School Accountability Report Card
Reported Using Data from the 2015-2016 School Year
Published During 2016-2017

For: William Daylor High School

Address: 6131 Orange Avenue, Sacramento CA, 95823

Principal: Katherine Whiteside

Phone: (916) 427-5428

Grade Span: 9-12

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements, see the California Department of Education (CDE) SARC Web page at <http://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or LCAP, see the CDE LCFF Web page at <http://www.cde.ca.gov/fq/aa/lc/>.
- For additional information about the school, parents and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest Web page at <http://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

School Description and Mission Statement (School Year 2016-2017)

William Daylor High School
A Community of Lifelong Learners!

William Daylor High School is a school dedicated to serving the needs of its students. William Daylor provides a unique, educational experience, beginning with the rigor and breadth of the instructional program, to the warmth of the learning environment where students feel safe to stretch their thinking, to the safety of the campus. William Daylor is a place where students know the staff care and will prepare them to be successful in the world after high school.

Our district's mission is to provide a learning community that challenges ALL students to realize their greatest potential.

Our success in implementing our district's mission can be evidenced through our school's special strengths, including:

- Courses designed to meet the academic needs of the students.
- The number of students graduating on a yearly basis.
- CTE classes - Careers with Children and Building and Trades.
- Supports in place to meet the social/emotional needs of the students.

At William Daylor we are partnering with the community to provide opportunities to extend learning, and provide support. These opportunities are designed to prepare students to be successful post-high school.

Parent support and involvement continue to be important aspects of the success at William Daylor High School. This support is given, and is recognized and appreciated in many different ways. Some parents help plan programs and policies, while others serve as volunteers for Student Leadership activities and field trips. Parents also support student success by providing space, time, and encouragement for daily homework, and by sending a clear message that education and regular school attendance are important to the family.

The safety of our students is this school's first priority and the discipline policy is strictly enforced. We emphasize cooperation and responsible, respectful behavior. All adults visiting campus are required to check in through the school office. The atmosphere of the school makes our students feel comfortable and secure.

School Facility Conditions and Planned Improvements (School Year 2016-2017)

William Daylor High School was built in 1965. Additions were constructed in 1968 and 1972. Two portable classrooms were constructed in 1997 for Class Size Reduction. The school opened in 1990 with all portable buildings. In 1995, permanent classrooms were built. The multipurpose room was built in 1997. The facility consists of 14 classrooms, a multi-purpose room, administrative offices that house the principal, teacher-in-charge, a counselor, an office for the custodian, and basketball courts. In addition there is a computer lab, science facility, wood shop, art facility, and a pre-school and Child Development Center with an adjoining play area. Presently Daylor's staff consists of 1 Principal, a Vice-Principal, a secretary, data processor, counselor, registrar, custodian, campus supervisor, 1 RSP teacher, 9 teachers, 1 para-professional, a Pregnant & Parenting teacher and a Project Implementer.

The LEA takes great efforts to ensure that all schools are clean, safe, and functional. To assist in this effort, the LEA uses a facility survey instrument developed by the State of California Office of Public School Construction. The results of this survey are available at the district office. Included is information from the facility survey instrument on the condition of the school and the efforts made to ensure that students are provided with a clean, safe, and functional learning environment. Our school received an "Exemplary" status based on the State's definitions for each of the eight categories evaluated, which is the highest rating possible.

The district's maintenance and grounds departments work in concert with the school site custodial team to ensure that school buildings, classrooms, and grounds are maintained at exceptional levels to provide a safe and functional environment for all students. The district utilizes the latest electronic work order system enabling site administration and custodians to communicate maintenance needs, urgent repairs, or necessary projects. Emergency repair needs are immediately resolved by either the school custodian or district maintenance staff. The school's custodian works with the principal to develop a daily cleaning process and schedule. Each morning the custodian inspects the school prior to students and staff entering school grounds. Restrooms are inspected throughout the day to ensure that they are adequately stocked, safe, and sanitary. The Board of Education has adopted cleaning standards for all schools in the district. A summary of these standards is available at the school office, or at the district office.

The State Deferred Maintenance Program (DMP) was established in 1980 to aid districts in major maintenance projects. Beginning with the 2013-2014 fiscal year and the inception of the Local Control Funding Formula (LCFF) the State has intended for Deferred Maintenance needs and expenses to be included in the District's LCFF allotment. The district continues to fund routine restricted maintenance at levels beyond the State required minimum and continues to use local resources to fund projects previously considered as part of the States former DMP.

In addition the District has continued to fund the Routine Restricted Maintenance (RRM) account at percentages above the State Minimum. For the 2013-2014 fiscal year the district funded RRM at \$13,829,852 or 2.86% of its General Fund Budgeted Expenditures. The district's complete deferred maintenance plan is available at the district office.

