

# Calvine High School Staff Development Culturally Responsive Teaching Slideshare.net and TeacherTube

## What is SlideShare?

SlideShare ([www.slideshare.net](http://www.slideshare.net)) is the best way to share your presentations with the world. Let your ideas reach a broad audience. Share publicly or privately. Or even better than that, use PowerPoint presentations that are already loaded. No need to develop your own PowerPoint, just jump onto SlideShare and use one that is already there, and in all curricular areas that we teach.

If you have students working on media projects you can establish an account and have the students upload their work into your own file for saving student work. There is no better way to demonstrate and document student learning.

The screenshot shows a Microsoft Internet Explorer browser window displaying the SlideShare website. The address bar shows <http://www.slideshare.net/>. The page features a navigation menu with links for Home, My Slidespace, Upload, Community, Tags, and Widgets. Below the navigation, there are several featured presentations, including "China Earthquake" (857 views), "China: Time to pray" (1362 views), "2008 Sichuan Earth..." (229 views), and "To Inspire You To..." (1340 views). A "Slideshow of the Day" is also featured, titled "My dearest child, if you are able to survive, you must remember that I love you" by UNICEF China. The page also includes sections for "Featured" and "Events". The browser's taskbar at the bottom shows the Start button and several open applications, including "My Vision...", "Inbox - Mi...", "Making Th...", "TeacherTu...", and "SlideShare...". The system clock indicates the time is 2:56 PM on 08-05-21.

## What is TeacherTube?

The goal of TeacherTube ([www.teachertube.com](http://www.teachertube.com)) is to provide an online community for sharing instructional videos. We seek to fill a need for a more educationally focused, safe venue for teachers, schools, and home learners. It is a site to provide anytime, anywhere professional development with teachers teaching teachers. As well, it is a site where teachers can post videos designed for students to view in order to learn a concept or skill.

There are educational videos posted online for all curricular areas. And, unlike YouTube, TeacherTube is not blocked and always available for use the class. Just locate the video and show it to students using a digital projector.

The screenshot shows the TeacherTube website in a Microsoft Internet Explorer browser window. The address bar displays <http://www.teachertube.com/>. The page features a navigation menu with options like Home, All Videos, Channels, Groups, and TeacherTube Blogs. A search bar is located at the top right. The main content area includes a section for "Videos being viewed right now..." with several video thumbnails, and a "Today's Featured Videos..." section. One featured video is titled "Dividing Fractions" with a description: "This film walks students through the process of dividing fractions." Below the description, it lists tags: "divide fractions invert", channel: "Middle School Elementary Math", and author: "sleek". The video has a runtime of 05:18, 1,069 views, and 0 comments. On the right side, there is an advertisement for "TEACHERS pay TEACHERS" and a login/sign-up section. The browser's taskbar at the bottom shows the Start button, several open windows, and the system clock displaying 2:53 PM on 08-05-21.
