

Calvine High School

Economics Class Syllabus

Your student is enrolled in Economics at Calvine High School. Five credits in Economics are required for graduation from high school. Your student can earn credit through daily textbook, Internet, multimedia or community projects of differentiated credit value. These assignments are designed to develop the future members of our community as achievers of core academic subjects, confident effective thinkers and problem solvers, and ethical participants in our society.

As with all successful endeavors in society, punctuality and regular attendance, behavioral standards, dress code, and motivation are at the forefront of successful student academic achievements. We encourage all students to attain standards of academic excellence that prepare them for responsible citizenship, life-long learning and productive employment.

TEXTBOOK: Prentice Hall - Economics - Principles in Action
Twelve Hours Credit = one full credit

Please feel free to contact your student's teacher, Ron Eggert at 689-7502. An easy email link is also provided for your ease of use www.egusd.net/calvine, schools, Calvine High School, Our School Website.
