V. K-8 History/Social Science (HSS) Instructional Materials Pilot and Potential Adoption - The instructional materials under consideration for potential Board adoption were approved by the State Board of Education (SBE) on November 9, 2017. Following the SBE approval, the materials were internally reviewed, evaluated, and selected for pilot by teachers who serve on the EGUSD K-12 History/Social Science Steering Committee.

These new materials are aligned with recent changes to the California History/Social Science Framework that include content related to the Fair, Accurate, Inclusive, and Respectful (FAIR)
Act. Enacted in 2012, the FAIR Act changed the California Education Code 60040 in regards to requirements for instructional materials. EC 60040 directs governing boards to only adopt instructional materials that “accurately portray the cultural and racial diversity of our society.” While this section already included a number of diverse groups, it was amended to include all of those in Section 51204.5 as follows: Native Americans, African Americans, Mexican Americans, Asian Americans, Pacific Islanders, European Americans, lesbian, gay, bisexual, and transgender Americans, persons with disabilities, and members of other ethnic and cultural groups. Support for a more inclusive portrayal and depiction of different groups can be connected to the California History Social Science Content Standards (1998) and the History/Social Science Framework (2016). The chapter on Access and Equity in the History/Social Science Framework also identifies the importance of inclusive curriculum for LGBTQ students.

Instructional materials used in California public schools must comply with Education Code sections 60040-60045 and 60048 as well as the SBE guidelines in Standards for Evaluating Instructional Materials for Social Content (2013 Edition) which require the following in regards to the depiction of Sexual Orientation and Gender Identity in instructional materials:

(1) Achievements. Whenever developments in history or current events, or achievements in art, science, or other fields are presented, the contributions of persons of gay, lesbian, or bisexual orientation, or transgender persons, particularly prominent persons, should be included and discussed when it is historically accurate to do so.

(2) Proportion of portrayals. Instructional materials containing references to, or illustrations of, people must portray accurately, to the extent possible, the roles and contributions of a fair proportion of diverse sexual orientations and gender identities.

(3) Roles. The presentation of persons of gay, lesbian, or bisexual orientation, or transgender identity, in instructional materials should not be significantly different from the portrayal of people of other sexual orientations and gender identities.

In order to ensure adequate opportunities for parents and community members to view the instructional materials under consideration for EGUSD adoption, the following dates have been scheduled for Board and public preview of the materials:

1. Tuesday, August 14th 2pm – 8pm Café Express, Robert L. Trigg Education Center
2. Monday, September 10th 2pm – 8pm Café Express, Robert L. Trigg Education Center
3. Thursday, October 11th 2pm – 8pm Café Express, Robert L. Trigg Education Center
4. Tuesday, November 6th 2pm – 8pm Café Express, Robert L. Trigg Education Center
5. Tuesday, November 13th 2pm – 8pm Café Express, Robert L. Trigg Education Center
6. Wednesday, November 14th 2pm – 8pm Café Express, Robert L. Trigg Education Center
7. Friday, December 14th 2pm – 8pm Café Express, Robert L. Trigg Education Center

During the pilot and review period of the instructional materials outlined above, we will gather information from all stakeholders and will bring forward a recommendation to the Board in February 2019.

Why do we need new Instructional Materials in History Social Science?
Current History Social Science Instructional Materials

- The current curriculum is no longer in alignment with the California State Framework for History/Social Science.
- The current materials were adopted in 2007 and, through normal usage, there is wear and tear overtime warranting replacement of materials.
- Online programs are rudimentary because they were designed 10 years ago to align to the existing materials.

*California Department of Education  
July 2017*
The History Social Science Content Standards and Framework are both tools that support teachers in History Social Science instruction. We will discuss how they are different but work together.
The History Social Science Content Standards were approved by the State Board of Education in 1998 and were designed to encourage the highest achievement of every student, by defining the knowledge, concepts, and skills that students should acquire at each grade level.
The focus of History Social Science in 1st Grade is “A Child’s Place in Space and Time.” The focus is on rights and responsibilities in the contemporary world.

According to the HSS standards, “The classroom serves as a microcosm of society in which decisions are made with respect for individual responsibility, for other people, and for the rules by which we all must live: fair play, good sportsmanship, and respect for the rights and opinions of others”.

History Social Science Content Standards
Grade Level Theme: A Child’s Place in Space and Time

Standard
1.4 Students compare and contrast everyday life in different times and places around the world and recognize some aspects of people, places and things change over time while others stay the same.

