Introduction from the Board

Thank you for your interest and commitment to your child's education, and your continuing partnership in teaching and learning. In order to best serve our community, we have created this condensed version of the full School Accountability Report Card (SARC) with the mission of presenting information about each of our schools in a clear, parent friendly format. If you are interested in viewing the full SARC report for your child's school, you will find it at the district website: <http://www.egusd.net/academics/assessments/school-accountability-report-cards/>

A Message From the Principal

Franklin High School, the sixth comprehensive high school in the Elk Grove Unified School District, prides itself on providing students a multitude of opportunities to be successful. With a unique schedule, the school is able to offer a variety of AP and elective courses to motivate and challenge students in an array of subject areas. Franklin High School has also established a collaborative environment that includes a strong communication with Toby Johnson Middle School. The schools share the 19,000 square foot Franklin Community Library, which is operated in partnership with the Sacramento County Library system.

The school wide focus is to continue to offer challenging course work that will prepare students for college and/or career pathways. The success of Franklin has continued with 82% of our 11th grade students meeting or exceeding English Language Arts standards on the state mandated test and 60% of our 11th grade students meeting or exceeding Math standards. This is accomplished through standards-based instruction, using student achievement data to drive instruction, and culturally responsive teaching.

Franklin High School students are encouraged to enroll in rigorous courses and are supported through multiple opportunities to connect with the school. With over 60 clubs, competitive athletic teams, and accomplished extra-curricular activities, the students and their families are encouraged to be involved in the four-year academic environment. Franklin's comprehensive academic guidance and support programs allow students to achieve their post-secondary college and career goals.

Chantelle Albiani, Principal
Franklin High School

Parental Involvement

Achieving our school's vision involves a partnership between school, home, and community. Parents are encouraged to take an active role in their child's education through campus visits, regular communication with teachers, and monitoring their child's academic progress. Franklin High School has many parent organizations and opportunities for involvement, such as Take Your Parent to School events, School Site Council, Wildcat Booster Club, and the English Learner Advisory Committee. If interested please contact the office staff at 916-714-8150.

Teacher Credentials and Misassignments

Teacher Credentials		2015-2016
Total Number of Teachers		117

Teacher Misassignments and Vacancies		2016-2017
Misassignments of Teachers of English Learners		0
Misassignments Due to Subject Matter Competency		0
Teacher Vacancies		0

SOURCE: 2016-2017, EGUSD

In the 2015-2016 school year, over 99 percent of the district's teachers held full teaching credentials. In addition to being fully credentialed, if a class is 20 percent or more English Learners (EL), the teacher should hold a supplementary authorization to instruct students in learning English or they are considered misassigned. Our district is working to remedy these misassignments by providing training opportunities for teachers to earn these authorizations and providing ongoing professional development in strategies to help EL students.

In subjects with a shortage, a fully credentialed teacher is sometimes asked to teach outside of their subject matter competency area until an appropriately credentialed teacher can be hired. In these cases, teachers are counted as misassigned.

Vacancies are defined as a position to which a permanent teacher has not been assigned by the beginning of the course. Most vacancies in our district are in subject areas where qualified teachers are in shortage.

School Facility Conditions and Planned Improvement

Our school facility opened in August, 2002. Our school has 90 classrooms, multipurpose room, a shared library with Toby Johnson Middle School and the Sacramento Public Library, computer classrooms, student services and administration building. Our Athletic program uses the Franklin High School/Cosumnes Oaks community stadium for soccer, track, and football games. Parents and visitors report that our campus is "beautiful" and looks clean, safe and inviting. We anticipate some facility improvement projects in our Career Technical Education classrooms for the next school year.

District maintenance staff ensures that necessary repairs to keep the school in working order are completed in a timely manner. A work order process is used to ensure efficient service. Emergency repairs are given the highest priority. The district's governing board has adopted cleaning standards for all schools. A summary of these standards is available at the school office or in the district's Facilities Department. Our administration works with the custodial staff to develop cleaning schedules.

The district takes pride in its schools to ensure that school buildings, classrooms, and grounds are maintained at exceptional levels to provide a safe and functional environment for all students. To assist in this goal, the district uses a facility survey instrument developed by the State of California. Our school received "exemplary" status based on the State's definition, the highest rating possible.

