technical Education
Graduation Requirement: Career Technical Education
Grade Level: 10-11
Credits: 10.0 Max Credits: 10.0
UC/CSU: Elective: Other (g) NCAA: No
This course focuses on the design of unique objects using three-dimensional modeling software. Students will learn the basics of G-code machine language and all relevant workshop mathematics. Advanced computer-aided design and modeling software will be taught. Student projects will be produced in wood, metal, and plastic using CNC routers, CNC mills, CNC plasma cutters, and 3D printers.
Pre-Requisite(s): Manufacturing and Product Development, Introduction to
Adopted curricular materials: None

## Advanced Manufacturing II

12352
Department: Career Technical Education
Graduation Requirement: Career Technical Education
Grade Level: 11-12
Credits: 10.0
Max Credits: 10.0
UC/CSU: Elective: Other (g)
NCAA: No
This course is the capstone course in the Advanced Manufacturing Pathway. Students enrolled in this course will extensively use CNC routers and mills to produce a wide variety of parts and assemblies. Students will utilize parametric modeling and become skilled designers and machine operators.
Pre-Requisite: Advanced Manufacturing I
Adopted curricular materials: No textbook assigned

## AP Computer Science A

12118
Department: Career Technical Education
Graduation Requirement: Career Technical Education
Grade Level: 10-12
Credits: $\mathbf{1 0 . 0}$
Max Credits: 10.0
UC/CSU: Mathematics - Advanced (c)
NCAA: No
This CTE Pathway course is designed to provide students problem solving, critical thinking, and design thinking skills to solve realworld problems through computer science. Students will learn the fundamentals of computer science, including algorithms, data structures, and object-oriented programming. Students will address problems in the Java programming language, which allows them to write, compile, and test solutions. Upon completion of the course, students will be prepared to take the AP Computer Science A exam.
Pre-requisite(s): Mathematics II AND either Computer Science Principles OR AP Computer Science Principles
Adopted curricular materials: Introduction to Java Programming, AP Edition, Pearson Education, Inc.; Code.org

## Applied Public Health

Department: Career Technical Education
Graduation Requirement: Career Technical Education

Grade Level: $11 \quad$ Credits: $\mathbf{1 0 . 0}$ Max Credits: 10.0
UC/CSU: Elective: Other (g) NCAA: No

This course allows students to gain further knowledge in public health and to master the eight community health worker core competencies, leading to eventual Community Health Worker (CHW) certification. This year-long course will provide instruction through lectures, research projects, role plays, and field work and is designed to be taken by students as part of the Health TECH Academy. During the first semester, students will explore the various career opportunities within the healthcare industry. Students will build on their knowledge in public health by gaining a strong understanding of public health response to disease epidemics. Students will build on their communication skills by designing and delivering a culturally-competent, culturallyrelevant public health presentation to a cultural group in their community. Students who meet the requirements will be certified in CPR/First Aid. The second semester of this course is designed to allow students to apply their knowledge and skills in a variety of healthcare settings, which include community and clinical settings. Students will master the art of motivational interviewing, allowing them to use their knowledge and skills to facilitate positive health change. Students will also develop their asset building/capacity building skills in a manner that promotes the betterment of their clients and the communities they serve. Students are required to meet minimum field work hours through community service at health fairs and other related events to be eligible for CHW certification.
Pre-requisite(s): Fundamentals of Public Health
Adopted curricular materials: Health Science Fundamentals, Pearson
Behavioral Health Theory \& Practicum for CHW
Department: Career Technical Education
Grade Level: 12
Credits: 10.0
Max Credits: 10.0
Graduation Requirement: Career Technical Education
UC/CSU: Elective: Other (g)
NCAA: No
This course is an introduction to psychology and community mental health, designed to provide community health workers (CHW) with the knowledge to provide effective care and support to people who live with mental illnesses. Students will also explore careers in behavioral health. This year-long course will provide instruction through lectures, research projects, role plays, case studies, and field work and is designed to be taken by students as part of the Health TECH Academy. Students who meet the community health worker certification requirements are eligible to receive a supplemental certificate in community mental health.
Pre-requisite(s): Applied Public Health (recommended)
Adopted curricular materials: Understanding Psychology, Glencoe

## Business Finance

Department: Career Technical Education
Graduation Requirement: Mathematics
Grade Level: 12
Credits: 10.0
Max Credits: 10.0
UC/CSU: Elective: Other (g)
NCAA: No
This course is designed for students to apply math skills to personal and business situations: keeping money records, figuring wage income, commissions, saving and investing money, figuring home and transportation expenses, taxes, sales records, and more. Homework will be assigned on a regular basis. Students completing this course will receive math credit toward graduation.

Pre-requisite(s): Mathematics I
Adopted curricular materials: Mathematics for Business and Personal Finance, McGraw-Hill Education

## Commercial Art

Department: Career Technical Education
Graduation Requirement: Visual/Performing Arts

Grade Level: 10-12 Credits: $\mathbf{1 0 . 0}$ Max Credits: $\mathbf{1 0 . 0}$<br>UC/CSU: Visual/Performing Arts (f)<br>NCAA: No

This course provides students the opportunity to learn air-brush painting, as well as other kinds of painting and drawing techniques using colored pencils, pastels, pen and ink, print-making materials, and other media suitable for an advanced design and illustration course. This course is designed for intermediate to advanced art students who can work independently. Emphasis will be on creativity, workmanship and completion of a project in a mature and responsible manner. Art history, art appreciation and the development of aesthetic judgment will be a part of the course.
Pre-requisite(s): Art I or instructor approval
Adopted curricular materials: Graphic Design Solutions,Thomson/Delmar
Computer Integrated Manufacturing (PLTW), Honors
Department: Career Technical Education
Grade Level: 10-11
Credits: $\mathbf{1 0 . 0}$
Max Credits: 10.0
Graduation Requirement: Career Technical Education
UC/CSU: Science Recommended (d)
NCAA: No
This course is one of the specialized courses in the Project Lead the Way (PLTW) Engineering program. The course deepens the skills and knowledge of an engineering student within the context of efficiently creating the products all around us. Students build upon their Computer Aided Design (CAD) experience through use of Computer Aided Manufacturing (CAM) software. CAM transforms a digital design into a program that a Computer Numerical Controlled (CNC) mill uses to transform a block of raw material into a product designed by a student. Students learn and apply concepts related to integrating robotic systems such as Automated Guided Vehicles (AGV) and robotic arms into manufacturing systems. Throughout the course, students learn about manufacturing processes and systems. This course culminates with a capstone project where students design, build, program, and present a manufacturing system model capable of creating a product. This EGUSD honors course is recognized as an honors level course by UC/CSU and earns a GPA enhancement by both EGUSD and UC/CSU.
Pre-Requisites: Principles of Engineering Design with a C or better and Mathematics II
Co-Requisite: Mathematics III or higher
Adopted curricular materials: Project Lead the Way, https://www.pltw.org/

## Computer Technology

Department: Career Technical Education Grade Level: 09-12 Credits: 5.0 Max Credits: 5.0
Graduation Requirement: Computer Technology UC/CSU: Elective: Other (g) NCAA: No
This is an introductory course providing students with general knowledge on how computers work, computer terminology, and the impact of computers on society and work environment. Students will explore digital safety and citizenship, keyboarding, word processing software, spreadsheet software, database software, programming, email, and the Internet. This course satisfies the EGUSD Technology Proficiency graduation requirement.
Adopted curricular materials: Discovering Computers \& Microsoft Office 365 OFFICE 2016, A Fundamental Combined Approach, Cengage Learning

## Computers, Intermediate

## Department: Career Technical Education

Graduation Requirement: Career Technical Education
Grade Level: 09-12
Credits: 5.0
Max Credits: 5.0
UC/CSU: None
NCAA: No
This course provides students an opportunity to continue hands-on experience with computer operations. Students will learn programming techniques, how to use advanced word-processing, desktop publishing to include multimedia presentation and other management systems.
Pre-requisite(s): Computer Technology with a grade of C or better
Adopted curricular materials: No textbook assigned

## Computing with Robotics

Department: Career Technical Education
Graduation Requirement: Career Technical Education

| Grade Level: 10-11 Credits: $\mathbf{1 0 . 0}$ | Max Credits: $\mathbf{1 0 . 0}$ |
| :--- | :---: | :---: |
| UC/CSU: Science Recommended (d) | NCAA: No |

This course introduces students to the working principles of the foundational knowledge of robotics. Students learn to control a single robot and multiple robots by graphical user interface, pose teaching, and computer programs in C/C++. This course emphasizes hands-on robotics activities with a concentration on mathematical modeling, computer programming, and algorithm development for solving problems in math and science. Through hands-on problem-based projects, students develop critical thinking, problem solving, effective communication, and team work skills. Robots are used as platforms to engage students in collaboratively learning science, technology, and math.
Prerequisite(s): Exploring Computer Science
Adopted curricular materials: C-STEM Studio / Soft Integration, c-stem/ucdavis.edu; Code HS

## Digital Art and Graphic Design II

Department: Career Technical Education
Graduation Requirement: Career Technical Education

Grade Level: 10-11 Credits: 10.0 Max Credits: $\mathbf{1 0 . 0}$
UC/CSU: Elective: Other (g) NCAA: No

This course is designed to build upon the skills and techniques learned in Computers and Graphic Design and in the Digital Art course. Students will learn advanced tool skills in Adobe's Creative Suite (Photoshop, Illustrator, and InDesign). These skills will be applied to advanced personal and community projects. Students will have opportunities to work with real clients and explore careers in the field. Emphasis will be on expanding creative thinking as a valuable tool for visual problem solving and applying those skills in the marketplace. A professional attitude is required. Design process, terminology, history, and aesthetics will continue to be a focus.
Pre-requisite(s): Digital Art and Graphic Design Production

Adopted curricular materials: No textbook assigned
Digital Art/Graphic Design Production

This course allows students to study and practice several areas of contemporary graphic production and illustration with a strong emphasis on computer-generated art and graphics. This course is intended for art students who can work at an independent and mature level. Students will work with current software, hardware and graphic technologies and will learn about career opportunities in the graphic arts. Basic computer use and operation, as well as the basic elements of art and the principles of design, will be studied. In addition, art history, art appreciation, art criticism and judgment will be included in the course of study. Students are strongly recommended to complete Art I and Computer Technology prior to the class.
Adopted curricular materials: Communication Through Graphic Design, Davis Publishing

This course is an introduction to the ever-expanding world of digital media and the art forms that it supports. This course has a focus on digital media production from video and audio to special effects and animation.
Adopted curricular materials: No textbook assigned

Engineering Design and Development Honors (PLTW) 12363

Department: Career Technical Education
Graduation Requirement: Career Technical Education $\begin{array}{lcr}\text { Grade Level: 11-12 Credits: } \mathbf{1 0 . 0} & \text { Max Credits: } \mathbf{1 0 . 0} \\ \text { UC/CSU: Science Recommended (d) } & \text { NCAA: No }\end{array}$

This CTE Capstone honors course challenges students to use skills and knowledge learned throughout their Project Lead the Way (PLTW) courses. Students will identify an engineering-related problem and present their solution to a panel of engineering professionals. This is a project-based course that applies science, math, and technology in various areas of engineering. Students will document a design process to industry standards and be prepared for a post-secondary program or career. Honors-level work includes a final project and presentation. This EGUSD honors course is recognized as an honors level course by UC/CSU and earns a GPA enhancement by both EGUSD and UC/CSU.
Pre-requisite(s): Mathematics I or equivalent, Principles of Engineering Design (PLTW) (12360), and Computer Integrated Manufacturing (PLTW) (VHS, 12356) or Aerospace Engineering (PLTW) (FHS, 12361)
Co-requisite: Mathematics II

Adopted curricular materials: Project Lead the Way, https://www.pltw.org/

## Entrepreneurship I

12505
Department: Career Technical Education
Grade Level: 10
Credits: 10.0
Max Credits: 10.0
Graduation Requirement: Electives
UC/CSU: Elective: Other (g)
NCAA: No
This course provides students with insight and knowledge into developing their entrepreneurial opportunity and creating a business plan for it. Students will research entrepreneurial ideas and determine how to turn an idea into a successful startup enterprise given the current and anticipated demographic, technological, and social climates. Students will also be offered an organized, step-by-step approach to preparing a business plan. Students will analyze the organization and management of a business and map out how to execute a business venture.
Pre-Requisite: None
Adopted curricular materials: Entrepreneurship: Ideas in Action, 6th Edition

## Entrepreneurship II

12506
Department: Career Technical Education Grade Level: 10-11 Credits: 10.0 Max Credits: $\mathbf{1 0 . 0}$
Graduation Requirement: Career Technical Education
UC/CSU: Elective: Other (g)
NCAA: No
This course provides a survey of all business areas, including accounting, law, human resources, management, marketing, economics, and finance. The course is designed to be taken by students interested in business.
Pre-Requisite(s): Entrepreneurship I
Adopted curricular materials: Virtual Business Entrepreneurship, digital resource, 2022,
ttps://knowledgematters.com/highschool/entrepreneurship/

## Entrepreneurship III

12507
Department: Career Technical Education Grade Level: $12 \quad$ Credits: $\mathbf{1 0 . 0} \quad$ Max Credits: $\mathbf{1 0 . 0}$
Graduation Requirement: Career Technical Education
UC/CSU: Elective: Other (g)
NCAA: No
This course provides an overview of the various elements involved in starting and operating a small business, including management. Students will review and revise their business plan, find financial resources, develop personal and business goals, design marketing concepts, and understand the legal aspects of owning a small business.
Pre-Requisite(s): Entrepreneurship II
Adopted curricular material: Virtual Business Entrepreneurship, digital resource, 2022, https://knowledgematters.com/highschool/entrepreneurship/

## Exploring Computer Science

Department: Career Technical Education
Graduation Requirement: Career Technical Education

Grade Level: 10<br>Credits: 10.0<br>Max Credits: 10.0

This course focuses on the creative, collaborative, interdisciplinary, and problem-solving nature of computing, featuring an inquiry-based approach to learning and teaching. As part of this curriculum, students will develop real-world computing problems that are culturally relevant and address social and ethical issues while delivering foundational computer science knowledge to students. Students will engage in several in-depth projects to demonstrate the real-world application of computing.
Pre-requisite(s): Computer Technology (recommended)
Adopted curricular materials: C-STEM Studio / Soft Integration, c-stem/ucdavis.edu; Code.org; Code HS

## Fire and Emergency Medical Responder

Department: Career Technical Education
Graduation Requirement: Career Technical Education

Grade Level: 11
UC/CSU: Elective: Other (g)

Credits: 10.0 Max Credits: 10.0
NCAA: No

This course focuses on skills necessary to become Emergency Medical Responders (EMR's) and provides students a variety of opportunities to engage in work-based learning activities with the Sacramento Fire Department and other emergency and fire professionals. By the end of this course, students will acquire a wide range of skills and knowledge that will prepare them for college, career, and life. This course earns UC and CSU elective credit.
Pre-requisites: Completion of Fire and Emergency Services, Introduction to with a grade of C or better; English 10; and Integrated Mathematics II (recommended)
Co-requisites: CPR and First Aid
Adopted curricular materials: Essentials of Fire Fighting and Fire Department Operations, BRADY Publishing, a division of Pearson Education

This course is scheduled to become active in the 2019-2020 school year.

