Impact of LCAP and Annual Update

How did these consultations affect the LCAP for the upcoming year?
Parents and staff members agree on the importance to fund teacher release days to analyze data. They also understand the need to meet with teachers individually several times a year to discuss student progress, thus we will use our funds to support data analysis and team collaboration. We will also incorporate opportunities for us to think out of the box of ways to save money for collaboration through the use of physical resources to compensate substitutes. Sixth grade teachers reported that the sixth grade teacher/ seventh grade articulation day was valuable, and it was decided to fund that release day again in 20-21. We will also provide opportunities for teachers in grades TK-5 to have the opportunity to do cross grade articulation. Also parents, staff, and students have requested we fund the Watch DOGS program again.

## Justification of School-Wide Use of Funds

For sites below 40 percent of enrollment of unduplicated pupils, when using supplemental and concentration (LCAP) funds in a school-wide manner, the site must additionally describe how the services provided are the most effective use of funds to meet the site's goals for unduplicated pupils in the state priority areas. Include a description and justification for the use of any funds in a school-wide manner as described in **Actions, Services, and Expenditures** above.

| Funding supports teacher collaboration, professional development opportunities, and release time to benefit all students. |
| Funding supports PBIS program to benefit all students |
| Funding supports parent participation opportunities to benefit all students. |
