The Sun's Energy

Task:
Your class is preparing for the district's science fair and each student will be responsible for a different topic. You have decided to focus your science project on energy from the sun. Attached to your visual presentation, you will be including a report, supporting your thoughts with evidence from multiple sources. To gather this information, you will examine two sources about the Sun's energy and write a report about the relationship between the Sun and the Earth.