## Fire and Emergency Responders: Service Learning

Department: Career Technical Education
Grade Level: 09
Credits: 5.0
Max Credits: 5.0
Graduation Requirement: Career Technical Education
UC/CSU: Elective: Other (g)
NCAA: No
This course is an expansion of the "Focus on College and Career" course offered during the first semester of ninth grade. This course narrows the student's focus to public service careers including fire science, emergency medicine, wild land services, and emergency management. The course content includes classroom instruction, hands-on training, and community experiences. This course is designed to provide students with an understanding of the variety of public service agencies, employment opportunities, and the necessary skills needed for employment in the area of Emergency and Fire Services. At the conclusion of this course, students will complete a service learning project focused on the public service field.
Pre-requisite(s): Focus on College and Career
Adopted curricular materials: No textbook assigned

## Fire and Emergency Services, Introduction To

Department: Career Technical Education
Graduation Requirement: Career Technical Education

Grade Level: 10<br>Credits: 10.0<br>Max Credits: 10.0

This course is a preparatory course for the EMT (Emergency Medical Technician) program and is designed to prepare students for both entry-level positions in to the Fire and Emergency Services field and for success in post-secondary education. The course engages students in learning about the philosophy, history, future, and components of the emergency system, the well-being of the first responders, the responsibility of emergency services in a community, and legal issues related to emergency services. The course provides students with a comprehensive understanding of anatomy, physiology, and medical terminology. Students will have the opportunity to apply their learning through work-based learning activities with the Sacramento Fire Department and other public service partners as well as obtain the HEED (Health Education) certification.
Pre-requisite(s): Fire and Emergency Responders: Service Learning with a C or better, English 9 (required), and Mathematics I (recommended)
Co-requisites: CPR and First Aid (Recommended) and Biology (Recommended)
Adopted curricular materials: Essentials of Fire Fighting and Fire Department Operations, BRADY Publishing

## Fire and Emergency Services: Senior Seminar

| Department: Career Technical Education | Grade Level: 12 | Credits: $\mathbf{1 0 . 0}$ | Max Credits: $\mathbf{1 0 . 0}$ |
| :--- | :--- | :--- | :--- |
| Graduation Requirement: Career Technical Education | UC/CSU: Elective: Other (g) | NCAA: No |  |

This course provides students the opportunity and support to apply the skills and knowledge they have gained in their fire science pathway core courses through the creation of a portfolio, project of choice, and internship or job shadow with the Sacramento Fire Department. The student portfolio will include letters of commendation and recommendation, certifications, exemplar work samples, transcripts, and other career/academic-related documents. The project of choice will include a project proposal, research, a written paper, and a presentation. Internships and job shadows will be available for students who demonstrate knowledge and skill mastery. Students in this capstone course will apply their prior learning to an advanced study in the fire and emergency services field by having the opportunity to experience hands-on tasks in their area of specialization. This course is designed to fully prepare students for their transition into college and career opportunities within the fire and emergency services field. This course earns UC and CSU elective credit. This course is required for the Emergency Response Pathway at Valley High School.
Pre-requisites: Completion of Fire and Emergency Medical Responder with a grade of C or better; English 11; and Integrated Mathematics III (recommended)
Co-requisites: CPR and First Aid; AED
Adopted curricular materials: Essentials of Fire Fighting and Fire Department Operations, BRADY Publishing, a division of Pearson Education
(Course Code \#12030 - Public Service section of the HS Course Catalog for the following site:
Valley High School)

This course is scheduled to become active in the 2020-2021 school year.

Fundamentals of Public Health
Department: Career Technical Education
Graduation Requirement: Career Technical Education

Grade Level: $10 \quad$ Credits: $\mathbf{1 0 . 0} \quad$ Max Credits: $\mathbf{1 0 . 0}$
UC/CSU: Elective: Other (g)

12408

NCAA: No

This course is designed to allow students to gain knowledge in public health, leading to eventual Community Health Worker (CHW) certification for candidates who fulfill CHW certification requirements. This year-long course will provide instruction through lectures, research projects, and field work and is designed to be taken by students as part of the Health TECH Academy. The first semester will provide the foundational knowledge, in non-infectious and infectious diseases and advanced nutrition, necessary to organize community presentations and conduct field work at health fairs and other related events. Students will be expected to complete a group project in one area of nutrition. The second semester of this course is designed to provide students with the knowledge and understanding of the roles and core competencies of CHWs and their role in the healthcare delivery system. Students will gain research skills, hands-on skills, and presentations skills and will build critical thinking skills by analyzing various case studies. Students will gain knowledge and cultural competency and apply this knowledge through a group project called the Cultural Awareness Community Health Education (CACHE) Outreach Project.
Pre-requisite(s): Health
Adopted curricular materials: Glencoe Health, McGraw Hill
Introduction to Engineering Design (PLTW)
12349

| Department: Career Technical Education | Grade Level: 09 | Credits: $\mathbf{1 0 . 0}$ | Max Credits: $\mathbf{1 0 . 0}$ |
| :--- | :--- | :--- | :--- |
| Graduation Requirement: Career Technical Education | UC/CSU: Science Recommended (d) | NCAA: No |  |

This Project Lead the Way (PLTW) Engineering course challenges students to work in teams to solve problems as they learn about the design process, complete design exercises, and use a rapid prototyping machine, learn to reverse engineer products, and solve open-ended design problems.
Pre-requisite(s): Mathematics I with a grade of C or better (or, for incoming 9th Graders who did not take Mathematics I as an 8th grader, Mathematics 8 with a grade of $C$ or better)

Adopted curricular materials: Project Lead the Way, https://www.pltw.org/

## Manufacturing and Product Development, Intro to

12366
Department: Career Technical Education Grade Level: $10 \quad$ Credits: 10.0 Max Credits: $\mathbf{1 0 . 0}$
Graduation Requirement: Electives UC/CSU: Elective: Other (g) NCAA: No
This course introduces students to manufacturing and product innovation and design. Students learn about careers in manufacturing, manufacturing processes, product innovation and design as well as explore the development of projects throughout the class. Manufacturing is an in-demand field, particularly in the Sacramento region, and this course exposes students to what this field has to offer. Pre-Requisite: None
Adopted curricular materials: No textbook assigned

## Medical Assistant

12654
Department: Career Technical Education Grade Level: $12 \quad$ Credits: $\mathbf{3 0 . 0}$ Max Credits: $\mathbf{3 0 . 0}$
Graduation Requirement: Career Technical Education
UC/CSU: None
NCAA: No
This intensive year-long course meets daily for a three-hour period. Students focus on the two components of the medical assistant's role: front office tasks (administrative) and back office procedures (clinical). CPR and first aid certifications are included at no cost. A successful completer of this course will also be prepared to take the medical assisting certification exam required by many health care employers. This course is designed for high school seniors interested in starting a career in the medical field upon graduation. Due to the rigor and pace of this course, students must be highly motivated and committed to attending the course daily for the entire period.
Adopted curricular materials: Kinn's The Medical Assistant, An Applied Learning Approach, 14th Edition, Elsevier, Inc.

## Principles of Engineering Design (PLTW) Honors

Department: Career Technical Education
Graduation Requirement: Career Technical Education

Grade Level: $10 \quad$ Credits: $\mathbf{1 0 . 0}$ Max Credits: 10.0 UC/CSU: Science Recommended (d) NCAA: No

In this course, students explore a range of engineering topics, including mechanisms, energy and power, materials and structures, automation, statistics, and kinematics. Students investigate thermal and alternative energy applications and explore solar hydrogen systems. They use analysis of beam deflection as a context for learning about material properties and calculating the internal and external forces on an object. Students learn to control mechanical systems by investigating computer inputs and outputs and understanding hydraulic and pneumatic fluid power. This EGUSD honors course is recognized as an honors level course by UC/CSU and earns a GPA enhancement by both EGUSD and UC/CSU.
Pre-requisite: Mathematics I
Adopted Curricular Materials: Project Lead the Way, https://www.pltw.org/

## Electives

This course involves substantial critical reading and writing, and participating in, as well as conducting, regularly scheduled Socratic Seminars. AVID students will receive assistance and guidance in applying for college, researching financial aid and housing, registering for entrance and placement exams, preparing for Senior Project, and preparing for external examinations in the spring. The AVID Senior Seminar is divided into four quarters of emphasis, leading to the student's acceptance at a four-year college or university. Quarter one - Gaining Admission; Quarter two - Becoming a College Student; Quarter three - Placement and External Exam Preparation; Quarter four - Selecting a Major and Career Emphasis.
Adopted curricular materials: No textbook assigned

## AVID Tutor

09014

Department: Electives<br>Graduation Requirement: Electives

Grade Level: 10-12<br>UC/CSU: None<br>Credits: 5.0 Max Credits: $\mathbf{3 0 . 0}$<br>NCAA: No

AVID Tutors will support the AVID elective courses with facilitating tutorials and completing various assigned tasks under the supervision of the AVID elective teacher and/or Coordinator. Students do not need to be former or current AVID students. AVID tutors will serve as a role model for, and support the WICOR skill development of, AVID Elective students. All tutors must receive approval from the AVID Coordinator prior to enrollment; please see the AVID Coordinator or counselor for application information. Upon enrollment, tutors will be required to complete 16 hours of peer-tutor training. This course may be repeated for a maximum of 30 credits.
Prerequisites: minimum 2.5 grade point average, good attendance, completed AVID Tutor.
Application and approval from the AVID Coordinator.
Adopted curricular materials: No Textbook Assigned

## Career Studies

07546
Department: Electives Grade Level: 09-12 Credits: 10.0 Max Credits: $\mathbf{1 0 . 0}$
Graduation Requirement: Electives
UC/CSU: None
NCAA: No
This course allows students to investigate career opportunities, starting with an inventory of personal skills, aptitudes, and interests. Students will compare findings to local, state, and national labor statistics, and will identify educational and training requirements for their top career choices. Students will learn how to interview for a job, participate in mock interviews, write a resume, and complete a job application. Students will develop a professional portfolio and learn about careers from several different guest speakers throughout the course.
Adopted curricular materials: No textbook assigned

## Focus on College and Career

This course teaches students a quantifiable decision-making process that will help them envision and plan for a future that is productive, achievable, and stimulating. The culmination of this process is the development of an online career and education ten-year plan that can be used for advisory and academic coaching purposes and can be updated as students grow, change, or face transitions. The personalized ten-year plan provides the focus and intrinsic motivation to succeed in college, at work, and in life.