Sub-Standard
3. Recognize similarities and differences of earlier generations in such areas as work (inside and outside of the home), dress, manners, stories, games, and festivals drawing from biographies, oral histories, and folklore.
History Social Science Framework

The new California History Social Science Framework was approved by the State Board of Education in July of 2016 - the first update since 2005.

Curriculum frameworks are guidelines for implementing the content standards at each grade level, as well as providing the criteria for evaluating instructional materials.
History Social Science Framework

Students in the first grade are ready to learn more about the world they live in, about the choices they make, and about their responsibilities to other people.

Students also are ready to develop a deeper understanding of cultural diversity and to appreciate people from various backgrounds and ways of life that exist in the larger world that they are now beginning to explore.

In Standard 1.4, students learn about times past, especially continuity and change. The focus is to compare different times and different places and how certain aspects of life change over time while some things stay the same. Schools, communities, and transportation of the past provide areas of study that students are familiar with in the present. Teachers may also examine such areas as work, clothing, games, and holidays to compare with the students’ lives today, using the frame How is our life different from those who lived in the past, and how is it the same?

<td>The framework incorporates new scholarship and recent state mandates including the FAIR Act. The K-8 course descriptions have been rewritten to reflect the contributions of diverse groups.</td>
<td>The framework emphasizes giving all students access to the academic vocabulary and skills necessary for success in college, careers, and civic life. The development of literacy is not limited to the ELA classroom.</td>
<td>The framework emphasizes student inquiry - with a goal of teaching the students the skills to do history-social science. Students should conduct research, evaluate sources and develop arguments.</td>
<td>The framework places a strong emphasis on democratic values in relations between citizens and the state. It encourages teachers to help their students practice the skills of engaged citizenship</td>

SBE Guidelines for HSS Framework Revision
(excerpts, adopted September, 2014)

The updated History–Social Science Framework for California Public Schools shall:
- Be aligned to the state-adopted history–social science standards adopted by the SBE in October 1998.
- Include accurate information based on current and confirmed research.
- When appropriate, follow the organization and design of other standards-based frameworks
- Be accessible and inclusive to all students.
- Promote the values of civic engagement and civic responsibility.
- Align to the Literacy Standards for History/Social Studies within the California Common Core State Standards for English Language Arts and Literacy in History/Social Studies, Science, and Technical Subjects, as appropriate.

Sample Topics to be addressed because of Statutory Requirements:
- Financial Literacy
- Great Irish Potato Famine
- Cesar Chavez and Martin Luther King, Jr.
- Environmental Principles and Concepts
- LGBTQ and Disability History (Fair Act, or SB48)
- Mexican Repatriation Program
- Use of oral histories to teach about Bracero program and WWII veterans
- Filipino & Filipino-American Contributions to the farm Labor Movement and World War II
- Armenian Genocide
- Presidency of Barack Obama
- Voter Education and consideration for the College, Career, and Civic Life (C3) Framework
SB 48 added language to Education Code Section 51204.5, which prescribes the inclusion of the contributions of various groups in the history of California and the United States.

This section already included men and women and numerous ethnic groups.

The expanded language now includes (additions bolded): “...a study of the role and contributions of both men and women, Native Americans, African Americans, Mexican Americans, Asian Americans, Pacific Islanders, European Americans, lesbian, gay, bisexual, and transgender Americans, persons with disabilities, and members of other ethnic and cultural groups, to the economic, political, and social development of California and the United States of America, with particular emphasis on portraying the role of these groups in contemporary society.”
SENATE BILL 48 - THE FAIR ACT

The legislation also added some requirements with regard to instructional materials.

Education Code Section 51501 outlines prohibitions on material included in textbooks or other instructional materials. This section already includes prohibitions on matter “reflecting adversely upon persons because of their race, sex, color, creed, handicap, national origin, or ancestry”; SB 48 added “sexual orientation” to the list.

Education Code Section 60040 directs Governing Boards to only adopt instructional materials that “accurately portray the cultural and racial diversity of our society.” This section already includes a number of groups, but was amended to include all of those in Section 51204.5 as listed above.
EGUSD’s Family Life philosophy, curriculum, and instruction refer to what is now known as Comprehensive Sexual Health Education and HIV/AIDS Prevention (Education Code 51930-51939). Teaching about gender and sexual orientation outside of sex education is not comprehensive sexual health education.

