- Christopher Beischel, Elk Grove High School
- Brenna Dillman, Special Education
- Mathew Espinosa, Educational Equity
- Michelle Fennell, Carroll Elementary School
- Monique Grove, Special Education
- Sharon Hamlin, Isabelle Jackson Elementary School
- Peter Newman, Florin High School
- Wendy Petties, Special Education
- Janelle Romano, Special Education
- Molly Sangalang, Florin Elementary School
- Simone Worsham, Special Education

30. **Approval of Contracts for Comprehensive After School Services** – Approved the contracts with The Center for comprehensive after school services to be provided in the expanded learning program at Barbara Comstock Morse Elementary School, for the remainder of the 2019-2020 school year, pursuant to the federal and state grant awards through the 21st CCLC and ASES programs.

31. **2020-21 EGUSD Course Catalog and College/Career Planning Guide** – Adopted the 2020-21 EGUSD Middle School Course Catalog and the EGUSD 2020-21 High School Course Catalog and College/Career Planning Guide. The 2020-21 course catalogs are provided to students and families electronically via our district website at [http://www.egusd.net/academics/course-catalogs/](http://www.egusd.net/academics/course-catalogs/) and through each school’s website.

32. **Instructional Materials Adoption** – Adopted the following instructional materials:

- **Basic - English 3D, Course B, Volume II**: Copyright 2017, Houghton Mifflin Harcourt (Advanced Academic Writing for Success, Grades 7-8)

33. **High School Course Revisions** – Approved the revisions to the following high school courses:

- **Computer-Aided Design/Drafting (CADD)** (Course #12100) It is requested that the grade levels change from grades 9-12 to grades 9-10.

- **Design Implementation** (Course #12320) It is requested that the grade levels change from grades 9-12 to grades 9-10.

- **Digital Media Arts I** (Course #12157) It is requested that the grade levels change from grades 9-12 to grades 9-10.

- **Automotive Services: Fundamentals** (Course #12315) It is requested that the grade levels change from grades 9-12 to grades 9-10.
Video Production I (Course #12152) It is requested that the grade levels change from grades 9-12 to grades 9-10.

Engineering Technology (Course #12355) It is requested that the grade levels change from grades 9-12 to grades 9-10.

Building Trades I (Course #12311) It is requested that the grade levels change from grades 9-12 to grades 9-11.

The Elements and Principles of Floral Design (Course #12218) It is requested that the grade levels change from grades 9-12 to grades 9-11.

Floral Design II (Course #12219) It is requested that the grade levels change from grade 10 to grades 10-12.

Digital Media Arts II (Course #12158) It is requested that the grade levels change from grades 10-12 to grades 10-11.

Digital Art and Graphic Design II (Course #12144) It is requested that the grade levels change from grades 10-12 to grades 10-11.

Computer Science A, Introduction to (Course #12112) It is requested that the grade levels change from grades 10-12 to grades 10-11.

Digital Art and Graphic Design II (Course #12144) It is requested that the grade levels change from grades 10-12 to grades 10-11.

Culinary Arts II (Course #12428) It is requested that the grade levels change from grades 11-12 to grades 10-11.

Engineering Design A (Course #12346) It is requested that the grade levels change from grades 9-12 to grades 10-11; and that the re-requirement change from “Math I and Computer Technology or instructor approval” to “Math I and one of the following: CADD, Drafting I A/B, or Engineering Technology.”

Digital Art and Graphic Design Production (Course #12143) It is requested that the grade levels change from grades 9-12 to grades 9-10; and remove pre-require of Photography I.

Exploring Computer Science (Course #12137) It is requested that the grade levels change from grades 9-12 to grades 9-10; and revise the Computer Technology pre-require to read “recommended.”

Computer Programming/C++ (Course #12135) It is requested that the grade levels change from grades 10-12 to grades 11-12; and change pre-require from Visual Basic Programming to “C or better in one of the following: Intro to Computer Science A, Computer Science Principles, or AP Computer Science Principles.”

Broadcast Journalism (Course #12150) It is requested that the grade levels change from grades 9-12 to grades 11-12; add pre-require of “Video Production II or Digital Media Arts II;” and change credits from max 40 to max 10.

Computing with Robotics (Course #12120) It is requested that the grade levels change from grades 9-12 to grades 10-11; and add pre-requisite “Exploring Computer Science.”

Fabrication with Wood and Metal (Course #12213) It is requested that the grade levels change from grades 9-12 to grades 10-11; and add pre-requisite “Design Implementation.”