Adopted curricular materials: Career Choices \& Changes, 6th Edition, Academic Innovations, Copyright 2019

## Freshman Seminar

Department: Electives Grade Level: $09 \quad$ Credits: 5.0 Max Credits: 5.0
Graduation Requirement: Electives UC/CSU: None NCAA: No

This course is designed to support students when transitioning from middle school to high school. Students learn and practice strategies for effective time management, study skills, goal setting, organizational techniques, communication skills, and digital literacy skills that will assist them on their path to graduation and post-secondary opportunities. In this course, students also embark on a self-discovery mission to uncover personal values, goals, aptitudes, attributes, and interests that will help shape their decisions when choosing a career or thematic academy/pathway for their sophomore year.
Pre-Requisite(s): None
Adopted curricular material: No textbook assigned

## Government and Leadership

Department: Electives<br>Graduation Requirement: Electives

Grade Level: 09-12<br>UC/CSU: None

Credits: 10.0 Max Credits: 40.0
NCAA: No

This course is designed for students who hold elected or appointed positions in student government or leadership positions. These students may enroll in Leadership. This class assists students in developing leadership skills and provides for the planning and implementation of Associated Student Body activities. This course may be repeated for each year a student is elected to student government for a maximum of 40 credits.
Pre-requisite(s): Elected or appointed student government or leadership position
Adopted curricular materials: Building the World's Greatest High School Student Leader, Triumphant Heart Int., 1st Edition, Copyright 2016

## Life After High School

Department: Electives Grade Level: 11-12 Credits: 5.0 Max Credits: 5.0

## Graduation Requirement: Electives

UC/CSU: Electives (g)
NCAA: No
This course is designed to assist students in obtaining the intensive skills and knowledge necessary to reach their post-high-school objectives. Topics may include post-high-school options, including college, vocational programs, the military and the workforce, resume building and interviewing skills, career exploration, time management, communication skills, study skills, financial literacy, and global competence.
Pre-requisite: None
Adopted curricular materials: Becoming a Master Student, Houghton-Mifflin

Link Crew
Department: Electives Grade Level: 10-12
Graduation Requirement: Electives

UC/CSU: None

07529

This course is designed to assist and support students with acclimating to high school. Students enrolled in this course are provided training to be Link Crew leaders and mentors to help freshman students with academic success, character development, student engagement, and promoting a positive school climate. Team building, organization, leadership development, communication, facilitation skills, and personal development are components of this course.
Adopted curricular materials: No textbook assigned
Office Assistant
07508
Department: Electives Grade Level: 11-12 Credits: 5.0 Max Credits: $\mathbf{1 0 . 0}$

## Graduation Requirement: Electives

UC/CSU: None
NCAA: No
This course introduces students to various tasks assigned under supervision of school personnel. The location of the work and the type of work vary and may include office work, library work, instructional support, etc. Counselors will apprise interested students of the types of aides courses offered at the school site. Juniors and seniors may be student aides for one or two semesters. No more than a total of ten credits of student aide may be used toward graduation. Student aides will be selected from among those who submitted applications with their course selection forms. Applications are available from the counseling secretary. This course is Pass/No Pass. This course may be repeated for a maximum of 10 credits. Pre-requisite(s): 2.5 grade point average, good attendance, and completed aide application Adopted curricular materials: No textbook assigned

Peer Counseling I
Department: Electives
Graduation Requirement: Electives

Grade Level: 09-12
UC/CSU: None

07519
Credits: 5.0 Max Credits: 10.0 NCAA: No

This course is designed to rotate every other day for the entire year with Student Leadership Development. This course will help students develop skills in conflict mediation. Students interested in becoming conflict managers, peer counselors, mentors, peer educators, and a part of Link Crew are asked to register. Applications and interviews will occur before students are admitted into this class.
Adopted curricular materials: No textbook assigned

## Peer Counseling II

07571
Department: Electives Grade Level: 10-12
Graduation Requirement: Electives
UC/CSU: None
Credits: $\mathbf{1 0 . 0}$
Max Credits: 20.0
NCAA: No
This course is designed to continue the development of the skills and techniques necessary to be an effective peer helper and conflict manager. This is a zero period course intended for those students who have completed the level I course. Advanced peer helpers will coordinate and run a peer-led smoking cessation program, develop and perform theatre/skit style presentations about important teen issues, and assist the vice principals to resolve group conflicts. This course may be repeated for a maximum of 20 credits.
Pre-requisite(s): Peer Counseling/Student Leadership Skills with a grade of C or better
Adopted curricular materials: No textbook assigned

## Scholars

07575
Department: Electives Grade Level: 09-12 Credits: 5.0 Max Credits: 5.0
Graduation Requirement: Electives
UC/CSU: None
NCAA: No
This course focuses on "knowing how you know." Building upon a reflective process of how knowledge is gained, the course will promote critical thinking skills that will help students become successful scholars in both high school and post high school educational settings. This course will help students develop the learning habits, ways of thinking, study skills, organizational strategies, and planning exhibited by successful students at all levels. Students will examine how knowledge is achieved and used in the following curricular areas: language, math, social science, science, and the arts. As students proceed through high school and acquire knowledge in the different subjects, they will have a better understanding of the effects of reason, logic, and language. The course will require students to use their cognitive skills to critically interact with their learning so that they become consumers of knowledge.
Adopted curricular materials: No textbook assigned

## Study Skills

07552
Department: Electives
Grade Level: 09-12
Credits: 5.0 Max Credits: 5.0
Graduation Requirement: Electives
UC/CSU: None
NCAA: No
This course is designed to teach, develop, and support the study and technical skills which will support students' successful completion of enrolled courses of study. Content will include time and materials management, comprehension techniques such as note-taking, test preparation, and test-taking skills.
Adopted curricular materials: No textbook assigned

## Teacher Assistant

Department: Electives
Graduation Requirement: Electives
Grade Level: 11-12
Credits: 5.0 Max Credits: 10.0
UC/CSU: None
This course introduces students to various tasks assigned under supervision of a certificated teacher. Juniors and seniors may be a teacher assistant for one or two semesters; however, no more than ten credits of this course may be used toward graduation. Teacher assistants will be selected from among those who submit applications during the course selection process. Please see the Counseling department for application information. This course is Pass/No Pass. This course may be repeated for a maximum of 10 credits.
Pre-requisite(s): 2.5 grade point average, good attendance, and completed aide application Adopted curricular materials: No textbook assigned

## English

## AP English 11: Language \& Composition <br> Department: English <br> Grade Level: 11 <br> Credits: $\mathbf{1 0 . 0}$ <br> Max Credits: 10.0 <br> UC/CSU: English (b) NCAA: Yes

This course prepares students to be skilled readers of prose written in a variety of periods, disciplines, and rhetorical contexts and skilled writers who compose for a variety of domains - narrative, exploratory, expository, argumentative-and on a variety of subjects from personal experience to public policy, from imaginative literature to popular culture. The AP Language and Composition course's purpose is to prepare students to read complex texts with understanding and to write prose of sufficient richness and complexity to communicate effectively with readers. Students are strongly encouraged to take the AP exam. Adopted curricular materials: Language of Composition, 4th Edition, BFW Publishers

## AP English 12: Literature \& Composition

| Department: English | Grade Level: 12 | Credits: $\mathbf{1 0 . 0}$ | Max Credits: $\mathbf{1 0 . 0}$ |
| :--- | :--- | :--- | :--- |
| Graduation Requirement: English | UC/CSU: English (b) | NCAA: Yes |  |

This advanced course is designed to prepare college-bound seniors for the English Literature 12, AP test. The class will be based on the study of literature with extensive assignments in critical reading, preparing students for college-level critical reading and literary analysis. Students will write intensively, focusing on critical, analytical essays related to the literature they are studying. They will write frequently in class, sharpening their abilities to respond to the types of essay questions they will face on the AP exam and as college students in timed writing situations.
Note: This course is designed for highly motivated students who are responsible enough to handle rigorous reading and writing assignments on a daily basis, and to complete summer reading and/or between sessions reading as well. Students are strongly encouraged to take the AP exam.
Adopted curricular materials: The Bedford Introduction to Literature, 11th Edition, Bedford/St. Martin's

## College and Career Writing I

Grade Level: 09-12
Credits: $\mathbf{1 0 . 0}$ Max Credits: 10.0
Graduation Requirement: Electives
UC/CSU: None
NCAA: No
This English elective writing course is designed to build language, improve literacy skills, and provide high-interest issues that prepare English Learners for college and career. The academic emphases of this course are language development, academic vocabulary acquisition, and the development of written language skills. Student-centered activities are culturally and linguistically responsive, while simultaneously teaching students effective communication strategies. Students engage in lessons with culminating writing and oral projects that equip today's College and Career bound English Learner with the communicative confidence and competence needed to realize their academic and personal potential.
Pre-requisite(s): Placement by site's English Learner (EL) team
Co-requisite: 9-12 grade student who is either a LTEL or Struggling Redesignated Fluent (RF)
Adopted curricular materials: English 3D, Course C/II

## College and Career Writing II

Department: English
Graduation Requirement: Electives

Grade Level: 09-12<br>UC/CSU: None

Credits: $\mathbf{1 0 . 0}$ Max Credits: 10.0
NCAA: No

## EL Language Lab

Department: English
Graduation Requirement: Electives

Grade Level: 09-12
UC/CSU: None

02860
Credits: 10.0 Max Credits: 40.0
NCAA: No

This elective course emphasizes intensive instruction, in a small group setting ( 20 or fewer students), to improve student's competencies with listening, speaking, reading, and writing, through the development of the basic domains of English, e.g., pronunciation, letter sounds and units of meaning, syntax, spoken and written communication, as well as, computer literacy skills. The students will benefit from support provided for their academic courses by participating in homework assignment groups on a daily basis. Concurrent enrollment within both English Language Development and the ELL Lab will enable the students to more quickly progress toward reaching English fluency and mastering the language arts content standards. Primary language support is available, when necessary, to help students understand homework and the concepts of mathematics, science, and history. This course is repeatable for up to 40 credits.
Co-requisite: Concurrent enrollment in English 9, English 10, English 11, English 12, and/or EL Intensive I-IV.
Adopted curricular materials: Study Sync, McGraw-Hill Education or Edge, National Geographic Learning, Hampton-Brown, or Get Ready (dependent upon students' core English course)

## ELA Literacy 9-12

02611
Department: English Grade Level: 09-12
Graduation Requirement: English
UC/CSU: None
Credits: 10.0 Max Credits: $\mathbf{4 0 . 0}$
NCAA: No
This English/Language Arts (ELA) course is an intensive intervention class designed for students who have a multi-year trend of being more than two years below grade level in reading and who have demonstrated eligibility for the course based on targeted assessments. The goal of this course is to accelerate student learning for the purpose of being able to exit the course and to be successful with grade-level ELA and literacy standards in all content areas. This course may be repeated for a maximum of 40 credits.
Pre-requisite(s): Placement by site intervention team based on identified district data criteria and assessments Adopted curricular materials: California Language! Live, Voyager Sopris Learning, Inc.

## English 10

Department: English Grade Level: 10-12 Credits: 10.0 Max Credits: $\mathbf{1 0 . 0}$
Graduation Requirement: English UC/CSU: English (b)
NCAA: Yes
This course is designed toward integrating reading, writing, listening, and speaking, and utilizing higher order thinking skills. This course's standards-based instruction will include literature and expository writing, language mechanics and usage, and vocabulary development in meaningful contexts. Various literary and expository genres such as the short story, novel, drama, poetry, biography, and essay will be studied. Whenever possible, connections will be made between the language arts areas and the 10th grade world history course. Writing instruction, based primarily upon expository text and literature studied in the course, will center on a variety of models and writing as a process as well as writing on demand.
Adopted curricular materials: CA StudySync 10, McGraw-Hill Education

## English 10 Honors

Department: English
Grade Level: 10
Credits: 10.0
Max Credits: 10.0
UC/CSU: English (b)
NCAA: Yes
This honors course has been revised to align with University of California's Honors distinction criteria and provides students with rigorous instruction aligned to the California state standards. It is intended to prepare students for success in AP or IB level English classes. A balance of rich literature and thought-provoking informational texts, along with a variety of mixed mediums such as novels, visual/auditory presentations, and multi-media, offers student the opportunity to hone their critical reading and thinking skills. Students will demonstrate their understanding of the texts through a variety of assignments and culminating writing projects that place emphasis on analysis, synthesis, and research. This EGUSD honors course is recognized as an honors level course by UC/CSU and earns a GPA enhancement by both EGUSD and UC/CSU.
Pre-requisite(s): English 9 or English 9 Honors
Adopted curricular materials: Advanced Language \& Literature, for Honors and pre-AP English Courses, Bedford/St. Martin's
UC/CSU = College Approved, Grad Req = Graduation Requirement, NCAA = Student Athletes Eligible Course

English 11

Department: English
Graduation Requirement: English

Grade Level: 11-12
UC/CSU: English (b)

Credits: $\mathbf{1 0 . 0}$ Max Credits: 10.0 NCAA: Yes

This course provides an integrated language arts approach within an enriched standards-based curriculum focusing on American writers and the study of American literature. Students will examine the literature (which may include short stories, drama, poetry, novels, essays, and biographies) in the context of thematic and/or historical connections. By participating in appropriate reading, writing, and oral language activities, students will broaden their understanding of American culture and literature. This course will prepare students for critical reading and college-level writing.
Adopted curricular materials: CA StudySync 11, McGraw-Hill Education
English 1202300
$\begin{array}{llrr}\text { Department: English } & \text { Grade Level: } 12 & \text { Credits: } \mathbf{1 0 . 0} & \text { Max Credits: } \mathbf{1 0 . 0} \\ \text { Graduation Requirement: English } & \text { UC/CSU: English (b) } & \text { NCAA: Yes }\end{array}$
Graduation Requirement: English
UC/CSU: English (b)
This course offers standards-based integrated language arts instruction designed to address the unique needs of seniors who are preparing for the transition from high school to college and/or career. Students will study representative works of world literature in the context of thematic and/or historical connections to broaden their cultural perspectives. Writing domains emphasized in the course will lend themselves to interdisciplinary topics as well. This course will prepare students for critical reading and college-level writing.
Adopted curricular materials: CA StudySync 12, McGraw-Hill Education

## English 9

02000
Department: English Grade Level: 09-12 Credits: 10.0 Max Credits: $\mathbf{1 0 . 0}$
Graduation Requirement: English
UC/CSU: English (b)
NCAA: Yes
This course is designed to address the state content standards in reading, writing, listening, and speaking in an integrated approach to English/language arts, utilizing higher order thinking skills. Instruction will include reference skills, study and testtaking skills, writing, reading expository text and literature, language mechanics and usage, and vocabulary development in meaningful contexts. This class will study various and expository literary genres including the short story, novel, drama, poetry, biography, and essay. Writing instruction, based primarily upon expository text and literature studied in the course, will center on a variety of models and writing as a process as well as writing on demand.
Adopted curricular materials: CA StudySync 9, McGraw-Hill Education

## English 9 Honors

Department: English Grade Level: 09
UC/CSU: English (b)
Credits: 10.0 Max Credits: 10.0
Graduation Requirement: English
NCAA: Yes
This advanced course focuses on an integrated language arts approach within an enriched standards-based curriculum focusing on writers and the study of a variety of literary and exposition genres. It also includes a wide range of challenging literature. Instruction will focus on reference skills, study and test-taking skills, writing, language mechanics and usage, and vocabulary development. Writing instruction, based primarily upon expository text and literature studied in the course, will center on a variety of models and writing as a process as well as writing on demand. This course will prepare students for critical reading and college-level writing.
Note: This course is not granted "honors" credit by the UC system. This EGUSD honors course is not recognized as an honors level course by UC/CSU. It earns an EGUSD GPA enhancement but does NOT earn a GPA enhancement by UC/CSU.

