- Relaxed LCFF Proportionality Rules

Since the May Revision, the strict expenditure requirements have been relaxed and now include the following:

- The State Board of Education will adopt regulations that govern the expenditure of funds apportioned on the basis of the number and concentration of unduplicated pupils.

- The enacted State Budget tips the spending scale once again – striking what appears to be a better balance between local and state control. The relaxed proportionality rules will allow districts to use concentration and supplemental grant funds for school-wide and district-wide purposes.

- The Local Control Accountability Plan (LCAP) includes annual goals and specific actions based on state priority areas for district and each school in the district; description of expenditures implementing specific action; and adoption every three years and updates annually.

- County and State Oversight Responsibilities include technical assistance, approval and disapproval of local plans based on adherence to State Board of Education-adopted template and sufficiency of funds allocated for implementation of LCAP; County Office of Education approval of plans and posting of plans for each district and each school in each district or a link to each plan on the County Office of Education website; and stay and rescind authority granted solely to SPE upon approval of the State Board of Education.
BUDGET UPDATE: (Continued)

- State Requirements include state priority areas explicitly stated; State Board of Education will update standards and criteria for local budget adoption and make changes to API based on the LCFF; proportionality rule is less rigid allowing for school-wide and district-wide expenditures subject to regulations to be adopted by the State Board of Education; and there is no mention of a Maintenance of Effort (MOE) requirement.

- Adopting and Updating the LCAP includes (1) consultation with teachers, principals school personnel and pupils; (2) present for review and comment to parent advisory committee, English learner parent advisory committee, and the superintendent must respond in writing to comments received; (3) opportunity for public input includes notice of the opportunity to submit written comment, public hearing and the superintendent must respond in writing to comments received; and (4) adoption of the plan is concurrent with the LEA’s budget; submitted to the County Office of Education for approval and posted on the district website; and County Office of Education posts the LCAP for each district/school or a ling to the LCAP.

- State Board of Education actions and timeline:

  January 1, 2014 – adopt budget standards and criteria
  January 31, 2014 – adopt spending regulations
  March 31, 2014 – Adopt LCAP plan templates
  October 1, 2015 – Adopt technical assistance and intervention evaluation rubric.

- K-3 Class-Size Reduction Planning for 2013-14

  In the absence of a locally bargained ratio, under the LCFF, progress must be made toward a school site average classroom student-to-teacher ratio of 24:1. For 2013-14, the starting point is the average class enrollment for each school site for grades K-3, inclusive, in the 2012-13 school year. Progress to the 24:1 target is measure on the relative increase of revenues toward the target of full funding of the LCFF and is estimated to be approximately 12% for 2013-14. If school site already have a site ratio of 24:1 or less, they must permanently maintain the 24:1 ratio starting in 2013-14 for districts to be eligible for K-3 class size reduction funds.

  2012-13 EGUSD Unaudited Actuals – September 2013
BUDGET UPDATE:  (Continued)

Mr. Fagan noted that the County Office of Education is comfortable with using a higher estimated LCFF income for 2014-15 ($15,740,634) and 2015-16 ($11,35,647 plus the 014-15 amount); there was a significant revenue increase in May and June of this year; July revenue is down about $250 million; and he is confident that when the Governor’s budget projections are presented in January we will be within the estimated. He also noted that a lot of rules are needed from the State and between now and March some adjustments will be seen.

During the discussion, it was noted:

- CSBA has excellent resources available regarding the budget.
- The Legislative Analyst’s Office revenue projections are probably realistic.
- Questions on proportionality will have to be answered as we move forward.
- The LACP coordination is a team effort and action will be taken once legislation takes place. Title I data is compiled and reported as required and how the State will address the funding is not known.
- If there are penalties when districts don’t meet targets is not known at this time.
- Committees required will be addressed when further information is available.
- At this time, many questions cannot be answered.

Mrs. Cox submitted a copy of her presentation flexibility to the Sacramento County Office of Education Hearing by the California Department of Education and the State Board of Education on the LCFF.

BOARD MEMBER REPORTS:

Board members reported as follows:

- Mr. Ly participated in the teacher of the year banquet and was pleased to congratulate the two wonderful teachers who represent this District, one of whom was selected to represent the County at the State level. He also participated in the interfaith outreach dinner which was a reminder that our District represents many different culture and colors and the Child Spree where it was nice to see the sparkle in a child’s eyes.

