September 8, 2020:

Dear EGUSD Parents and Guardians,

The Elk Grove Unified School District received \$58M in one-time Federal and State Funding under the Corona Aid, Relief and Economic Security (CARES) Act and created a Learning Continuity and Attendance Plan (LCP) for the allocation of those one-time funds that go toward the District's response to COVID-19, Elementary and Secondary School Emergency Relief and Learning Loss Mitigation.

Per the California Department of Education, the draft of the LCP plan must be posted online and available for public comment from September 8 - September 11, 2020. The Superintendent will follow-up with individuals who have specific LCP related questions and for those with input or comments, the information will be duly noted. To review the multi-page document and offer your input, please go to the following [\(link\)](#).

Thank you for participation and engagement in this important process.

Sincerely,

EGUSD Leadership