Adopted curricular materials: CA StudySync 9, McGraw-Hill Education

## Exploring Culture Through Literature

02685
Grade Level: 11-12 Credits: $\mathbf{1 0 . 0}$ Max Credits: $\mathbf{1 0 . 0}$
UC/CSU: Elective: English (g)
NCAA: No

This elective course allows students from varied backgrounds to work together to immerse themselves in the study of different cultures and ethnicities found in the United States. Students will create their own cultural profiles to learn more about themselves through an in-depth study of their own culture. By studying literature, history, folk and fine arts from a culture other than their own, students can learn to celebrate each other's cultures while simultaneously learning the empathy and communication skills necessary in the business world.
Pre-requisite(s): English 10
Adopted curricular materials: No textbook assigned
Exploring Modern Issues in Text, Part I
02714
Department: English
Graduation Requirement: Electives
Grade Level: 11-12
UC/CSU: None
Credits: 10.0 Max Credits: 10.0
NCAA: No
This Designated ELD course incorporates comprehensive English language support for English Learners (ELs) at higher language proficiency levels in order for them to be ready for college and the workplace by the end of high school. Pre-Requisite(s): 11th or 12th grade English Learner who is at the expanding or bridging level; 11th or 12th grade struggling RFEP student.

Adopted curricular materials: Expository Reading and Writing Curriculum 3.0, Modules 1-5, Copyright 2019, The California State University

This designated ELD course incorporates comprehensive English language support for English Learners (ELs) at the Expanding and Bridging levels. With a focus on expository text, this course offers instruction to support the acquisition of academic English and incorporates activities that focus on content, concepts, and language features within the text(s) being read and produced. Students within this course will be given opportunities to accelerate their proficiency in the areas of reading, writing, speaking, and listening.
Pre-requisite(s): 11th or 12th grade English learner who is at the expanding or bridging level or an 11th or 12th grade struggling RFEP student.

Adopted Curricular Material: Expository Reading and Writing Curriculum, 3rd Edition, Modules 6-10, California State University

## Film as Literature I

Department: English
Graduation Requirement: Electives

Grade Level: 10-12
UC/CSU: None
Credits: 5.0 Max Credits: 5.0
NCAA: No

This elective course provides students with a focused study of film genres as a means to improve students' thinking and writing. Major works of cinema will be studied with emphasis on critical interpretation of the ways film communicates visually and verbally and on the historical and cultural context in which films are created. Students will study modern film as a storytelling medium, focusing on depth of characterization, originality of theme, and significant human issues that are presented in films universally recognized as classics. Students will view films, participate in small and large group discussions, and write several critical essays analyzing and interpreting films.
Pre-requisite(s): Must pass previous English class with a grade of C or better
Adopted curricular materials: Anatomy of Film, Bedford-St. Martin

UC/CSU = College Approved, Grad Req = Graduation Requirement, NCAA = Student Athletes Eligible Course

History, Form, \& Culture of Comic Books

Department: English
Graduation Requirement: Electives

Grade Level: 11-12
UC/CSU: None

Credits: 5.0 Max Credits: 5.0
NCAA: No

This course is a semester-long English elective course. It is designed to explore how mythology and history influenced the genre of comic books and how the form of comic books and graphic novels has influenced today's pop culture. Students will first consider why comic books are a genre worthy of study by examining the roots of visual storytelling and the literary/artistic qualities of the form. Students will then consider how certain characters are rooted in Greek and Roman mythology or modeled after The Hero's Journey. Finally, students will consider how various writers, illustrators, publishing companies, and the TV/film industry have shaped this genre. The research, literary analysis, and writing completed in this course will be anchored in the ELA Common Core State Standards.
Adopted curricular materials: The Power of Comics: History, Form, and Culture, Second Edition; Bloomsbury Publishing

## Writing to Discuss and Debate

This English elective course is designed to build language, improve literacy skills, and expand content knowledge for Long-Term English Learners (LTEL) and Struggling Redesignated students. The academic areas of emphasis in this course are language development, academic vocabulary acquisition, and the development of written language skills. Thematic units ensure that students make connections to science, math, and social studies core content areas. Instruction includes student-centered activities that are culturally and linguistically responsive while simultaneously teaching students effective reading strategies. Students engage in lessons with culminating writing and oral projects which are supported by the use of research-based best practices for teaching the listening, speaking, reading, and writing required in order to equip today's English Learner with the communicative confidence and competence needed to realize their academic and personal potential.
Pre-requisite(s): Placement by site's EL team
Co-requisite: 9-12 grade student who is either a LTEL or Struggling RF
Adopted curricular materials: English 3D, Course B, Volume 2

## Yearbook

This course is designed to be the actual production of the high school yearbook. Students will write and prepare copy and learn the techniques of yearbook layout and production. Students will be expected to work on a specific staff, meet all deadlines as set by the instructor, and participate in book sales. Students must also participate in all other related yearbook activities and distribution. This course may be repeated for a maximum of 40 credits.
Pre-requisite(s): Staff member selection will be by application and instructor approval only
Adopted curricular materials: No textbook assigned

## Health

## Health

Department: Health
Graduation Requirement: Health

This course focuses on health promotion, disease prevention, and risk reduction. Topics may include substance use and abuse, comprehensive sexual health education, human trafficking, nutrition, first aid, hands-on compression-only CPR and AED instruction, health-related physical fitness concepts, hygiene, mental health/self-esteem, and health-related careers.

Adopted curricular materials: Glencoe Health, McGraw-Hill, Copyright 2022

## Health EL

15800
Department: Health Grade Level: 09-12 Credits: 5.0 Max Credits: 5.0 Graduation Requirement: Health

UC/CSU: Electives (g)
NCAA: No
This course is designed to provide newcomer English Learners with a foundation in health promotion, disease prevention, and risk reduction. Units of study will include substance use and abuse, family life, nutrition, first-aid, health-related physical fitness, hygiene, mental health/self-esteem, and health-related careers. This course's ELD standards-based instruction includes an emphasis on academic vocabulary, expository writing, and subject-specific reading. Instructors use a variety of scaffolded instructional techniques to address the specific needs of second language learners.
Pre-requisite(s): Initial placement may be determined by EL coordinator, counselor, and/or multiple measures (primary language proficiency, CELDT/ELPAC, SBAC/CAASPP, program placement, etc.)

Adopted curricular materials: Glencoe Health, McGraw-Hill, Copyright 2022

## History/Social Science

## American Government

Department: History/Social Science
Graduation Requirement: American Government

Grade Level: 12
UC/CSU: US History (a)

Credits: 5.0 Max Credits: 5.0 NCAA: Yes

This course is designed to prepare students to assume their rights and responsibilities as citizens, which is required for graduation. To achieve this, various branches and key agencies of our government, from the local to the national level, will be studied. Civil rights, affirmative action, the ERA, and the criminal justice system will be emphasized. Resource speakers will be utilized to help students understand the major issues which affect the government today and the process by which political decisions are made. Adopted curricular materials: Impact California Social Studies: Principles of American Democracy, Copyright 2019, McGraw-Hill Education

## American Government, Newcomer EL

UC/CSU: None

NCAA: No
This course is designed to prepare newcomer English Learners to assume their rights and responsibilities as citizens, which is required for graduation. To achieve this, various branches and key agencies of our government, from the local to the national level, will be studied. Primary readings, videos, simulations, and other activities will be used to enhance the subject. This course's ELD standards-based instruction includes an emphasis on academic vocabulary, expository writing, and subject-specific reading. Instructors use a variety of scaffolded instructional techniques to address the specific needs of second language learners. Pre-requisite(s): Placement may be determined by EL coordinator, counselor, and/or multiple measures (primary language proficiency, ELPAC, SBAC/CAASPP, program placement, etc.)

Adopted curricular materials: Impact California Social Studies: Principles of American Democracy, McGraw-Hill Education

## AP Government and Politics United States

This course is designed for students who want to complete the equivalent of a one-semester college introductory course in American Government and Politics. Students will engage in an intense study of the constitutional foundation of American government; the citizen base of politics; political parties and interest groups; the institutions of the national, state, and local governments; the policy-making process; and civil rights and civil liberties. This class will require extensive reading, writing, and research. Upon completion, students will be eligible to take the AP examination in government.
Adopted curricular materials: American Government Stories of a Nation, 2nd Edition, BFW Publishers

## AP Psychology

Department: History/Social Science
Grade Level: 10-12 Credits: $\mathbf{1 0 . 0}$ Max Credits: $\mathbf{1 0 . 0}$
Graduation Requirement: Electives
UC/CSU: Elective: History/Social Science (g)
NCAA: Yes
This course introduces students to the systematic and scientific study of the behavioral and mental processes of human beings and other animals. Students are exposed to the psychological facts, principles, and phenomena associated with each major sub field within psychology. Students will also learn about the methods psychologists use to explore the processes involved in normal and abnormal perceptions, thoughts, feelings, and actions.
Adopted curricular materials: Myers' Psychology for AP, Worth Publishers

## AP US History

01230
Department: History/Social Science
Graduation Requirement: US History
Grade Level: 11-12
Credits: $\mathbf{1 0 . 0}$
Max Credits: 10.0
UC/CSU: US History (a)
NCAA: Yes
This course offers an intensive U.S. history program designed for students who wish an accelerated learning experience that may qualify high school work for college credit. Using many sources, documentary materials and statistical tables, the course provides students with the analytic and factual skills necessary to deal critically with problems and issues in American history. A special emphasis of the course will be the development of critical writing skills necessary for the essay portion of the AP examination. Adopted curricular materials: Give Me Liberty: An American History, 6th Edition, Norton Publishing

## AP World History

Department: History/Social Science
Grade Level: 10-12
Credits: 10.0
Max Credits: 10.0
Graduation Requirement: World History
UC/CSU: World History (a)
NCAA: Yes
This course traces the development of world history from the emergence of cities to the present, focusing on the period after 1000 A.D. and emphasizing the analytical and writing skills necessary for success in a college level history course. To this end, the course devotes considerable time to the critical evaluation of primary and secondary sources, analysis of change and continuity over time, and the historical process and contacts between people in different society. In assigned reading and class discussions, there will be an emphasis on critical thinking. Attention will be given to the skills necessary to take the AP World History exam in the spring.
Adopted curricular materials: Ways of the World- A Global History with Sources, 5th Edition, BFW Publishers

## Economics

01420
Department: History/Social Science Grade Level: $12 \quad$ Credits: 5.0 Max Credits: 5.0
Graduation Requirement: Economics
UC/CSU: Elective: History/Social Science (g)
NCAA: Yes
This course introduces the basic principles of all economic systems with special emphasis on a market-based system. This course is required for graduation. Specific topics include the basic principles of decision-making, scarcity, opportunity, cost, and the principles of supply and demand. These principles are examined from individual, national, and international perspectives. This course is designed to give students the necessary tools to analyze their own personal decision making as well as to evaluate the decisions of an individual firm, or the nation as a whole.
Adopted curricular materials: Impact California Social Studies: Principles of Economics, Copyright 2019, McGraw-Hill Education

## Economics, Newcomer EL

Department: History/Social Science
Graduation Requirement: Economics

| Grade Level: 11-12 | Credits: $\mathbf{5 . 0}$ | Max Credits: 5.0 |
| :--- | ---: | ---: |
| UC/CSU: None |  | NCAA: No |

This course is designed to introduce newcomer English Learners to the basic principles of all economic systems with a special emphasis on a market-based system. Specific topics will include the basic principles of decision making, scarcity, opportunity, cost and the principles of supply and demand. This course's ELD standards-based instruction includes an emphasis on academic vocabulary, expository writing, and subject-specific reading. Instructors use a variety of scaffolded instructional techniques to address the specific needs of second language learners.
Pre-requisite(s): Placement may be determined by EL coordinator, counselor, and/or multiple measures (primary language proficiency, ELPAC, SBAC/CAASPP, program placement, etc.)

Adopted curricular materials: Impact California Social Studies: Principles of Economics, McGraw-Hill Education

# Empowerment Skills For Young Adults 

01612

## Department: History/Social Science

Grade Level: 09-12
UC/CSU: None
Credits: 5.0 Max Credits: 5.0
Graduation Requirement: Electives
NCAA: No
This course explores the social and cultural development of students today. Students will focus specifically on the effect of personal and societal issues as they relate to young adults. Topics include: relationships, stereotypes, the influence of the media, perceptions, family dynamics, societal issues, careers, and physical presence and self-presentation. Self-reflection and assessment will occur as students create and keep a personal journal throughout the course.
Adopted curricular materials: No textbook assigned

## Ethnic Studies

Department: History/Social Science $\quad$ Grade Level: 09-12 $\quad$ Credits: 5.0 Max Credits: 5.0
Graduation Requirement: Electives
UC/CSU: Elective: History/Social Science (g)
NCAA: No
This course is designed to provide key language, historical lessons, and critical analysis skills that empower students to articulate and address the social injustices they see and experience. The class will cultivate the understanding necessary for social, political, and educational engagement while developing academic literacy skills. Students will be able to take an in-depth look at history through a thematic approach (as opposed to chronological) as well as theories of multicultural and gender studies.
Pre-Requisite: None
Adopted curricular materials: Our Stories in Our Voices, Copyright 2019, Kendall Hunt Publishing Company

## Psychology I

01601
Department: History/Social Science Grade Level: 10-12 Credits: 5.0 Max Credits: 5.0
Graduation Requirement: Electives
UC/CSU: Elective: History/Social Science (g) NCAA: Yes
This course provides students with a better understanding of human behavior. Students learn how their actions relate to the behavior of others. Units that will be covered include: Introduction to Psychology, learning principles and applications, memory and thought, adolescence and adulthood, and personality theories. Projects of each student's own design will be due at the end of the semester.

