

May 27, 2009

Dear Monterey Trail High School:

My name is Bathsheba Wariso and I graduated from MTHS in the summer of 2008. Since then, I have completed my freshman year at Stillman College in Tuscaloosa, Alabama and will be returning there this fall to begin my sophomore year.

I must admit, like many other incoming freshmen, I was very nervous about how increasingly challenging the college curriculum would be in comparison to high school. However, once I entered my first semester, I discovered how prepared I actually was. I found myself having at least a basic understanding of the coursework if not a nearly complete one in most of my classes. This left me pleasantly surprised and my professors were highly impressed.

I will be returning to Alabama tomorrow for a biology research internship and therefore will not be able to visit as I had planned, but I would like to thank all of the faculty and staff for the great efforts being made on behalf of the students.

Keep up the great work! Your students will appreciate it!

I hope you all have a wonderful summer vacation and hopefully I will be able to visit during winter break. :D

Sincerely grateful,

Bathsheba Wariso