The district utilizes the latest electronic work order system enabling site administration and custodians to communicate maintenance needs, urgent repairs, or necessary projects. The school's custodians work as a team and with the principal to develop a daily cleaning process and schedule. Each morning the custodian inspects the school prior to students and staff entering school grounds. Restrooms are inspected throughout the day to ensure that they are adequately stocked, safe, and sanitary. The Board of Education has adopted cleaning standards for all schools in the district. A summary of these standards is available at the school office, or at the district office.

We have no projects at this time.

Career Technical Education Programs

Franklin High School prepares students to succeed in real-world contexts through the development of conceptual thinking, effective communication, and the ability to apply knowledge and skills learned in the classroom. Our teachers have established school-to-work structures within each curricular area for all students, including those with special needs. Franklin High School offers the following programs that promote leadership, develop job-related skills, offer work-based learning opportunities and increase interest in school: California Partnership Academies (CPA), High Quality Pathways (HQCP) and Explore CTE programs. California Partnership Academies feature cohort scheduling in DTE and academic core classes, integrated projects, and work-based learning opportunities. High Quality Career Pathways provide students with a two to three year sequence of CTE courses within a career pathway. CTE programs at Franklin High School also allow students to meet graduation requirements and complete A-G requirements through courses that incorporate state adopted academic standards. At Franklin High School students are afforded opportunities to participate in specialized programs that can provide them with an introduction to a technical career. The GREEN Academy and the STEM Academy are offered to students who wish to pursue careers in the fields of technology, engineering and/or media. We are offering new pathways in Animation, Design Arts, Digital Media, Engineering Technology, Engineering Design and Web Design. Individual student assessment of work readiness skills in CTE programs takes place through: end of course exams, Apple internship opportunities and completion of course required projects such as portfolios and mock interviews. In addition to programs offered at Franklin High School, students may also participate in Elk Grove Unified School District's Explore CTE programs. Explore CTE programs include medical assistant, phlebotomy technician, EKG technician, computer graphics, computer animation and more. For a complete listing of Explore CTE offerings or to learn more about CTE programs in the Elk Grove Unified School District, visit www.egusdexplore.com.

Professional Development

Our school offers a variety of professional learning opportunities for teachers, instructional aides, and non-instructional support staff. Teachers from different departments or programs provide professional development during monthly staff meetings. In addition, teachers meet on late start Wednesdays to collaborate in professional learning communities in order to ensure that all students acquire the knowledge and skills essential to achieving their full potential. For the 2016-17 school year we will be focused on how to maximize our collaboration time with several workshops led by an educational consultant specializing in professional learning communities. Many grade level and subject matter teams also have specific release days throughout the year to collaborate on common assessments, Integrated Math, Next Generations Science standards, AP/Honors vertical teaming, EL/SDAIE courses, as well as student placement in a variety of support/intervention programs.

School Safety Plan

Franklin High School provides a safe and positive learning environment for all students. Staff members maintain high expectations for appropriate and respectful student behavior. The School Safety Plan was reviewed in September 2016. An "Emergency Handbook", outlining a plan of action for emergencies such as earthquakes, fires, floods, and chemical spills, is kept in the school office. Many of our students serve as Link Crew Leaders and conflict managers to promote safe choices and conflict resolution on campus. A schedule is made to ensure supervision before and after school that includes both campus supervisors and administration. The areas of the campus that are open for entrance are monitored so all outside visitors need to check in through the main office and follow the appropriate procedures.

Specialized Programs

We support special populations with a staff that includes six counselors, seven resource specialists, a full-time school psychologist, a health clerk, and a full-time librarian. In addition, the site shares a speech therapist with its feeder middle school.

Franklin High School's support of special populations also includes a comprehensive Advancement Via Individual Determination (AVID) Program, Math, English Science Academy (MESA) Program, and two California Partnership Academies (STEM & GREEN). Special needs students participate in classroom instruction that strengthens writing, reading, and comprehension skills. English Learners are using the EDGE curriculum designed for EL students grades 9 to 12. It includes relevant and motivating content to prepare students for core state standards success by using systematic and focused materials. New to the 2016-17 school year is an intensive reading intervention program designed to support students who additional Language Arts skills.

Average Salaries

Data reported are the district's average salaries for teachers, principals, and superintendents, compared to the state average salaries for districts of the same type and size, as defined by Education Code Section 41409.

Teachers	EGUSD 50,000+ ADA	State Average 20,000+ ADA