Adopted curricular materials: Essentials of Psychology Concepts and Applications, 6th Edition, Cengage Learning, Inc., Copyright 2022

## Psychology II

01602
Department: History/Social Science
Graduation Requirement: Electives

| Grade Level: 10-12 | Credits: 5.0 | Max Credits: 5.0 |
| :--- | :---: | :---: |
| UC/CSU: Elective: History/Social Science (g) | NCAA: Yes |  |

This course explores the topics of: Psychology and society, human relations, careers in psychology, adjustment in the family, adulthood and aging, mental retardation, drugs and behavior, and suicide. In addition to obtaining useful insights into specific topics related to the field of psychology, students will further develop the necessary research and writing skills for success at the university level. Projects of each student's own design will be due at the end of the semester.

Adopted curricular materials: Essentials of Psychology Concepts and Applications, 6th Edition, Cengage Learning, Inc., Copyright 2022

## Service Learning

Department: History/Social Science
Graduation Requirement: Electives
Grade Level: 11-12
UC/CSU: None
Credits: 5.0 Max Credits: 20.0
NCAA: No
This course explores learning through active community service and career exploration. Emphasis will be placed on three levels of service: Direct Service-activities that put students face-to-face in helping someone, Indirect Service-activities that are performed "behind the scenes" channeling resources to alleviate a problem, and Active Service-activities that require students to lend their voices and talents for a particular cause or position on an issue. This course may be repeated for a maximum of 20 credits. Adopted curricular materials: No textbook assigned

UC/CSU = College Approved, Grad Req = Graduation Requirement, NCAA = Student Athletes Eligible Course

Soundtrack of Modern American History
Department: History/Social Science
Graduation Requirement: Electives

Grade Level: 11-12 Credits: 5.0 Max Credits: 5.0
UC/CSU: Elective: History/Social Science (g) NCAA: No

This course offers students an opportunity to study popular music in an historical and social perspective from jazz, folk, rhythm and blues, rock, rap, and heavy metal. This course will explore how music responded to social change in twentieth century America through readings, daily listening, movies and videos, and an introduction to music and the instruments used in popular music.
Adopted curricular materials: No textbook assigned

## US History

01210
Department: History/Social Science Grade Level: 11-12 Credits: 10.0 Max Credits: $\mathbf{1 0 . 0}$
Graduation Requirement: US History
UC/CSU: US History (a)
NCAA: Yes
This course focuses on the study of modern American history, in accordance with the state framework. This is an 11th grade social science course. The class begins with a review of United States history from the nation's beginnings to the start of the 20th century. Connecting with past learning will highlight the initial segment of the class. The primary focus of the course will be 1900 America to the present. Students will participate in the examination of: the Progressive Era, the Jazz Age, world wars and cold wars, depression, civil rights, Watergate, and America today. An in-depth investigation of historical events and periods, the fostering of multicultural awareness, the recognition of ethical, civic, and democratic values present in American history, and the development of a historical perspective in relation to contemporary events represent the major aspects of the course. Literature, music, art, primary readings, videos, simulations and other activities will be used to enhance the subject.
Adopted curricular materials: Impact California Social Studies: United States History \& Geography, Continuity and Change, Copyright 2019, McGraw-Hill Education

| US History, Newcomer EL |  | 01830 |
| :--- | :--- | ---: |
| Department: History/Social Science | Grade Level: 11-12 | Credits: 10.0 |
| Graduation Requirement: US History | UC/CSU: None |  |
| Max Credits: 10.0 |  |  |
| NCAA: No |  |  |

This course introduces newcomer English Learners to the history of modern America beginning with a review of United States history from the nation's beginnings to the start of the twentieth century. Literature, music, and art primary readings, videos, simulations, and other activities will be used to enhance the subject. This course's ELD standards-based instruction includes an emphasis on academic vocabulary, expository writing, and subject-specific reading. Instructors use a variety of scaffolded instructional techniques to address the specific needs of second language learners.
Prerequisite(s): Placement may be determined by EL coordinator, counselor, and/or multiple measures (primary language proficiency, ELPAC, SBAC/CAASPP, program placement, etc.)

Adopted Curricular Material: Impact California Social Studies: United States History \& Geography, Continuity and Change, McGraw-Hill Education

## Women's Studies

Department: History/Social Science Grade Level: 09-12 Credits: 5.0 Max Credits: 5.0

Graduation Requirement: Electives
UC/CSU: Elective: History/Social Science (g) NCAA: Yes
This social science elective course is designed to introduce students to the history of the women's rights era in the United States beginning with the abolitionist movement to the roles of women in today's society. This class is aligned with the CA State Content Standards in World History and US History. Students will analyze women of different racial and social groups throughout women's suffrage reform. They will compare and contrast the working conditions, roles of women, and the image of women in the media/arts from the early 1900s through today.
Adopted curricular materials: No textbook assigned

## World Geography

Department: History/Social Science
Graduation Requirement: Geography

Grade Level: 09-12
UC/CSU: World History (a)

01010
Credits: 5.0 Max Credits: 5.0 NCAA: Yes

This course introduces students to the world's geographic regions and allows them to relate that knowledge to events in today's rapidly changing world. Contemporary issues confronting the world today, such as world trade, problems of developing nations, urbanization, environmental pollution, and conservation of the world's resources are addressed. Students develop certain basic geography skills. These include map reading and place name identification along with the interpretation of charts and diagrams. As students gain a global perspective of geography, they become increasingly aware of their role as a global citizen today.

Adopted curricular materials: Geography Alive! Regions and People (a digital resource)

## World Geography EL

Department: History/Social Science
Graduation Requirement: Geography

Grade Level: 09-12
UC/CSU: None

This social science course introduces newcomer English Learners to the world's geographic regions and allows them to relate that knowledge to events in today's rapidly changing world. Students develop basic geography skills including: map reading, place name identification, and interpretation of charts and diagrams. This course's ELD standards-based instruction includes an emphasis on academic vocabulary, expository writing, and subject-specific reading. Instructors use a variety of scaffolded instructional techniques to address the specific needs of second language learners.
Prerequisite(s): Placement may be determined by EL coordinator, counselor, and/or multiple measures (primary language proficiency, CELDT/ELPAC, SBAC/CAASPP, program placement, etc.)

Adopted curricular materials: Geography Alive! Regions and People (a digital resource)

## World Geography Honors

Credits: 10.0
Max Credits: 10.0
Graduation Requirement: Geography
UC/CSU: World History (a)

## NCAA: Yes

This course provides the same curricular focus as the two-semester college preparatory World Geography course. The increased academic rigor of this course is based on additional reading and writing assignments that will challenge the students in using complex critical thinking skills. As in all honors classes, excellent attendance and participation is mandatory. This course is not granted "honors" credit by the UC system. This EGUSD honors course is not recognized as an honors level course by UC/CSU. It earns an EGUSD GPA enhancement but does NOT earn a GPA enhancement by UC/CSU.

Adopted curricular materials: Geography Alive! Regions and People (a digital resource)

## World History

01110
Department: History/Social Science Grade Level: 10-12 Credits: 10.0 Max Credits: 10.0
Graduation Requirement: World History
UC/CSU: World History (a)
NCAA: Yes
This course explores how the connection between the past and the future will continue to form our lives. In World History, students again recognize the growing interdependence of people and cultures throughout the world. Students examine major turning points in the shaping of the modern world from the late eighteenth century to the present. Literature is incorporated to shed light on the life and times of the people and helps explain how and why things turned out as they did in the world today. Adopted curricular materials: Impact California Social Studies: World History, Culture and Geography, Copyright 2019, McGrawHill Education

## World History, Newcomer EL

Department: History/Social Science
Graduation Requirement: World History

Grade Level: 10-12
UC/CSU: None

This social science course prepares newcomer English Learners to explore how the connection between the past and the future will continue to impact our lives. Students will examine major turning points in the shaping of the modern world from the late eighteenth century to the present. This course's ELD standards-based instruction includes an emphasis on academic vocabulary, expository writing, and subject-specific reading. Instructors use a variety of scaffolded instructional techniques to address the specific needs of second language learners.
Pre-requisite(s): Placement may be determined by EL coordinator, counselor, and/or multiple measures (primary language proficiency, ELPAC, SBAC/CAASPP, program placement, etc.)

Adopted curricular materials: Impact California Social Studies: World History, Culture and Geography, McGraw-Hill Education

## You and the Law

| Department: History/Social Science | Grade Level: 09-12 | Credits: 5.0 |
| :--- | :--- | :--- |
| Graduation Requirement: Electives | UC/CSU: Elective: History/Social Science (g) | Max Credits: 5.0 |
| NCAA: Yes |  |  |

This course explores the following units: Criminal Law and Juvenile Justice, Tort Law, Consumer Law, Family Law, Housing Law, Constitutional Issues, and Individual Rights and Liberties. This course is a one-semester social science elective that introduces students to criminal and civil justice concepts.
Adopted curricular materials: Street Law: A Course in Practical Law, 10th Edition, McGraw Hill, copyright 2021

## Mathematics

Advanced Mathematics, Introduction To

## Department: Mathematics

Graduation Requirement: Mathematics
This advanced course is designed to explore the calculus of multi-variable functions and the fundamentals of linear algebra. The course parallels materials from the third semester of Calculus and first semester of Linear Algebra. Topics that will be covered include partial derivatives, saddle points, the vector cross product, projection, planes, double integrals, alternate coordinate systems, inverse matrices, matrix factorization, the fundamental subspaces, vector spaces, eigenvalues and eigenvectors, orthogonality, and linear independence. The content of this course is designed to prepare students for rigorous math coursework during their first year of college. This course uses a "5-point A" grading system recognized by the CSU and UC systems.
Pre-requisite(s): Calculus BC with a grade of $C$ or better
Adopted curricular materials: No textbook assigned

## AP Calculus AB

Grade Level: $12 \quad$ Credits: $\mathbf{1 0 . 0}$ Max Credits: 10.0
UC/CSU: Mathematics - Advanced (c) NCAA: Yes

| Department: Mathematics | Grade Level: 09-12 | Credits: $\mathbf{1 0 . 0}$ | Max Credits: $\mathbf{1 0 . 0}$ |
| :--- | :--- | :--- | :--- |
| Graduation Requirement: Mathematics | UC/CSU: Mathematics - Advanced (c) | NCAA: Yes |  |

This advanced course is designed to parallel the first semester of a college level calculus course and will cover differential and integral calculus. Topics that will be covered include: limits, differentiation, applications of differentiation, integration, applications of integration, and elementary functions. This class will prepare students to take the AP Calculus AB test near the end of the school year, giving them the opportunity to earn college credit. Students are strongly encouraged to take the AP exam. A graphing calculator is recommended. This course uses a "5-point A" grading system recognized by the CSU and UC system. Pre-requisite(s): Pre-Calculus with a grade of C or better
Adopted curricular materials: Calculus, 11th Edition; Cengage Learning

## Applied Mathematics

03019
Department: Mathematics
Grade Level: 09-12
Credits: 10.0
Max Credits: 10.0
Graduation Requirement: Mathematics
UC/CSU: Mathematics I (c)
NCAA: No
This year-long college-preparatory course supports key Mathematics I standards and introduces key Mathematics II standards. Designed for students who seek a better grasp of mathematical concepts before enrolling in Mathematics II, this course makes explicit connections between the Standards for Mathematical Practice and the Content Standards through performance tasks and project-based learning. This course prioritizes the usefulness in learning mathematics as students apply their knowledge using a variety of avenues such as surveys and art.
Pre-requisite(s): Mathematics I
Adopted curricular materials: EGUSD Printed APPLIED MATH Materials
Exploring Functions through Mathematical Practices
Department: Mathematics
Grade Level: 10-12
Credits: $\mathbf{1 0 . 0}$
Max Credits: 10.0
Graduation Requirement: Mathematics
UC/CSU: Mathematics - Advanced (c)
NCAA: Yes
This course supports key Mathematics II standards and introduces key Mathematics III standards. Designed for students who seek a better grasp of mathematical concepts before enrolling in Mathematics III, this course focuses on function families by providing opportunities to identify and compare the key characteristics of a variety of functions as they are represented by graphs, tables, equations, and narratives describing real-world situations.
Pre-Requisite(s): Mathematics II
Adopted curricular materials: EGUSD-Created materials for Exploring Functions through Mathematical Practices

## Financial Literacy

Department: Mathematics
Graduation Requirement: Mathematics

Grade Level: $12 \quad$ Credits: $\mathbf{1 0 . 0}$ Max Credits: 10.0
UC/CSU: Mathematics I (c)

This course is an algebra-based, applications-oriented personal finance course that utilizes mathematical modeling. Financial Literacy makes use of high school mathematics topics that are applied to real-world situations. A variety of problem-solving skills and strategies will be used as students make conjectures about budget choices and understand how those choices impact their future financial health. Students will learn about investing, taxes, and the basics of credit and banking. In addition, students will examine various economic systems, including the movement of goods and services, supply and demand, and production chains. Pre-Requisite(s): Mathematics I or Mathematics I B, Part 2
Adopted curricular material: Foundations in Personal Finance (a digital resource)

## Mathematics I

03015
$\begin{array}{llll}\text { Department: Mathematics } & \text { Grade Level: } 08-12 & \text { Credits: } \mathbf{1 0 . 0} & \text { Max Credits: } \mathbf{1 0 . 0} \\ \text { Graduation Requirement: Mathematics I } & \text { UC/CSU: Mathematics I (c) } & \text { NCAA: Yes }\end{array}$
Graduation Requirement: Mathematics I
UC/CSU: Mathematics I (c)
NCAA: Yes
This course is the first course in a series of three that uses an integrated approach to cover the following domains: Number and Quantity, Algebra, Functions, Geometry, and Statistics and Probability. The problem situations, models, and technology used will foster connections to the eight standards of mathematical practice, which develop concepts from multiple perspectives. Mathematics I topics focus on the interconnectedness of function elements, tables, graphs, and equations; comparison and contrast and decision-making using Algebraic models; proving Geometric theorems about two-dimensional figures; and modeling using mathematical probability. Technology will be used to introduce and expand upon all areas of focus
Pre-requisite for students taking Mathematics I in Grade 8: Mathematics 7 Accelerated with a grade of C or better
Adopted curricular materials: Integrated Mathematics 1, Houghton-Mifflin Harcourt