There are no planned facilities projects for the 16-17 school year.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the Pupil Achievement State Priority (Priority 4):

- **Statewide assessments** (i.e., California Assessment of Student Performance and Progress [CAASPP] System, which includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. The CAAs have replaced the California Alternate Performance Assessment [CAPA] for ELA and mathematics, which were eliminated in 2015. Only eligible students may participate in the administration of the CAAs. CAA items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with significant cognitive disabilities); and
- The percentage of pupils who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Note: ELA test results include the Smarter Balanced Summative Assessment and the CAA. The "Percent Met or Exceeded" is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard on the CAAs divided by the total number of students who participated in both assessments.

Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

Note: The number of students tested includes students that did not receive a score; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using students with scores.

Career Technical Education Programs (School Year 2016-2017)

Our school prepares students to succeed in real-world contexts through the development of conceptual thinking, effective communication, and the ability to apply knowledge and skills learned in the classroom. Our teachers have directed efforts toward establishing school-to-work structures within each curricular area for all students, including those with special needs. Advisors/Guidance Counselors offer additional support. WDHS offers two Career Technical Education (CTE) programs: Careers with Children and Building & Trades Pathway. Students who complete the Careers with Children course are ready to enter the workforce or apply the college credits earned towards continuing their education in college. The Building & Trades Pathway is an introductory course that leads into residential construction and trades. Both pathways offer work-based learning opportunities and industry-recognized certification when available. Through the Professional Learning Community teachers share academic goals and objectives for students. The CTE teachers integrate these academic goals into their coursework. We measure the success of the program by the certificates of completion earned based on the number of units students complete, and the college credits earned. The primary representative of the district's CTE advisory committee is the Director of the CTE for the district.

Career Technical Education Participation (School Year 2015-2016)

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the Parental Involvement State Priority (Priority 3):

- Efforts the school district makes to seek parent input in making decisions for the school district and each schoolsite.

Opportunities for Parental Involvement (School Year 2016-2017)

There are a number of ways to become involved with your child's education. We have Back to School Night, Open House, and parent conferences throughout the year. Parents can become involved at our school by volunteering, attending teacher conferences, becoming involved in the site's English Learners Advisory Committee, representing the school at district forums, and joining the School Site Council, attending other school activities. For more information on parent involvement opportunities, contact Lee Johnson at (916) 427-5428.

State Priority: Pupil Engagement

The SARC provides the following information relevant to the Pupil Engagement State Priority (Priority 5):

- High school dropout rates; and

School Safety Plan (School Year 2016-2017)

Your child's safety is important to us, and we believe that nothing should get in the way of their academic achievement. Our district is committed to providing a safe, secure environment for learning. Our staff reviewed and updated our School Safety Plan in November of 2016. Assigned staff secure the campus before, during, and after school. Visitors are required to check into the front office to sign in. All staff are trained in emergency procedures. The "Comprehensive Safe School Plan" which outlines a plan of action for emergencies such as earthquakes, fires, floods, and chemical spills, is kept in the office of our school. Random periodic school safety inspections are conducted by the County of Sacramento. The district's Police Services Department works closely with our school site to provide a safe, secure environment for all students.

D. Other SARC Information

The information in this section is required to be in the SARC but is not included in the state priorities for LCFF.

Types of Services Funded (Fiscal Year 2016-2017)

At our school we have highly qualified staff to assist students with special learning needs. Our resource teacher not only provides support for special education students, but also general education students who need additional support to meet the standards. Our teachers are equipped with specialize strategies to assure our EL students are successful. The Pregnant and Parenting Teen program provides support for our teen parents and a resource for the children of the our students. Opportunities for credit recovery have been expanded, courses are now offered before and after school. The students are supported by Project Success, which provides a Program Implementer on site to help educate students about the impact of alcohol, tobacco and other drugs and to make positive choices for themselves. Students may also participate in Career and Technical Education program, which provides them with job skill training.

* Where there are student course enrollments.

Course enrollments include only the number of K-12 public students enrolled in the class on "Census Day," a Wednesday in early October of the school year indicated. Since this data is collected on a single day in Fall, courses that are only offered later in the year will not be included on this report.

Professional Development

Our school and district offer a variety of professional learning opportunities for teachers, instructional aides, and non-instructional support staff. Professional development has centered around the implementation of the Common Core Standards. Our teachers are attending training provided by the district. In addition professional development around the Common Core and instructional strategies to improve teaching and learning are offered on site. New teachers who have been teaching fewer than two years are supported by the district's beginning teacher program. They meet monthly with an experienced mentor to discuss their successes and challenges and new ideas for their classrooms. Finally, the district offers a variety of classes for support staff. Instructional aides, school secretaries, office clerks, and custodians may take classes that relate to their work such as learning new computer skills and learning to work more efficiently and in ergonomically correct ways.
