Introduction from the Board

Thank you for your interest and commitment to your child's education, and your continuing partnership in teaching and learning. In order to best serve our community, we have created this condensed version of the full School Accountability Report Card (SARC) with the mission of presenting information about each of our schools in a clear, parent friendly format. If you are interested in viewing the full SARC report for your child's school, you will find it at the district website: <http://www.egusd.net/academics/assessments/school-accountability-report-cards/>

A Message From the Principal

Franklin High School, the sixth comprehensive high school in the Elk Grove Unified School District, prides itself on providing students an extensive variety of opportunities to be successful. Our unique schedule allows the school to offer a large number of AP and elective courses to motivate and challenge students in an array of subject areas. Franklin High School has also established a collaborative environment that includes a strong communication with Toby Johnson Middle School. The schools share the 19,000 square foot Franklin Community Library, which is operated in partnership with the Sacramento County Library system.

Our District's mission is to provide a learning community that challenges ALL students to realize their greatest potential.

Franklin High School offers challenging course work that will prepare students for both college or career pathways. The success of Franklin can be measured with 81% of our 11th grade students meeting or exceeding English Language Arts standards on the state mandated test and 59% of our 11th grade students meeting or exceeding Math standards. Student success is also measured through our California Partnership Academy program completion and our newly added High Quality Pathways.

Students are encouraged to enroll in rigorous courses and are supported through multiple opportunities to connect with the school. With over 60 clubs, competitive athletic teams, and accomplished extra-curricular activities, the students and their families are excited to be part of this comprehensive high school environment. Our academic guidance counseling and support programs assists students in achieving their post-secondary college and career goals.

Chantelle Albiani, Principal
Franklin High School

Parental Involvement

Achieving our school's vision involves a partnership between school, home, and community. Parents are encouraged to take an active role in their child's education through campus visits, regular communication with teachers, and monitoring their child's academic progress. Franklin High School has many parent organizations and opportunities for involvement, such as Take Your Parent to School events, School Site Council, Wildcat Booster Club, and the English Learner Advisory Committee. If interested please contact the office staff at 916-714-8150.

Teacher Credentials and Misassignments

Teacher Credentials		2016-2017
Total Number of Teachers		113
Total Full Credentials		113

SOURCE: 2016-2017, EGUSD

In the 2016-2017 school year, over 99 percent of the district's teachers held full teaching credentials. In addition to being fully credentialed, if a class is 20 percent or more English Learners (EL), the teacher should hold a supplementary authorization to instruct students in learning English or they are considered misassigned. Our district is working to remedy these misassignments by providing training opportunities for teachers to earn these authorizations and providing ongoing professional development in strategies to help EL students.

Teacher Misassignments and Vacancies		2017-2018
Misassignments of Teachers of English Learners		0
Misassignments Due to Subject Matter Competency		0
Teacher Vacancies		2

SOURCE: 2017-2018, EGUSD

In subjects with a shortage, a fully credentialed teacher is sometimes asked to teach outside of their subject matter competency area until an appropriately credentialed teacher can be hired. In these cases, teachers are counted as misassigned.

Vacancies are defined as a position to which a permanent teacher has not been assigned by the beginning of the course. Most vacancies in our district are in subject areas where qualified teachers are in shortage.

School Facility Conditions and Planned Improvement

Our school opened August, 2002. We have 90 classrooms, a multipurpose room, a shared library with TJMS and Sacramento Public Library, computer classrooms, student services and administration buildings. Our Athletic program uses the Franklin High School/Cosumnes Oaks community stadium for soccer, track, and football games. Work has started on a new track and field on our site. Parents and visitors report our campus is "beautiful" and looks clean, safe and inviting. Two Career Technical Education classrooms have been modernized and updated with new technology and equipment.

District maintenance staff ensures that necessary repairs to keep the school in working order are completed in a timely manner. A work order process is used to ensure efficient service. Emergency repairs are given the highest priority. The district's governing board has adopted cleaning standards for all schools. A summary of these standards is available at the school office or in the district's Facilities Department. Our administration works with the custodial staff to develop cleaning schedules.

The district takes pride in its schools to ensure that school buildings, classrooms, and grounds are maintained at exceptional levels to provide a safe and functional environment for all students. To assist in this goal, the district uses a facility survey instrument developed by the State of California. Our school received "exemplary" status based on the State's definition, the highest rating possible.

The district utilizes the latest electronic work order system enabling site administration and custodians to communicate maintenance needs, urgent repairs, or necessary projects. The school's custodians work as a team and with the principal to develop a daily cleaning process and schedule. Each morning the custodian inspects the school prior to students and staff entering school grounds. Restrooms are inspected throughout the day to ensure that they are adequately stocked, safe, and sanitary. The Board of Education has adopted cleaning standards for all schools in the district. A summary of these standards is available at the school office, or at the district office.