## Mathematics I A, Part 1

Department: Mathematics
Graduation Requirement: Electives

Grade Level: 09-12 Credits: 5.0 Max Credits: 5.0 UC/CSU: Elective: Mathematics (g)

NCAA: Yes

Mathematics I A is the first in a two-part course that integrates the conceptual categories of Number and Quantity, Algebra, Functions, Geometry, and Statistics. Coupled with Mathematics I B, these two courses are the equivalent of a two-year Mathematics I course. The problem situations, models, and technology used will foster connections to the eight Standards for Mathematical Practice, which develop conceptual understanding from multiple perspectives. Mathematics I A topics focus on the interconnectedness of function elements, tables, graphs, and equations; comparing and contrasting and decision-making using Algebraic models, and modeling using mathematical probability. In addition, students will be provided with online and in-class intervention to fill in any gaps in mathematical knowledge needed for success in Mathematics I A. This course earns five elective credits in the first semester (Part 1) and five mathematics credits in the second semester (Part 2).
Adopted curricular materials: Integrated Mathematics 1, Volume 1; Houghton Mifflin Harcourt

## Mathematics I A, Part 2

Department: Mathematics
Graduation Requirement: Mathematics I
Grade Level: 09-12 Credits: 5.0 Max Credits: 5.0

UC/CSU: Elective: Mathematics (g) NCAA: Yes
Mathematics I A is the first in a two-part course that integrates the conceptual categories of Number and Quantity, Algebra, Functions, Geometry, and Statistics. Coupled with Mathematics I B, these two courses are the equivalent of a two-year Mathematics I course. The problem situations, models, and technology used will foster connections to the eight Standards for Mathematical Practice, which develop conceptual understanding from multiple perspectives. Mathematics I A topics focus on the interconnectedness of function elements, tables, graphs, and equations; comparing and contrasting and decision-making using Algebraic models, and modeling using mathematical probability. In addition, students will be provided with online and in-class intervention to fill in any gaps in mathematical knowledge needed for success in Mathematics I A. This course earns five elective credits in the first semester (Part 1) and five mathematics credits in the second semester (Part 2).
Pre-requisite(s): Mathematics I A, Part 1
Adopted curricular materials: Integrated Mathematics 1, Volume 1; Houghton Mifflin Harcourt

UC/CSU = College Approved, Grad Req = Graduation Requirement, NCAA = Student Athletes Eligible Course

Mathematics I B, Part 1
Department: Mathematics
Graduation Requirement: Electives

Grade Level: 09-12
UC/CSU: Mathematics I (c)

03103
Credits: 5.0 Max Credits: 5.0 NCAA: Yes

Mathematics I B is the second in a two-part course which integrates the conceptual categories of Number and Quantity, Algebra, Functions, Geometry, and Statistics. Coupled with Mathematics I A, these two courses are the equivalent of Mathematics I. The problem situations, models, and technology used will foster connections to the eight Standards for Mathematical Practice which develop conceptual understanding from multiple perspectives. Mathematics I B topics focus on exponential relationships, geometric transformation and congruence, the properties of lines, angles, and triangles, along with the applications of these properties; and quadrilaterals and coordinate proof. In addition, students will be provided with online and in-class intervention to fill in any gaps in mathematical knowledge needed for success in Mathematics I B. This course earns five elective credits in the first semester (Part 1) and five math credits in the second semester (Part 2).
Pre-requisite(s): Mathematics I A, Part 2
Adopted curricular materials: Integrated Mathematics 1, Volume 2; Houghton Mifflin Harcourt

## Mathematics I B, Part 2

Department: Mathematics
Graduation Requirement: Mathematics I

Grade Level: 09-12
UC/CSU: Mathematics I (c)

Credits: 5.0 Max Credits: 5.0
NCAA: Yes

Mathematics I B is the second in a two-part course which integrates the conceptual categories of Number and Quantity, Algebra, Functions, Geometry, and Statistics. Coupled with Mathematics I A, these two courses are the equivalent of Mathematics I. The problem situations, models, and technology used will foster connections to the eight Standards for Mathematical Practice which develop conceptual understanding from multiple perspectives. Mathematics I B topics focus on exponential relationships, geometric transformation and congruence, the properties of lines, angles, and triangles, along with the applications of these properties; and quadrilaterals and coordinate proof. In addition, students will be provided with online and in-class intervention to fill in any gaps in mathematical knowledge needed for success in Mathematics I B. This course earns five elective credits in the first semester (Part 1) and five math credits in the second semester (Part 2).
Pre-requisite(s): Mathematics I B, Part 1
Adopted curricular materials: Integrated Mathematics 1, Volume 2; Houghton Mifflin Harcourt

## Mathematics I Newcomer EL

Department: Mathematics Grade Level: 09-12 Credits: 10.0 Max Credits: $\mathbf{1 0 . 0}$

Graduation Requirement: Mathematics I
UC/CSU: Mathematics I (c)
NCAA: No
This course provides English learners in a Newcomer Program with the foundational algebra and geometry skills needed for success in subsequent high school math courses. Topics include linear and exponential functions, congruency, scatter plots, twoway frequency tables, and measures of central tendency. The course integrates ELD standards-based instruction to include a focus on academic vocabulary, expository writing, and expository reading of mathematics texts. Instructors use a variety of scaffolded instructional techniques focusing on listening, speaking, reading, and writing to address the specific needs of Newcomer English learners.
Pre-Requisite(s): None
Co-Requisite(s): Enrollment in a Newcomer Program
Adopted curricular material: Integrated Mathematics 1, Volumes 1 and 2

# Mathematics I Newcomer EL Companion Course 

## Department: Mathematics

Grade Level: 09-12
UC/CSU: None

Credits: 10.0 Max Credits: 20.0
NCAA: No

This course is designed for students whose formal education may have been interrupted and must be taken concurrently with Mathematics I Newcomer EL while enrolled in a Newcomer Program. The goal is to provide students with the foundational mathematics skills for success in Mathematics I and beyond. The course integrates ELD standards-based instruction to include a focus on academic vocabulary, expository writing, and expository reading of mathematics texts. Instructors use a variety of scaffolded instructional techniques focusing on listening, speaking, reading, and writing to address the specific needs of Newcomer English learners. This course may be repeated for a maximum of 20 credits only if the Mathematics I Newcomer EL course is eligible to be repeated due to a failing grade.
Pre-Requisite(s): None
Co-Requisite(s): Enrollment in Mathematics I Newcomer EL and Enrollment in a Newcomer Program
Adopted curricular material: No textbook assigned

## Mathematics II

03025

| Department: Mathematics | Grade Level: 09-12 | Credits: $\mathbf{1 0 . 0}$ | Max Credits: $\mathbf{1 0 . 0}$ |
| :--- | :--- | :--- | :--- |
| Graduation Requirement: Mathematics | UC/CSU: Mathematics II (c) | NCAA: Yes |  |

This course is the second course in a series of three that uses an integrated approach to cover the following domains: Number and Quantity, Algebra, Functions, Geometry, and Statistics and Probability. This course focuses on extending the laws of exponents to rational exponents, and solving and comparing the characteristics of functions, including their associated inequalities. Students will extend their work with similarity, triangle and coordinate proofs, constructions, congruence, and transformations while using proportional reasoning, trigonometric ratios and the Pythagorean Identity. Students will expand their conceptual understanding of probability and statistics.
Pre-requisite(s): Mathematics I or Applied Mathematics with a grade of C or better
Adopted curricular materials: Integrated Mathematics 2, Houghton-Mifflin Harcourt

## Mathematics II A, Part 1

03125
Department: Mathematics
Grade Level: 09-12 Credits: 5.0
UC/CSU: Elective: Mathematics (g)
Max Credits: 5.0
NCAA: Yes
Mathematics II A is the first in a two-course Mathematics II sequence focusing on performing operations on polynomials, extending the laws of exponents, comparing the characteristics of functions, graphing and solving quadratic equations, finding inverse functions, and solving systems of quadratic equations and inequalities. Students will be provided with online and in-class intervention to fill in any gaps in mathematical knowledge needed for success in Mathematics II A. This course earns five elective credits in the first semester (Part 1) and five mathematics credits in the second semester (Part 2).
Pre-requisite(s): Mathematics I, Mathematics I B Part 2, or Applied Mathematics with a grade of C or better
Adopted curricular materials: Integrated Mathematics 2, Volume 1; Houghton Mifflin Harcourt

## Mathematics II A, Part 2

Department: Mathematics
Grade Level: 09-12 Credits: 5.0 Max Credits: 5.0
UC/CSU: Elective: Mathematics (g) NCAA: Yes
Mathematics II A is the first in a two-course Mathematics II sequence focusing on performing operations on polynomials, extending the laws of exponents, comparing the characteristics of functions, graphing and solving quadratic equations, finding inverse functions, and solving systems of quadratic equations and inequalities. Students will be provided with online and in-class intervention to fill in any gaps in mathematical knowledge needed for success in Mathematics II A. This course earns five elective credits in the first semester (Part 1) and five mathematics credits in the second semester (Part 2).
Pre-requisite(s): Mathematics II A, Part 1
Adopted curricular materials: Integrated Mathematics 2, Volume 1; Houghton Mifflin Harcourt

## Mathematics II B, Part 1

Department: Mathematics
Graduation Requirement: Electives

Grade Level: 09-12
UC/CSU: Mathematics II (c)

03127
Credits: 5.0 Max Credits: 5.0
NCAA: Yes

Mathematics II B is the second in a two-course Mathematics II sequence focusing on performing operations on polynomials, extending the laws of exponents, comparing the characteristics of functions, graphing and solving quadratic equations, finding inverse functions, and solving systems of quadratic equations and inequalities. Students will be provided with online and in-class intervention to fill in any gaps in mathematical knowledge needed for success in Mathematics II B. This course earns five elective credits in the first semester (Part 1) and five mathematics credits in the second semester (Part 2).
Pre-requisite(s): Mathematics II A, Part 2
Adopted curricular materials: Integrated Mathematics 2, Volume 2; Houghton Mifflin Harcourt

## Mathematics II B, Part 2

## Mathematics III

03035

Department: Mathematics
Graduation Requirement: Mathematics

Grade Level: 10-12
UC/CSU: Mathematics III (c)

Credits: 10.0 Max Credits: 10.0
NCAA: Yes

This course is the third course in a series of three that uses an integrated approach to cover the following domains: Number and Quantity, Algebra, Functions, Geometry, and Statistics and Probability. This course focuses on four major areas:(1) Expanding the understanding of functions to include polynomial, rational, and radical functions, (2) Expanding right triangle trigonometry to include general triangles, (3) Applying methods from probability and statistics to draw inferences and conclusions from data, and (4) Consolidating functions and geometry to create models and solve contextual problems.

Pre-requisite(s): Mathematics II, Mathematics II B, Part 2, Mathematics II Honors, or Exploring Functions through Mathematical Practices with a grade of $C$ or better.
Adopted curricular materials: Integrated Mathematics 3, Houghton-Mifflin Harcourt

## Mathematics III A, Part 1

Department: Mathematics Grade Level: 10-12 Credits: 5.0 Max Credits: 5.0

Graduation Requirement: Electives
UC/CSU: Elective: Mathematics (g) NCAA: Yes
Mathematics III A is the first in a two course Mathematics III course sequence focusing on polynomial functions, rational and radical functions, and the use of geometry and functions to model and solve problems. Students will be provided with online and in-class intervention to fill in any gaps in mathematical knowledge needed for success in Mathematics III A. This course earns five elective credits in the first semester (Part 1) and five mathematics credits in the second semester (Part 2).
Pre-requisite(s): Mathematics II, Mathematics II B, Part 2 or Exploring Functions through Mathematical Practices with a grade of C or better.
Adopted curricular materials: Integrated Mathematics 3, Volume 1, Houghton-Mifflin Harcourt

## Mathematics III A, Part 2

Department: Mathematics
Graduation Requirement: Mathematics

Grade Level: 10-12 Credits: 5.0 Max Credits: 5.0
UC/CSU: Elective: Mathematics (g) NCAA: Yes

Mathematics III A is the first in a two course Mathematics III course sequence focusing on polynomial functions, rational and radical functions, and the use of geometry and functions to model and solve problems. Students will be provided with online and in-class intervention to fill in any gaps in mathematical knowledge needed for success in Mathematics III A. This course earns five elective credits in the first semester (Part 1) and five mathematics credits in the second semester (Part 2).
Pre-requisite(s): Mathematics III A, Part 1
Adopted curricular materials: Integrated Mathematics 3, Volume 1, Houghton-Mifflin Harcourt

## Mathematics III B, Part 1

Department: Mathematics
Graduation Requirement: Electives

Grade Level: 10-12
UC/CSU: Mathematics III (c)

Credits: 5.0 Max Credits: 5.0 NCAA: Yes

Mathematics III B is the second in a two-course Mathematics III sequence focusing on exponential and logarithmic functions and equations, trigonometric functions, and using data analysis to make decisions. Students will be provided with online and in-class intervention to fill in any gaps in mathematical knowledge needed for success in Mathematics III B. This course earns five elective credits in the first semester (Part 1) and five mathematics credits in the second semester (Part 2).
Pre-requisite(s): Mathematics III A, Part 2
Adopted curricular materials: Integrated Mathematics 3, Volume 2, Houghton-Mifflin Harcourt