Agricultural Welding (Course #12225) It is requested that credits change from max 40 to max 10; and add pre-requisite “Fabrication with Wood and Metal.”

Ranch Animal Science (Course #12226) It is requested that credits change from 5 to 10, max credits change from a max 30 to max 10; and add pre-requisite: “Animal Anatomy and Physiology of Plants.”

34. High School Course Updates – Adopted the following updates to existing high school courses:

Advanced Interdisciplinary Science for Sustainable Agriculture (CTE/Science, Grades 11-12) (one-year equivalent, 10 credits; meets the Science graduation requirement) This integrated class combines an interdisciplinary approach to laboratory science and research with agricultural management principles. Using skills and principles learned in the course, students design systems and experiments to solve agricultural management issues currently facing the industry. Students will connect the products created in this class with industry activities to link real-world encounters and implement skills demanded by both colleges and careers. Throughout the course, students will be graded on participation in intra-curricular FFA activities as well as the development and maintenance of an ongoing Supervised Agricultural Experience (SAE) Program. This course will use a “5-point A” grading system. Pre-Requisite: Biology and Sustainable Agriculture and Chemistry and Agriscience, Adopted curricular materials: No instructional materials assigned

Chemistry and Agriscience (CTE/Science, Grades 10-11) (one-year equivalent, 10 credits; meets the Physical Science graduation requirement) This course explores the physical and chemical nature of soil as well as the relationships between soil, plants, animals, and agricultural practices. Students examine properties of soil and land and their connections to plant and animal production. Using knowledge of scientific protocols as well as course content, students develop an Agriscience research program to be conducted throughout the first semester of the course. To complete that entire project, each student will investigate and test an Agriscience research question by formulating a scientific question related to the course content, formulating a hypothesis based on related research, conducting an experiment to test the hypothesis, collecting quantitative data, and forming a conclusion based on analysis of the data. The result of this research program is an in-depth research and experimentation paper that is technically written, based on scientific protocol, and cited using APA formatting. Additionally, students develop and present a capstone soil management plan for agricultural producers, demonstrating their knowledge of the soil chemistry content learned throughout the course. Throughout the course, students are graded on participation in intra-curricular FFA activities as well as the development and maintenance of an ongoing Supervised Agricultural Experience (SAE) Program. Pre-requisite(s): Biology and Sustainable Agriculture, Adopted curricular materials: Modern Chemistry, Holt, Rinehart and Winston

Biology and Sustainable Agriculture (CTE/Science, Grades 9-10) (one-year equivalent, 10 credits; meets the Life Science graduation requirement) This one-year course, organized into four major units, integrates biological science practices and knowledge into the practice of sustainable agriculture. Unit one addresses the question “What is sustainable agriculture?” Unit
two, “How does sustainable agriculture fit into our environment?” Unit three, “What molecular biology principles guide sustainable agriculture?” Unit four, “How do we make decisions to maximize sustainable agricultural practices within a functioning ecosystem?” Within each unit, specific life science principles integrate the agricultural principles, as students’ knowledge of how the two disciplines inform each other, culminating in the development of a sustainable farm model and portfolio of supporting student research. Pre-requisite(s): None, *Adopted curricular materials: Biology, The Dynamics of Life, Glencoe*

35. **New High School Course** – Adopted the following new high school course:  
**Introduction to Audio & Music Production** (CTE Elective, Grades 9-10) (one-year equivalent, 10 credits)  
This course serves as an introduction to the professional audio industries. Students will learn about the basics of Digital Audio Workstation (DAW) functionality, songwriting, recording, audio editing, effects processing, and sound design to establish a foundation of knowledge that will be expanded on in the next two pathway courses. Students will begin exploring the many aspects and careers in professional audio and may begin focusing on a particular area that interests them most while grappling with real-world career technical concepts and technologies found in today’s professional audio industries. Pre-Requisite(s): None, *Adopted curricular materials: No instructional materials assigned*

VII. **LCAP Update** – None

VIII. **Race and Educational Equity** – None

IX. **Budget Update** – None

X. **Facilities Update** – None

XI. **Bargaining Units** – None

XII. **Reports**

1. **Measure M Citizens’ Oversight Committee Annual Report 2018-19** - Robert Pierce introduced John Shook who presented to the Board of the findings and content of the second annual report of the Measure M Citizens’ Oversight Committee (COC). The report covers the 2018-2019 fiscal year.