CTE classroom modernization was completed this fall. Our new track and field project is ongoing with an anticipated completion date in the spring of 2018.

Career Technical Education Programs

Career Technical Education (CTE) provides opportunities for FRHS students to prepare for college, career and life. CTE offers a Linked Learning approach that integrates rigorous academics, technical skills, relevant real-world experiences, work-based learning opportunities, and wrap-around student support to help students develop the 21st-century skills and habits of mind they will need to succeed after graduation. Guidance and career counselors offer support focused on achieving the outcomes described in the EGUSD Graduate Profile by offering lessons on transcript review, college readiness, A-G completion, course selection, Academy applications, college admissions, postsecondary options, technology use and resources.

FRHS offers the following CTE programs that promote leadership, develop job-related skills, offer work-based learning opportunities, and increase interest in school: California Partnership Academies (CPA), High Quality Career Pathways (HQCP), and Explore CTE Programs. CPAs feature cohort scheduling in CTE and academic core classes, integrated projects, and work-based learning opportunities. HQCPs provide a two-to-three year sequence of CTE courses within a career pathway. Pathway programs offer work-based learning opportunities and industry-recognized certification when available. Explore CTE programs, open to students across the district, allow students to complete an intensive training course in one year or less, take courses leading to industry certification, or experience internships. All CTE programs have an advisory committee that includes industry representatives for guidance and input. CTE programs at FRHS also allow students to meet graduation requirements and complete A-G requirements through courses that incorporate state-adopted academic standards. In 2016-17, FRHS offered two CPAs, The GREEN Academy and the STEM Academy, which represent the fields of technology, engineering and /or media. HQCPs at FRHS include Animation, Design Arts, Digital Media, Engineering Technology, Engineering Design and Web Design. EGUSD's Department of College and Career Options supports FRHS's CTE programs by providing industry sector coaches and professional development opportunities.

In 2016-17, 18.6% of FRHS students completed a CTE pathway. Individual student assessment of work readiness skills in CTE programs takes place through: end-of-course exams, projects, portfolios and defense of learning, industry certifications, Apple internship opportunities, and other means. Our CTE programs are evaluated through multiple measures, including the number of students completing a CTE pathway, graduation rates, A-G completion rates, GPA, and attendance. Our CTE teams complete a rigorous self-reflection process, followed by district certification. The district collects data regarding continued education and employment from students one year after graduation as part of the Carl D. Perkins reporting process.

Professional Development

Our school offers a variety of professional learning opportunities for teachers, instructional aides, and non-instructional support staff. Teachers from different departments or programs provide professional development during monthly staff meetings. In addition, teachers meet on late start Wednesdays to collaborate in professional learning communities in order to ensure that all students acquire the knowledge and skills essential to achieving their full potential. For the 2017-18 school year we will be focused on mindfulness as it relates to student wellness, in addition to the continuation of our work with professional learning communities. Many grade level and subject matter teams also have specific release days throughout the year to collaborate on common assessments, Integrated Math, Next Generations Science standards, AP/Honors vertical teaming, EL/SDAIE courses, as well as student placement in a variety of support/intervention programs.

School Safety Plan

Franklin High School provides a safe and positive learning environment for all students. Staff members maintain high expectations for appropriate and respectful student behavior. The School Safety Plan was reviewed in September 2017. An "Emergency Handbook", outlining a plan of action for emergencies such as earthquakes, fires, floods, and chemical spills, is kept in the school office. Many of our students serve as Link Crew Leaders and conflict managers to promote safe choices and conflict resolution on campus. A schedule is made to ensure supervision before and after school that includes both campus supervisors and administration. The areas of the campus that are open for entrance are monitored so all outside visitors need to check in through the main office and follow the appropriate procedures.

Specialized Programs

We support special populations with a staff that includes six counselors, seven resource specialists, a full-time school psychologist, a health clerk, and a full-time librarian. In addition, the site shares a speech therapist with its feeder middle school.

Franklin High School's support of special populations also includes a comprehensive Advancement Via Individual Determination (AVID) Program, Math, English Science Academy (MESA) Program, and two California Partnership Academies (STEM & GREEN). Special needs students participate in classroom instruction that strengthens writing, reading, and comprehension skills. English Learners are using the EDGE curriculum designed for EL students grades 9 to 12. It includes relevant and motivating content to prepare students for core state standards success by using systematic and focused materials. We are in year two of an intensive reading intervention program designed to support students who additional Language Arts skills.

Average Salaries

Data reported are the district's average salaries for teachers, principals, and superintendents, compared to the state average salaries for districts of the same type and size, as defined by Education Code Section 41409.

Teachers	EGUSD 50,000+ ADA	State Average 20,000+ ADA