Mathematics III B is the second in a two-course Mathematics III sequence focusing on exponential and logarithmic functions and equations, trigonometric functions, and using data analysis to make decisions. Students will be provided with online and in-class intervention to fill in any gaps in mathematical knowledge needed for success in Mathematics III B. This course earns five elective credits in the first semester (Part 1) and five mathematics credits in the second semester (Part 2).
Pre-requisite(s): Mathematics III B, Part 1
Adopted curricular materials: Integrated Mathematics 3, Volume 2, Houghton-Mifflin Harcourt

## Pre-Calculus

03040
Department: Mathematics Grade Level: 09-12 Credits: 10.0 Max Credits: $\mathbf{1 0 . 0}$
Graduation Requirement: Mathematics
UC/CSU: Mathematics - Advanced (c)
NCAA: Yes
This course is designed to extend the study of mathematics beyond the standard three-year progression of Mathematics I, Mathematics II, Mathematics III. Topics that will be covered will include: math analysis, trigonometry, and linear algebra. A graphing calculator is recommended.
Pre-requisite(s): Mathematics III with a grade of C or better
Adopted curricular materials: Precalculus with Limits, 4th Edition, Cengage Learning

## Pre-Calculus Honors

Department: Mathematics
Graduation Requirement: Mathematics

Grade Level: 10-12 Credits: $\mathbf{1 0 . 0}$ Max Credits: 10.0
UC/CSU: Mathematics - Advanced (c) NCAA: Yes

This course is designed to extend the study of mathematics beyond the standard three-year progression of Mathematics I, Mathematics II, Mathematics III. It is recommended for those students who wish to take an AP calculus class. Topics that will be covered will include: limits, derivatives, continuity, piece-wise functions, as well as math analysis, trigonometry, and linear algebra. A graphing calculator is recommended. This course uses a "5-point A" grading system recognized by the CSU and UC systems. This EGUSD honors course is recognized as an honors level course by UC/CSU and earns a GPA enhancement by both EGUSD and UC/CSU.
Pre-requisite(s): Mathematics III with a grade of C or better
Adopted curricular materials: Precalculus with Limits, 4th Edition, Cengage Learning

## Probability and Statistics

03068

Department: Mathematics
Graduation Requirement: Mathematics

Grade Level: 11-12
UC/CSU: Mathematics III (c)

Credits: 10.0 Max Credits: $\mathbf{1 0 . 0}$
NCAA: Yes

This course is designed to explore the study of probability and the processing of statistical information. The course will review Algebra and Geometry concepts that relate to statistics. The topics that will be covered include: probability, standard distributions, measures of central tendency, standard deviation, and interpretation of these data. (A scientific calculator is recommended.)
Pre-requisite(s): Pre-requisite(s): Mathematics II, Mathematics II B, Part 2, Mathematics II Honors, or Exploring Functions through Mathematical Practices with a grade of C or better

Adopted curricular materials: Statistics and Probability with Applications, Third Edition; Bedford, Freeman \& Worth

## Transition to Quantitative Reasoning

03661
Department: Mathematics
Grade Level: 11-12 Credits: $\mathbf{1 0 . 0}$ Max Credits: 10.0
Graduation Requirement: Mathematics
UC/CSU: Mathematics - Advanced (c)
NCAA: No
This course for seniors is designed to strengthen students' mathematical foundation and to prepare students to be successful in college-level math. The goal of this course is to deepen conceptual understandings of mathematical theory, skills, and strategies required by the California content and practice standards. Utilizing practical life applications, this course serves both college and career-bound high school seniors.
Pre-requisite(s): Mathematics III or Mathematics III B, Part 2 with a grade of C or higher
Adopted curricular materials: Intersegmental Partnership between CSUS/SCOE/PCOE/LRCCD/SJCCD, Publisher: CSUS/SCOE, Contact Joy Salvetti.

## Physical Education

## Physical Education, Course I

08020
Grade Level: 09-12
UC/CSU: None

Credits: 10.0 Max Credits: 10.0
NCAA: No

This course provides a wide variety of activities focusing on aquatics, rhythm/dance, and individual and team activities. All students are expected to dress and participate on a daily basis. The class is designed to provide an introduction to many different activities. In each activity, fitness, fundamentals, and skill development will be emphasized. Grades are based on skill development, participation, writing assignments, and written tests. All 9th grade students are required to pass 5 out of 6 of the state's FITNESSGRAM tests.
Adopted curricular materials: No textbook assigned

## PHYSICAL EDUCATION, ADAPTED

This course provides for students whose needs are not met in the regular program. The adapted physical education program is under the supervision of an Adapted Physical Education (A.P.E.) specialist with training in this area. Enrollment must be accompanied by a physician's approval. The program provides individualized activities specially designed to meet each student's needs and conditions. The class gives special attention to those with limitations and protects students with disabilities. Pre-requisite(s): I.E.P. and physician approval
Adopted curricular materials: No textbook assigned
PHYSICAL EDUCATION, MODIFIED
This course provides for students with temporary limitations (four weeks to one year) i.e., knee, arm, ankle, shoulder, back problems, fractures. Enrollment must be accompanied by a physician's recommendation. Activities may include archery, badminton, Frisbee games, golf, hockey, rhythms, table tennis, and weight training that will be modified to meet each student's needs.
Pre-requisite(s): Physician recommendation
Adopted curricular materials: No textbook assigned

## Physical Education, Course II

Department: Physical Education
Grade Level: 09-12
UC/CSU: None
Credits: $\mathbf{1 0 . 0}$ Max Credits: 10.0 NCAA: No
This course offers a variety of activities focusing on Junior combatives, gymnastics/tumbling and team activities through which the Senior California Department of Education Physical Education Content Standards, Course II, will be met. Students will learn skills necessary to perform a variety of physical activities as well as knowledge of physical fitness and wellness. They will create goals and integrate their knowledge into life-long patterns of wellness and fitness. Students who have not previously passed 5 out of 6 FITNESSGRAM tests in Course I will have to Pass 5 out of 6 FITNESSGRAM tests in Course II.
Adopted curricular materials: No textbook assigned
Weight Training, Advanced 08675

| Department: Physical Education | Grade Level: 10-12 | Credits: $\mathbf{5 . 0}$ | Max Credits: $\mathbf{3 0 . 0}$ |
| :--- | :--- | :--- | :--- |
| Graduation Requirement: Electives | UC/CSU: None |  | NCAA: No |

This course is designed for students who want to become more physically fit and who have a serious interest in developing strength through a weight training program. Strength training, toning, plyometrics, and jump rope will be the main themes of the course. Cardiovascular techniques will also be stressed. This course may be repeated for a maximum of 30 credits. Students will be expected to dress and participate every day. Sophomores may take this course in place of PE Course II for one semester only. Students not meeting instructor expectations may be moved into PE Course II.
Pre-requisite(s): Beginning Weight Training
Adopted curricular materials: No textbook assigned

UC/CSU = College Approved, Grad Req = Graduation Requirement, NCAA = Student Athletes Eligible Course

Weight Training, Beginning
Department: Physical Education
Graduation Requirement: Electives

Grade Level: 09-12
UC/CSU: None

08670
Credits: 5.0 Max Credits: 5.0 NCAA: No

This five credit course is designed to introduce students to weight training. It will cover muscles and their functions, 46 basic lifts, and an understanding of training frequency, training resistance, training repetitions, training progression, and training speed. Students will be introduced to workout design. During the second quarter, the students will design their own workout program and set personal goals. Students will analyze their diet and be given instruction on diet needs when weight training. This course must be passed before Advanced Weight Training can be taken. Elective credit only.
Pre-requisite(s): PE Course I with a grade of C or better
Adopted curricular materials: No textbook assigned

## Science

| Biology |  | 10 |
| :---: | :---: | :---: |
| Department: Science | Crade Level: 11-12 Credits: | Max Credi |
| Graduation Requirement: Life Science | UC/CSU: Biological Science (d) | NCAA: Yes |
| This course is designed as an intensive, in-depth second year biology course for students who seek additional challenge. This college-level class will focus on the content of the AP biology curriculum and will prepare students to take the AP biology test. Students are strongly encouraged to take the AP exam. <br> Pre-requisite(s): Biology and Chemistry with a grade of C or better <br> Adopted curricular materials: AP Edition, Campbell Biology in Focus, Pearson, 3rd Edition, Copyright 2020 <br> AP Chemistry <br> 04209 <br> Department: Science <br> Grade Level: 10-12 <br> Credits: 10.0 <br> Max Credits: 10.0 <br> Graduation Requirement: Physical Science <br> UC/CSU: Physical Science (d) <br> NCAA: Yes |  |  |
|  |  |  |
|  |  |  |
|  |  |  |

This course offers mathematical and laboratory models to develop an understanding of Chemistry. This accelerated Chemistry course content includes reactions, thermo chemistry, bonding, and kinetics. Students will be eligible to take the AP examination in Chemistry and may earn college credit. Students are strongly encouraged to take the AP exam.
Pre-requisite(s): Mathematics II with a grade of C or better and concurrent enrollment in Mathematics III or higher level mathematics course
Adopted curricular materials: Chemistry: A Molecular Approach, AP Edition, Pearson, 6th Edition, Copyright 2023

## AP Environmental Science

04639
Department: Science
Grade Level: 11-12
Credits: 10.0
Max Credits: 10.0
Graduation Requirement: Science
UC/CSU: Physical Science (d)
NCAA: Yes
This course focuses on interrelationships of the natural world, energy conversions, environmental problems, and alternative solutions for resolving or preventing them. This Advanced Placement Environmental Science course is designed to be an introductory college course in environmental science. The course content will cover topics outlined by the College Board and will prepare the students to take the AP exam in May. Students will be involved in laboratory and field investigations, individual research and writing laboratory reports.
Pre-requisite(s): Biology and Chemistry with a grade of C or better
Adopted curricular materials: Environmental Science for the AP Course, 3rd Edition, Bedford, Freeman, \& Worth, Copyright 2019

## AP Physics I

Department: Science Grade Level: 10-12 Credits: 10.0 Max Credits: $\mathbf{1 0 . 0}$
Graduation Requirement: Physical Science UC/CSU: Physical Science (d) NCAA: Yes
This course is an algebra-based, introductory college-level physics course that explores topics such as Newtonian mechanics (including rotational motion); work, energy, and power; mechanical waves and sound; and introductory, simple circuits. Through inquiry-based learning, students will develop scientific critical thinking and reasoning skills. Approximately twenty-five percent of the instructional time will be spent in hands-on laboratory work with an emphasis on inquiry-based investigations that provide opportunities for students to apply the science practices.
Pre-requisite(s): Mathematics II with a grade of C or better and concurrent enrollment in Mathematics III Adopted curricular materials: College Physics, Cengage Learning

Biology of the Living Earth
04104

## Department: Science <br> Graduation Requirement: Life Science

Grade Level: 09-12<br>Credits: $\mathbf{1 0 . 0}$<br>Max Credits: 10.0<br>UC/CSU: Biological Science (d)<br>NCAA: Yes

This laboratory course provides a foundation for the biological and earth sciences. Topics include ecosystem interactions and energy, history of Earth's atmosphere, evidence for evolution, inheritance of traits, structure and function, and ecosystem stability and the response to climate change. This course emphasizes developing conceptual models through asking questions, analyzing data, designing and carrying out experiments and designing solutions to real world situations.
Co-requisite: Completion or enrollment in Mathematics I or equivalent
Adopted curricular materials: STEMscopes CA-NGSS-3D, The Living Earth, Accelerated Learning, Inc.

## Biology of the Living Earth, Newcomer EL

Department: Science
Graduation Requirement: Life Science

Grade Level: 09-12
UC/CSU: Biological Science (d)

Credits: $\mathbf{1 0 . 0}$ Max Credits: 10.0
NCAA: Yes

This laboratory course provides English learners in a Newcomer Program a foundation for the biological and earth sciences. Topics include ecosystem interactions and energy, history of Earth's atmosphere, evidence for evolution, inheritance of traits, structure and function, and ecosystem stability, and the response to climate change. This course integrates ELD standards-based instruction to include a focus on academic vocabulary, expository writing, and expository reading of science texts. (See NGSS Performance Expectations \& Disciplinary Core Ideas.) Instructors use a variety of scaffolded instructional techniques focusing on listening, speaking, reading, and writing to address the specific needs of Newcomer English Learners. This course emphasizes developing conceptual models through asking questions, analyzing data, designing and carrying out experiments, and designing solutions to real-world situation.
Pre-Requisite(s): None
Co-Requisite(s): Completion or enrollment in Mathematics I or equivalent AND enrollment in a Newcomer Program
Adopted curricular materials: STEMscopes CA NGSS 3D - HS The Living Earth; Accelerate Learning Inc., Copyright 2018

## Chemistry in the Community

Department: Science $\quad$ Grade Level: 10-12 Credits: $\mathbf{1 0 . 0} \quad$ Max Credits: $\mathbf{1 0 . 0}$
Graduation Requirement: Physical Science UC/CSU: Physical Science (d) NCAA: Yes

This course provides a college-level Chemistry class for students planning on attending college as a non-science major. The course is designed around chemically related life and environmental issues and is laboratory orientated. The course uses the mathematical nature and laboratory discovery approach to develop a chemical understanding of water purity, chemical resources, petroleum resources and alternatives, chemistry of foods, nuclear chemistry, atmospheric chemistry, biochemistry, and industrial chemistry.
Pre-requisite(s): Biology and Mathematics I with a grade of C or better
Adopted curricular materials: Chemistry in the Community, V.H.P.S.

## Chemistry in the Earth System

Department: Science Grade Level: 10-12 Credits: 10.0 Max Credits: $\mathbf{1 0 . 0}$

Graduation Requirement: Physical Science
UC/CSU: Physical Science (d)
NCAA: Yes
This laboratory course provides instruction in chemistry through exploration of natural phenomena in earth systems. Students will engage in scientific practices and laboratory experiments to investigate the following topics: atomic theory, chemical bonding and reactions, thermodynamics, plate tectonics, climate change, and ocean acidification.
Co-requisite: Completion or enrollment in Mathematics I or equivalent
Adopted curricular materials: Experience Chemistry in the Earth System, Copyright 2021, Pearson Education, Inc.