Pursuant to Proposition 39, the electorate approved Measure M on November 8, 2016. As an accountability measure for voters and taxpayers of the District, Education Code Section 15278 mandates that bond measure expenditures be reviewed and reported on by an independent Citizens’ Oversight Committee (COC). On April 18, 2017, the Board of Education formally established the COC and its bylaws by approving Resolution No. 76, 2016-17.

The principal duties of the COC are to:

- Ensure that bond proceeds are expended for the purposes they are intended;  
- Report the program’s progress to the public; and  
- Provide an annual report and compliance statement.

Over this reporting period, $36 million in Measure M funds was spent to complete critical improvements at twenty-two (22) district schools and support facilities. Fifty-one (51) district sites had projects in progress.
The COC is pleased to report that, based on the Committee’s review of annual financial audit findings and Measure M expenditures through June 30, 2019, EGUSD is in full compliance with its responsibilities as described in Article XIIA, Section 1(b)(3) of the California State Constitution. All COC proceedings, meeting documents, and reports are available online at: measurem.egusd.net

XIII. Public Hearing/Action Items – None

XIV. Discussion Items – None

XV. Action Items

1. Environmental Determination for the Rutter Park and Swim Center Renovation – Robert Pierce shared a presentation with the Board with information about the California Environmental Quality Act (CEQA) and Board Policy 7160 require that environmental determinations be made on projects that may adversely impact the environment.

This project proposes the potential relocation and expansion of an existing swim center on the James Rutter Middle School campus and various improvements to the existing Rutter Park. In addition, the project proposes extension of the Florin Creek Multi-Use Trail across the southern boundary of the school campus providing a bicycle and pedestrian connection to both facilities. Together these improvements would create a community-serving recreational facility and improve pedestrian accessibility to the surrounding neighborhood.

The Southgate Recreation and Park District (SRPD) is the CEQA lead agency for the project. The Elk Grove Unified School District (EGUSD) is a responsible agency for the project; because part of the project site lies on EGUSD property, and a portion of the project will be carried out by EGUSD. In September 2019, a Mitigated Negative Declaration (MND) was prepared for the Rutter Park and Swim Center Renovation Project (SCH No. 2019089116) to consider the significance of potential project impacts in accordance with CEQA and the CEQA Guidelines (14 Cal. Code Reg., § 15000 et seq.).

During the investigation and documentation process, five topic areas (from the CEQA Checklist) showed the potential for significant impact unless mitigation was incorporated. Mitigation measures have been added to the project to reduce each of these identified potential impacts to levels that are less than significant as defined by CEQA. The attached Mitigation Monitoring and Reporting Program (MMRP) includes all mitigation measures provided in the MND.

As the lead agency, the SRPD circulated the MND for a 30-day public review period from August 30, 2019, to September 30, 2019. During that time, comment letters received from the Central Valley Water Quality Control Board, the California Department of Fish and Wildlife, and the Sacramento Municipal Utility District. The comment letters and staff responses were included in the MND. A very minor update was also made to the MMRP based on comments received. Additionally, letters were mailed to interested California Native American tribes on August 13, 2019, in accordance with Assembly Bill (AB) 52. No response was received from any of the tribes contacted.

On October 1, 2019, the SRPD Board of Directors passed Resolution 19-15 adopting the Initial Study/Mitigated Negative Declaration, Response to Comments, and the Mitigation Monitoring Program for the Rutter Park and Swim Center Renovation. Adoption of the MND, Response to Comments, and MMRP by the EGUSD Board of Education would complete the environmental review of the project under CEQA.
Motion No. 47, 2019-20 - Motion by Ms. Chaires Espinoza, seconded by Dr. Martinez-Alire and carried unanimously by an affirmative vote of all board members present that Resolution No. 27, adopting the Initial Study/Mitigated Negative Declaration, Response to Comments, and the Mitigation Monitoring Program for the Rutter Park and Swim Center Renovation be adopted. 
Ayes – Albiani, Chaires Espinoza, Forcina, Madison, Martinez-Alire and Perez; Nays – None; Absent – Singh-Allen

2. Establishment of Annual Organizational Meeting of the Board of Education – Motion No. 48, 2019-20 - Motion by Ms. Chaires Espinoza, seconded by Dr. Martinez-Alire and carried unanimously by an affirmative vote of all board members present that the Annual Organization Meeting of the Board of Education will be held on Tuesday, December 17, 2019, at 6:00 p.m. in the Board Room of the Education Center. Ayes – Albiani, Chaires Espinoza, Forcina, Madison, Martinez-Alire and Perez; Nays – None; Absent – Singh-Allen

XVI. Board Member and Superintendent Reports – Board members reported on organization and committee meetings and information relative to the District and its operation.