According to the CDE FAQ’s for The California Healthy Youth Act (CHYA), “The “opt-out” provision [of CHYA], does not apply to instruction, materials, presentations, or programming that discuss gender, gender identity, gender expression, sexual orientation, discrimination, harassment, bullying, intimidation, relationships, or family and do not discuss human reproductive organs and their functions. (EC § 51932(b).) This is to ensure a positive school climate so that all students feel safe on and off campus knowing that all peers have the same basic understanding on acceptable and unacceptable behaviors.”
NEW INSTRUCTIONAL MATERIALS - THE STATE PROCESS

INSTRUCTIONAL MATERIALS ADOPTION PROCESS
This flowchart shows the sequence of major components of California's Instructional Materials Adoption Process. From the time samples of programs are submitted by publishers for evaluation, approximately six months elapse before final adoption action is taken by the State Board of Education.

- Invitation to Submit (ITS) Meeting
- Instructional Materials Advisory Reviewer (IMR) & Content Review Expert (CRE) appointed by the State Board
- Curriculum Commission holds public hearings and finalizes recommendations
- Required 30-day Public Display at LRDOs
- Public hearing before the State Board of Education
- STATE BOARDadopts MATERIALS
- Price Lists & Order Forms put on the Web
- Publishers post Gratis List
- Districts begin ordering programs
- IMR/CRE Reports of Findings Developed
- IMR/CRE meet for Deliberations
- Publishers respond to questions from IMR/CRE
- IMR/CRE independent review of instructional materials
- Samples of instructional materials to be evaluated are delivered to IMR/CRE
- IMR & CRE are trained
- Publishers program presentations
- Price Quotation (Bid Submission)
- California Department of Education
The State Board of Education (SBE) approves the California H/SS Framework which includes the criteria for evaluating instructional materials.

Publishers submit their materials to be reviewed by a panel selected from a pool of applicants by the California Instructional Quality Commission (IQC).

The IQC conducts a review of instructional materials and obtains public comment to generate a list of recommendations for the SBE.

SBE takes action on the recommendations by the IQC based on the formal report by the IQC and public comment (both written and during the hearing).

The California County Superintendents Educational Services Association (CCSESA) releases their History Social Science Adoption Toolkit with rubrics for LEAs to use for evaluation of materials.

Agenda

- Reserve Adequacy/Requirements
- Reserve History and Comparisons
- School District Reserve Categories
- California’s Reserve Cap
- Options/Direction
What is an Adequate Reserve?

- School districts, like all public agencies, should establish and maintain an adequate budget reserve to mitigate current and future risks.

- An adequate reserve allows the district to maintain fiscal solvency and continue its educational programs (minimizing reductions) during economic downturns.

- California Code of Regulations (CCR) 15450, calls for a 2% reserve for a district the size of EGUSD (based on average daily attendance).

- The Government Finance Officers Association (GFOA) recommends a reserve of two months of general fund operating revenues or expenditures (16.7%), whichever is more predictable.

California’s Education Reserve Cap – Part I

In June of 2014 the Governor Signed SB 858 - Known as the school district reserve cap

- Limits a school district’s reserve levels

- In a year following a contribution of any amount to the education Rainy Day Account (created in Prop 2), school districts would be forced to spend down their reserves to just two times their minimum required level. For most districts this is 3% and for EGUSD its 2%

- Was not clear if it applied to just the unrestricted General Fund or all funds

- Beginning in the 2014-15 Fiscal Year districts must prepare a statement justifying the rational for reserves in excess of the minimum level
California’s Education Reserve Cap – Part II

In October of 2017 the Governor Signed SB 751

- Raises the level of statutory reserve limit to 10%
- Also modifies the “trigger” based on an accumulation of an amount equal to at least 3% of the Prop 98 guarantee before the “trigger” would be pulled
- Clarified that the cap applies only to General Fund revenues, not other accounts such as construction, cafeteria, or other funds
  - Assigned and unassigned reserves
- No restrictions on funds saved for large expenditures such as new textbooks or capital projects
Options - Budget Reserve Practice

- Continue making budget decisions including reserve levels under the current practice - adding a reserve percentage to MYP
  - The Board reviews the current and projected budget reserve levels at a minimum of 8 times throughout the year

- Establish Guidelines for Staff to implement when building and presenting the budget
  - Establishes an understanding between the Board and Staff in establishing the budget and reserve levels

- Adopt a formal Board Policy establishing reserve levels
  - Creates a requirement, prescriptive steps to achieve reserve, and conditions to spend down the reserve