## Ecology

04630
Department: Science
Graduation Requirement: Life Science

Grade Level: 11-12<br>Credits: 10.0<br>Max Credits: 10.0

This course is designed to give first-hand laboratory experience in observing and working with organisms in their environment.
Students must be willing and able to work in a hands-on setting. Class topics will include studies of food webs and food energy, plant and animal populations, communities and ecosystems, as well as studies in human ecology. Students will also learn about the ecology of the Sacramento area. Students will be expected to complete individual projects and long-term assignments.
Homework consists of reading, lab reports, term papers, and a research project. Students may be exposed to the FFA, supervised occupational experience programs, and careers in Agriculture Business.
Pre-requisite(s): Biology with a grade of C or better
Adopted curricular materials: Visualizing Environmental Science, 5th Edition, Wiley \& Sons, Copyright 2017

## Physics of the Universe

Department: Science Grade Level: 10-12 Credits: 10.0 Max Credits: $\mathbf{1 0 . 0}$
Graduation Requirement: Physical Science
UC/CSU: Physical Science (d)
NCAA: Yes
This laboratory course addresses the relationships of physics in the universe. Emphasis is on observing phenomena, gathering and interpreting data, developing models, discovering graphical and mathematical relationships, and engineering and refining solutions to realistic problem scenarios. This course includes units on motion and forces, energy conversions, waves and electromagnetic waves, nuclear processes, and stellar processes.
Co-requisite: Completion of or enrollment in Mathematics I or equivalent
Adopted curricular materials: STEMscopes CA-NGSS-3D, Physics in the Universe, Accelerated Learning, Inc.
Physics of the Universe, Newcomer EL
04305

## Visual/Performing Arts

## AP Studio Art: Drawing

Department: Visual/Performing Arts
Graduation Requirement: Visual/Performing Arts

Grade Level: 10-12<br>Credits: 10.0<br>Max Credits: 10.0<br>UC/CSU: Visual/Performing Arts (f)<br>NCAA: No

This course is designed to address a very broad interpretation of drawing issues and media. Light and shade, line quality, rendering of form, composition, surface manipulation, and illusion of depth are drawing issues that will be addressed through a variety of means. Works may include painting, printmaking and mixed media, as well as abstract, observational, and inventive works.
Pre-requisite(s): Art II or Commercial Art/Graphics with a grade of $C$ or better or by instructor approval
Adopted curricular materials: No textbook assigned

| Art I |  | 06010 |
| :--- | :--- | :--- |
| Department: Visual/Performing Arts | Grade Level: 09-12 | Credits: 10.0 |
| Graduation Requirement: Visual/Performing Arts | UC/CSU: Visual/Performing Arts (f) | NCAA: No |

This course introduces students to the fundamentals of drawing, painting, sculpture, printmaking, art history, art appreciation and aesthetic judgment. Prior experience in art is not necessary to enroll in this course. Projects in the class will emphasize the elements and principles of design and the technical skills of drawing, painting, and sculpture. Student projects may include the use of glass etching, charcoal, ink, pastels, tempera, watercolor, and plaster. Printmaking projects may include linoleum block prints, silk screen painting, and dry point etching.
Adopted curricular materials: Discovering Drawing, Davis Publishing

## Art II

06020

| Department: Visual/Performing Arts | Grade Level: $10-12$ | Credits: $\mathbf{1 0 . 0}$ |
| :--- | :--- | :--- |
| Graduation Requirement: Visual/Performing Arts | UC/CSU: Visual/Performing Arts (f) | Max Credits: $\mathbf{1 0 . 0}$ |
| NCAA: No |  |  |

This course is designed for students who wish to continue their studies of drawing, painting, art history, and design at a more advanced level. Students are encouraged to register for both Art II A and Art II B. Art II is an extension of the skills and techniques developed in Art I. Projects will require the student to work at a more independent and mature level and will culminate in a portfolio of their work. Students will be encouraged to enter a variety of art contests and shows.
Pre-requisite(s): Art I or instructor approval
Adopted curricular materials: Experience Painting, Davis Publishing

## Art III

06030
Department: Visual/Performing Arts Grade Level: 10-12 Credits: 10.0 Max Credits: $\mathbf{2 0 . 0}$
Graduation Requirement: Visual/Performing Arts UC/CSU: Visual/Performing Arts (f) NCAA: No
This course is designed for the advanced art student. Emphasis will be on watercolor acrylic, gouache, oil painting, and airbrush. Students will learn to use drawing and painting techniques to organize and depict ideas, feelings, and moods. Also covered in this course may be advanced print making techniques including multicolored silk screening. This course may be repeated for a maximum of 20 credits.
Pre-requisite(s): Art II or instructor approval
Adopted curricular materials: Exploring Painting, Davis

## Band, Beginning

06320
Department: Visual/Performing Arts
Graduation Requirement: Visual/Performing Arts
Grade Level: 09-12 Credits: $\mathbf{1 0 . 0}$
Max Credits: 10.0
UC/CSU: Visual/Performing Arts (f)
NCAA: No
This course is designed for students to participate in an instrumental ensemble. Students study music literature through band methods and sheet music composed for Beginning Concert Band. Students explore the role of the performing arts in culture and human history. Instruments include all of the varieties found within the brass, woodwind and percussion families.
Adopted curricular materials: No textbook assigned

UC/CSU = College Approved, Grad Req = Graduation Requirement, NCAA = Student Athletes Eligible Course

## Band, Intermediate

06321
Department: Visual/Performing Arts
Graduation Requirement: Visual/Performing Arts
$\begin{array}{lcc}\text { Grade Level: 09-12 Credits: } \mathbf{1 0 . 0} & \text { Max Credits: } \mathbf{4 0 . 0} \\ \text { UC/CSU: Visual/Performing Arts (f) } & \text { NCAA: No }\end{array}$

This course is designed for students to participate in an instrumental ensemble. Students study advanced music literature through band methods and sheet music composed for Intermediate Concert Band. Students will explore the role of the performing arts in culture and human history. Instruments include all of the varieties found within the brass, woodwind and percussion families. This course may be repeated for a maximum of 40 credits.
Pre-requisite(s): Ability to play a band instrument and recommendation by current music teacher or audition with the band director
Adopted curricular materials: No textbook assigned

## Band, Jazz

06331
Department: Visual/Performing Arts
Graduation Requirement: Visual/Performing Arts
Grade Level: 09-12 Credits: $\mathbf{1 0 . 0}$ Max Credits: $\mathbf{4 0 . 0}$
UC/CSU: Visual/Performing Arts (f) NCAA: No
This course is designed as a performing group that will stress jazz and rock styles, jazz articulations, and phrasing and must be taken concurrently with Marching/Concert Band (exceptions are instruments not used in the marching/concert band such as electric bass, guitar, and piano). Improvisations will be explored. Performances will include both concerts and jazz festivals. This course may be repeated for a maximum of 40 credits.
Pre-requisite(s): Ability to play a band instrument and recommendation by current music teacher or audition with the school band director and Introduction to Jazz Band
Adopted curricular materials: No textbook assigned

Band, Marching/Concert
Department: Visual/Performing Arts
Graduation Requirement: Electives

Grade Level: 09-12
UC/CSU: None

This course allows students to participate in a performing band, which will be playing music of a high technical level, and will perform at numerous concerts, parades, and field competitions. This group will function as a marching band and as a concert band. This course may be repeated for a maximum of 40 credits. 25 Community Service hours awarded at Laguna Creek High School.
Pre-requisite(s): Ability to play a band instrument and recommendation by current music teacher or audition with the band director, and Introduction to Marching/Concert Band
Adopted curricular materials: No textbook assigned

## Ceramics I

Department: Visual/Performing Arts Grade Level: 09-12 Credits: 10.0 Max Credits: $\mathbf{1 0 . 0}$
Graduation Requirement: Visual/Performing Arts
UC/CSU: Visual/Performing Arts (f)
NCAA: No
This course introduces students to the fundamental methods of working with clay including hand building techniques, use of the potter's wheel, glaze application, and firing techniques. This is an introductory class in the basic skills and processes of ceramics. The role of ceramics in art history and the work of contemporary artists will be included in the course study.
Adopted curricular materials: Experience Clay, Second Edition, Davis Publishing

## Ceramics II

06120
Department: Visual/Performing Arts
Graduation Requirement: Visual/Performing Arts

Grade Level: 10-12<br>Credits: $\mathbf{1 0 . 0}$<br>Max Credits: 10.0<br>UC/CSU: Visual/Performing Arts (f)<br>NCAA: No

This course emphasizes advanced work on the potter's wheel, advanced hand-building techniques, advanced glaze, and decoration techniques. This is an intermediate course in Ceramics, continuing the skills and techniques developed in Ceramics I. Students will be introduced to glaze formulation and the loading and unloading of kilns. Art history as it relates to ceramics will be included in the course of study. Students will be encouraged to enter a variety of contests and shows.
Pre-requisite(s): Ceramics I with a grade of $C$ or better or by instructor approval
Adopted curricular materials: Beginning Sculpture, Davis Publishing

## Ceramics III

06130
Department: Visual/Performing Arts $\quad$ Grade Level: 10-12 $\quad$ Credits: $\mathbf{1 0 . 0} \quad$ Max Credits: $\mathbf{1 0 . 0}$
Graduation Requirement: Visual/Performing Arts
UC/CSU: Visual/Performing Arts (f)
NCAA: No
This course focuses on extensive study in production pottery and advanced decoration, along with intensive study in glaze formulation and kiln construction. Students choosing this course should enroll for both fall and spring semesters. Students will study art history as it relates to ceramics. The class includes the process of Raku. Some homework will be required, but the class will be project oriented.
Pre-requisite(s): Ceramics II with a grade of C or better or by instructor approval
Adopted curricular materials: Clayworks, Form \& Idea in Ceramic Design, Davis

## Ceramics IV

06140
Department: Visual/Performing Arts Grade Level: 11-12 Credits: 10.0 Max Credits: $\mathbf{2 0 . 0}$
Graduation Requirement: Visual/Performing Arts
UC/CSU: Visual/Performing Arts (f)
NCAA: No
This course focuses on individual multi-product study and contemporary ceramic art. This course provides an in-depth study on theory and philosophy of ceramic development as it relates to each student's own work. Students choosing this course should enroll for both fall and spring semesters. The class provides Individual studio production for students who have completed Ceramics I, II, and III. Students will organize and promote gallery sales. Some homework will be required, but the project will be class oriented. This course may be repeated for a maximum of 20 credits. This course meets the UC elective (g) requirement. Pre-requisite(s): Ceramics III with a grade of C or better or by instructor approval
Adopted curricular materials: The Craft and Art of Clay, Prentice Hall

## Choir, Concert

06351
Department: Visual/Performing Arts Grade Level: 09-12 Credits: 10.0 Max Credits: $\mathbf{4 0 . 0}$
Graduation Requirement: Visual/Performing Arts
UC/CSU: Visual/Performing Arts (f)
NCAA: No
This course is designed as an ensemble consisting of students performing choral music of a high technical and musical level, in a variety of musical styles. Students practice vocal techniques including tone production, posture, breathing, and ensemble blending. Listening skills for musicianship are developed. Basic skills of reading music and singing music at sight are stressed. Performance participation required. This course may be repeated for a maximum of 40 credits.
Pre-requisite(s): Introduction to Concert Choir
Adopted curricular materials: No textbook assigned

## Concert Choir, Introduction to

06350
Department: Visual/Performing Arts
Graduation Requirement: Visual/Performing Arts
Grade Level: 09-12 Credits: 10.0 Max Credits: $\mathbf{1 0 . 0}$
UC/CSU: Visual/Performing Arts (f)
NCAA: No
This course is designed to introduce students to the world of choral music. It is the first course for students enrolling in Concert Choir. Emphasis is placed on learning, rehearsing and performing quality choral music in a variety of musical styles. Students practice vocal techniques including tone production, posture, breathing, and ensemble blending. Listening skills for musicianship are developed. Basic skills of reading music and singing music at sight are stressed. Performance participation is required. Adopted curricular materials: No textbook assigned

UC/CSU = College Approved, Grad Req = Graduation Requirement, NCAA = Student Athletes Eligible Course

## Digital Photography I

06603
Department: Visual/Performing Arts
Graduation Requirement: Electives
Grade Level: 09-12
Credits: 5.0 Max Credits: 5.0
UC/CSU: None
NCAA: No
This course explores the history of traditional and digital photography, composition, elements of art, principles of design, cameras, computer software such as Adobe Photoshop, visualization of imagery, creative options, secrets of scanning, basic darkroom type techniques, subject treatment, and the publishing of images. This is a basic course in the art of digital photography. Students will be introduced to terminology as well as development of aesthetic judgment.
Adopted curricular materials: No textbook assigned

## Drumming

06312
Department: Visual/Performing Arts Grade Level: 09-12
UC/CSU: None
Credits: 5.0 Max Credits: 10.0 NCAA: No

This course is offered as a one or two-semester course open to any interested students. The focus of the curriculum is basic drumming rudiments and rhythm reading through modern and traditional hand drumming techniques. Members of this class will prepare and perform programs for presentation to the school community as well as accompany the various dance classes for special performances. This course may be repeated for a maximum of 10 credits.
Adopted curricular materials: No textbook assigned

## Film History

06604
Department: Visual/Performing Arts
Graduation Requirement: Visual/Performing Arts
Grade Level: 11-12
Credits: 5.0
Max Credits: 5.0
UC/CSU: None
NCAA: No
This course provides a critical study of the intrinsic aesthetic dimensions of film and viewing and analysis of a representative selection of highly regarded works. The course will emphasize an understanding of the conventions and techniques of the film, trace the history and development of film, and explore and critically analyze the films of the past to the present.
Adopted curricular materials: No textbook assigned
Guitar Workshop I
06310
