

# ParentVUE | StudentVUE

Synergy's ParentVUE and StudentVUE web portals allow parents/guardians and students the ability to view their own information stored in Synergy, EGUSD's new Student Information System (SIS). Parents/Guardians can only see their children's information and cannot see other students' information.

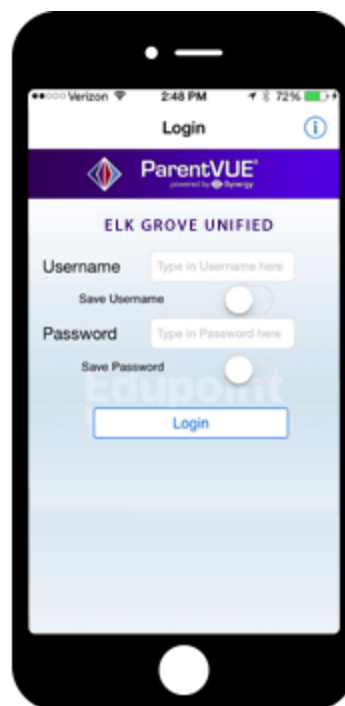

Student information is only as helpful as it is current. Beyond simply checking assignments and grades, parents/guardians and students can accomplish much more.

ParentVUE helps parents/guardians stay informed and connected by providing day-to-day insight into their child's academic experience with access to important information.

## Parents/Guardians are able to...

- Use a single sign-on to access all of their children's information, regardless of school
- Access the web-based portal 24/7 from any browser
- View child's attendance, calendars, class schedules, class websites, grade book assignments and scores, course history/graduation status, immunization information, report cards, school and district information, and more
- Parents/guardians can modify data, such as demographic, emergency contact, physician information, and opt-outs with self-service updates

- Easily communicate with teachers within the web portal
- Download free mobile apps (iOs and Android), allowing access to the portal from anywhere

StudentVUE helps students stay informed and connected by providing day-to-day insight into their own academic experience.

## Students are able to...

- Email their teachers, stay on top of upcoming school events, classroom happenings, and academic performance via their own StudentVUE access, separate from ParentVUE
- Track graduation requirements and how many credits remain
- Receive notification when assignments are posted
- Store electronic files and assignments online with Digital Locker