- Mr. Forcina noted the concerns regarding redirection of students in the Anatolia area, Sunrise Elementary School, the conversations with Mrs. Penna and

BOARD MEMBER REPORTS: (Continued)

Mr. Pierce, and that Dr. Ladd brought 75% of the staff to answer questions at the meeting held with to answer questions; there was a lot of misinformation and questions were answered prior to the meeting; therefore, there were not a lot of people in attendance. He participated in the Child Spree as a member of the Optimist Club and the Board. Today he visited Arnold Adrani Elementary School where a visitor manager system has been purchased. It allows people to come to the site and sign in electronically with their ID and get a badge which cuts down on office staff time and improves security. Mrs. Cherry reported that several schools now have the system which also reports the students who come in tardy.

- Mrs. Cox attended professional development for the math in Common Core which was phenomenal and noted there will be a huge change in the way in which we deal with education. She also attended the Back-to-School function at Katherine Albiani Middle School.

- Ms. Amavisca attended the Teacher-of-the Year Dinner, participated in the Child Spree, and attended the Back to School Night at Raymond Case Elementary School which was held prior to school starting and was very well attended. She asked that anyone going on vacation bring back sample soaps and shampoos for the Healthy Start Program.

- Ms. Singh-Allen noted this is her one-year anniversary on the Board; it has been challenging and rewarding years of her life and she has learned a lot. It stemmed from her desire to make a difference and make sure the things important to her were reflected by the Board of Education — multi cultural, diversity on the board, anti bullying and a lot stems from shooting in Elk Grove that targeted two elderly Sikh gentlemen and the root of a lot of those were hate crimes, intolerance, and a lack of awareness of who we are as a community and they we have such a rich history and diversity it gives her a great opportunity to serve. She visited the State Capitol yesterday the Assembly passed an Assembly passed resolution recognizing November as Sikh American Education Appreciation Month. She was invited to participate and is looking forward to introducing similar legislation. It was a great opportunity to celebrate not only as an American but to know that work must continue. She is posting a picture on her school board page with Senator Wieckowski. She noted that unfortunately they are not accepted by many and one stated that be an American or go home. She stated that this is her being an American, her right to vote and to be here.

- Mr. Perez reported he has been studying the health issue, stated his concern about ELL (English Language Learners), he supports different diversities, and this is one of the best districts and we still have a lot to do — there are a lot of people and students who need help, there are some safety issues and we are doing a good job in securing our schools. He has been working with Mary Jane Donaldson who is doing

BOARD MEMBER REPORTS: (Continued)

an excellent job in our community dealing with students and he would like to invite her to a meeting to present what is being done. He proposed one additional individual to support that program.

• Dr. Ladd reports that he has visited many campuses and classroom and seen great teaching. He serves on the Sacramento Workforce Investment Board and the Elk grove Chamber of Commerce and attended meetings of these boards. He attended the Child Spree and Teacher-of-the-Year Recognition; serves as a co-chair of the National Superintendents’ Roundtable Steering Committee and in this capacity participated in a White House Conference Call with the Associate Director of the White House Office of Public Engagement, a call where Janet Robinson provided leadership following the Sandy Hook catastrophe, and a call with the Roundtable’s Steering Committee as a result of the letter the Roundtable sent to President Obama calling for a comprehensive approach to gun violence involving law enforcement, school security, mental health professionals, parents and educators. In response to an invitation from David Cohen, executive vice president of the Comcast Corporation, he served on Comcast’s Cyber-Bullying Panel and noted there is legislation at the State Level that would allow school districts to take action regarding where and when it does take place. He also participated in a filmed interview as a partner on SMUD’s Smart Grid Project which will be shown at a September 4 event.

• Mr. Madison noted he missed the Teacher-of-the-Year event due to the loss of a family member, attended the Samuel Jackman Middle School back-to-school night and that the Spotlight Elk Grove fundraiser for student scholarships will be held September 12.

PUBLIC COMMENT:

Hearing of Visitor Not on Topics on Agenda

In response to the call for Hearing of Visitors on Topics Not on Agenda, the following addressed the Board:

Mary Deutsch, CSEA President, noted they have asked to be invited to close session, and at the last negotiating meeting they had only 14 minutes to speak and has no idea what the final outcome was.

Laura Constantine, Susan Mason, Barbara Sloan, Katherine O’Boyle, Jeanette Schade, Ramona Jimena, and Kathleen Duran, read statement regarding their concern about and opposition to the Common Core Standards. Noted was the belief that all persons involved in the process have much to gain, the question of whether they can be

successfully implemented; the cost involved; government access of records; and violation of the law.

Mrs. Cox asked that questions be submitted, copies given to the Board members and staff, and Mr. Ly asked that staff be designated to follow up.

BARGAINING UNITS:

- Nancy Clifford, AFSCME Representative, reported that before summer break, the District participated in the United Way toilet paper drive and read a letter of thanks from AFL/United Way for the contribution which was the 7th largest contributing organization, with a campus supervisor from Monterey Trail High School and Tina Pena, Associate Superintendent for Secondary Education, being the largest contributors.

- Maggie Ellis, EGEA President, stated she will serve as president for another two years; she does have some concerns about class size reduction; noted the layoffs and that looking forward provides an opportunity to look at new models for staffing and the internship agreements and they would appreciate a dialogue. She also expressed her appreciation that the Board is going out to communities and having dialogues and that she likes the Go Math program which she believes allows teachers to do what they all would like to do.

  Mr. Ly asked about paid internships, and Ms. Ellis stated there have been layoffs, and they are concerned if the District will be paying for the internships and would appreciate dialogue when their unit is affected.

- Mary Deutsch, CSEA President, applauded the Board for hold meetings in the community and asked that the following inequities be pursued: (1) the budget surplus of $80 million noted in their audit would restore and retain jobs; (2) restoring bilingual teaching associates – money is received for all students but not fully spent on students; (3) further address of hiring from layoff list; and (4) fairness and equity in benefits.

  Mr. Madison asked that Ms. Deutsch communicate her with Mr. De Graw regarding her concerns.

Hearing of Visitor on Topics on Agenda

There were no responses to the call for Hearing of Visitors on Topics on the Agenda.
PUPIL TEXTBOOK AND INSTRUCTIONAL MATERIALS:

Mrs. Ewing reported that as a requirement of the Williams legislation, Education Code Section 60119 specifies that the governing board shall hold an annual instructional materials public hearing to determine whether the District has sufficient textbooks or instructional materials or both, in each subject (English/language arts, mathematics, history/social science, and science), that are aligned with the academic content standards and consistent with the cycles of the curriculum framework adopted by the State Board of Education.

She noted that the Education Code also requires that the Board of Education make a determination through a resolution as to whether each pupil in each school in the district has sufficient textbooks or instructional materials in each subject (English/language arts, mathematics, history/social science, and science) that are aligned with the academic content standards and consistent with the cycles of the curriculum framework adopted by the California State Board of Education. The Education Code also requires that the Board of Education make a written determination as to whether each pupil enrolled in foreign language or health has sufficient textbooks or instructional materials. Similarly, the Board must determine the availability of laboratory science equipment as applicable to science laboratory courses offered in grades 9 to 12 inclusive.

There were no responses to the call for a public hearing on the resolution that will certify that K-12 State Instructional Materials Fund monies are expended in compliance with the Pupil Textbook and Instructional Materials Incentive Program Act, ensuring that each pupil will have sufficient instructional materials. The resolution will be presented for adoption at the September 3, 2013, Board meeting.

PUBLIC HEARING OF THE ELK GROVE UNIFIED SCHOOL DISTRICT’S ANNUAL SERVICE DELIVERY/BUDGET PLAN FOR SPECIAL EDUCATION:

Mr. Tollestrup submitted the District’s Annual Service Delivery/Budget Plan for Special Education which must be revised annually as an additional component for the approved local plan. The Plan includes a description of all the special education services provided by the Special Education Local Planning Agency (SELPA) Plan and also identified expected expenditures for all items required by the plan.

There were no responses to the call for a public hearing on the District’s Annual Service Delivery/Budget Plan for Special Education.

ELEMENTARY SCHOOL CALENDAR TRANSITION FEASIBILITY:

Mrs. Cherry presented a report with an historical review and an overview of the status of schools that experienced calendar changes in recent years and also on schools that may require a change in calendar based on current projected enrollment.
Included in the report is the following information:

- Metrics Used – evaluation of a variety of metrics to determine appropriate qualifications to change a school calendar included enrollment history – actual and projections, SCT data, discipline data, attendance data, facility considerations, and site visits and observations;

- The reasons why schools were moved off year round included budget reductions in 2008-09 through 2011, one-time solutions regarding funding in 2008 through 2010, and the amount that would have to have been cut without one-time solutions - $41 million in 2008-09, $50 million in 2009-10, and $60 million in 2010-11.

- Calendar transitions in the 2009-10 school year included three schools (Ellen Feickert, Florin, and Florence Markofer elementary schools) transitioned from the Year-Round Calendar to a Traditional Calendar.

Calendar transitions in the 2010-11 school year included twelve schools transitioning from a Year-Round Calendar to a Modified Traditional Calendar (Maeola R. Beitzel, Raymond Case, John Ehrhardt, Robert J. Fite, Roy Herburger, Samuel Kennedy, Anna Kirchgater, Herman Leimbach, Charles E. Mack, B.C. Morse, John Reith Union House and Florin elementary schools – Florin moved to modified tradition based on community input and request).

- Calendar transitions in the 2011-2012 school year included four schools transitioning from the Year-Round Calendar to the Traditional Calendar (Helen Carr Castello, Elk Grove, Elliott Ranch, and Mary Tsukamoto elementary schools).

- Calendar schedules for 2013-14 include continuing with twelve schools on Year-Round Calendar, 13 schools on Modified Traditional Calendar, and 14 schools on Traditional Calendar.

- Schools with 2013-14 projected enrollments above 900 – Maeola Beitzel, John Ehrhardt, Roy Herburger, Samuel Kennedy, Anna Kirchgater, Charles Mack, Elliott Ranch, Sunrise and Mary Tsukamoto elementary schools.

- What about Year-Round Schools with low enrollment? – Elitha Donner and Stone Lake elementary schools.
ELEMENTARY SCHOOL CALENDAR TRANSITION FEASIBILITY: (Continued)

- Charts indicating proficient CST scores in ELA and Math for 5 years for Year-Round, Traditional and Modified Traditional; the impact on discipline, lunch room and front office with and without additional fiscal support as self report by principal;, suspensions; current enrollment, capacities and enrollment projections.

- Input from site visits to high enrollment Traditional and Modified-Traditional schools indicated an appreciation for the additional fiscal support provided for additional yard duty supervision, enhanced front office staff and increased teacher-in-charge days. Being on the same schedule affords sites to enhance team collaboration, plan lessons together, provide for targeted and timely interventions, and allows for additional facility needs such as deep cleaning.

- Other things to consider are disruption to families/community, consistency of calendar to staff and family planning, and matriculation into Middle and High Schools.

Next steps are to (1) remain on the current calendar, (2) return to Year-Round Calendar, (3) transition Sunrise to Year-Round Calendar, or (4) transition Donner and Stone Lake to Traditional calendar.

- The recommendation is given the current enrollment and future projections for Sunrise Elementary School it transitioned to a Year-Round School beginning in the 2014-15 school year.

During the discussion, the following was noted:

- Originally the cost savings of transferring year-round schools to traditional was $300,000; however, at the same time there were budget cuts and the savings decreased.

- There is no difference in the costs for traditional and modified traditional schools. Here is no difference in utility costs.

- Staff’s recommendation is for Donner and Stone Lake to remain on year-round schedules as the excess capacity at those schools will be needed shortly.

- Funding for the 2nd and 3rd schools in the Anatolia area was identified as Part of Measure A; however, funding is not available and would have to come from future bond sales. Funds are available for additional planning and those plans will be coming to the Board shortly for review.

- Placement of portables versus a year-round schedule would be spending capital money versus general funds. Space for portables at Sunrise is not known at this time and safety must also be considered.

ELEMENTARY SCHOOL CALENDAR TRANSITION FEASIBILITY: (Continued)

- It was agreed to bring the recommendation back to the Board until late September.

- If the Board should decide to move forward with the recommendation to place Sunrise Elementary School on a year-round schedule, the community must be notified by November 1 for implementation the following year. Staff would like the ability to say the Board is looking at this recommendation but not taking action at this time.

- After school programs are strong and there are waiting lists.

- Currently there are 171 school days in the year-round calendar with more minutes per day than in the traditional and modified traditional calendars, and there are 180 days in the traditional and modified traditional calendars with fewer minutes per day.

policy, approval of a contract after the beginning date, and the number of claims
involved. Mr. Fagan stated the contract affects 331 people, this type of contract is a
long term issue, it takes 2-3 years for a company to show effects of their process, and
the program is measured by how the contractor is providing a service. Mr. Madison
noted the necessity of consistency; Ms. Singh-Allen noted the need to review the
policy; and Mr. Ly noted the need to “do due diligence” and present it to the Board in a
timely manner.

Motion by Mrs. Cox, seconded by Ms. Amavisca, and carried, that the contract with Tristar
