School Accountability Report Card
Reported Using Data from the 2020 - 2021 School Year
Published During 2021 - 2022

For: Franklin High School

Address: 6400 Whitelock Pkwy, Elk Grove, CA 95757
Principal: Adam Wood

Phone: 916-714-8150
Grade Span: 9-12

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements, see the California Department of Education (CDE) SARC Web page at <http://www.cde.ca.gov/ta/ac/sa/>
- For more information about the LCFF or LCAP, see the CDE LCFF Web page at <http://www.cde.ca.gov/fg/aa/lc/>
- For additional information about the school, parents and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest Web page at <http://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

School Description and Mission Statement (School Year 2021 - 2022)

Franklin High School, the sixth comprehensive high school in the Elk Grove Unified School District, prides itself on providing students an extensive variety of opportunities for success. Our unique schedule provides students a large number of AP and elective course options designed to motivate and challenge students in an array of subject areas. Franklin High School has a collaborative environment that includes strong communication and partnership with Toby Johnson Middle School. The schools share the 19,000 square foot Franklin Community Library, which is operated in partnership with the Sacramento County Library system.

The EGUSD mission is to provide a learning community that challenges ALL students to realize their greatest potential.

Franklin High School P.R.I.D.E. is demonstrated when students come to campus and exhibit their Preparation, Respect, Integrity, Determination and Empathy.

We strive to offer challenging course work that will prepare students for BOTH college or career pathways. Student success is measured by our graduation rate, college going rate, and career preparation through our California Partnership Academy program completion and our newly added High Quality Pathways.

Students are encouraged to enroll in rigorous courses and are supported through multiple opportunities to connect with the school. With over 60 clubs, competitive athletic teams, and accomplished extra-curricular activities, students and their families are excited to be part of this comprehensive high school environment. Our academic guidance counseling and support programs assist ALL students in achieving their post-secondary college and career goals.

A. Conditions of Learning

State Priority: Basic

The SARC provides the following information relevant to the Basic State Priority (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair.

Teacher Preparation and Placement (School Year 2019 - 2020)

Note: The data in this table is based on Full Time Equivalent (FTE) status. One FTE equals one staff member working full time; one FTE could also represent two staff members who each work 50 percent of full time. Additionally, an assignment is defined as a position that an educator is assigned to based on setting, subject, and grade level. An authorization is defined as the services that an educator is authorized to provide to students.

School Facility Conditions and Planned Improvements (School Year 2021 - 2022)

Our school opened August 2002. We have 90 classrooms, a multipurpose room, a shared library with TJMS and Sacramento Public Library, computer classrooms, student services and administration buildings. Our new all-weather track and field was completed last year. Football games will continue to be held in the shared stadium at COHS. Parents and visitors report our campus is "beautiful" and looks clean, safe and inviting. Two Career Technical Education classrooms have been modernized and updated with new technology and equipment. District maintenance staff ensures that necessary repairs to keep the school in working order are completed in a timely manner. A work order process is used to ensure efficient service. Emergency repairs are given the highest priority. The district's governing board has adopted cleaning standards for all schools. A summary of these standards is available at the school office or in the district's Facilities Department. Our administration works with the custodial staff to develop cleaning schedules.

The LEA takes great efforts to ensure that all schools are clean, safe, and functional. To assist in this effort, the LEA uses a facility survey instrument developed by the State of California Office of Public School Construction. The results of this survey are available at the district office. Included is information from the facility survey instrument on the condition of the school and the efforts made to ensure that students are provided with a clean, safe, and functional learning environment. Our school received an "Exemplary" status based on the State's definitions for each of the eight categories evaluated, which is the highest rating possible.

The district takes pride in its schools to ensure that school buildings, classrooms, and grounds are maintained at exceptional levels to provide a safe and functional environment for all students. To assist in this goal, the district uses a facility survey instrument developed by the State of California. Our school received "exemplary" status based on the State's definition, the highest rating possible. The district utilizes the latest electronic work order system enabling site administration and custodians to communicate maintenance needs, urgent repairs, or necessary projects. The school's custodians work as a team and with the principal to develop a daily cleaning process and schedule. Each morning the custodian inspects the school prior to students and staff entering school grounds. Restrooms are inspected throughout the day to ensure that they are adequately stocked, safe, and sanitary. The Board of Education has adopted cleaning standards for all schools in the district. A summary of these standards is available at the school office, or at the district office.

The State Deferred Maintenance Program (DMP) was established in 1980 to aid districts in major maintenance projects. Beginning with the 2013-2014 fiscal year and the inception of the Local Control Funding Formula (LCFF) the State has intended for Deferred Maintenance needs and expenses to be included in the District's LCFF allotment. The district continues to fund routine projects previously considered as part of the State's former DMP at levels required by the State and continues to use local resources.

Construction for an updated computer lab started in the Spring of 2021.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the Pupil Achievement State Priority (Priority 4):

- **Statewide assessments** (i.e., California Assessment of Student Performance and Progress [CAASPP] System, which includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAA items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).

- **SARC Reporting in the 2020 - 2021 School Year Only**

Where the most viable option, LEAs were required to administer the statewide summative assessments for ELA and mathematics. Where a statewide summative assessment was not the most viable option for the LEA (or for one or more grade-level[s] within the LEA) due to the pandemic, LEAs were allowed to report results from a different assessment that met the criteria established by the State Board of Education (SBE) on March 16, 2021. The assessments were required to be:

- Aligned with CA CCSS for ELA and mathematics;
- Available to students in grades 3 through 8, and grade 11; and
- Uniformly administered across a grade, grade span, school, or district to all eligible students.

- **Options:** Note that the CAAs could only be administered in-person following health and safety requirements. If it was not viable for the LEA to administer the CAAs in person with health and safety guidelines in place, the LEA was directed to not administer the tests. There were no other assessment options available for the CAAs. Schools administered the Smarter Balanced Summative Assessments for ELA and mathematics, other assessments that meet the SBE criteria, or a combination of both, and they could only choose one of the following:

- Smarter Balanced ELA and mathematics summative assessments;
- Other assessments meeting the SBE criteria; or
- Combination of Smarter Balanced ELA and mathematics summative assessments and other assessments.

- **College and Career Ready:** The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Note: The 2019-2020 data cells with N/A values indicate that the 2019-2020 data are not available due to the COVID-19 pandemic and resulting summative test suspension. The Executive Order N-30-20 was issued which waived the assessment, accountability, and reporting requirements for the 2019-2020 school year.

Note: The 2020-2021 data cells have N/A values because these data are not comparable to other year data due to the COVID-19 pandemic during the 2020-2021 school year. Where the CAASPP assessments in ELA and/or mathematics is not the most viable option, the LEAs were allowed to administer local assessments. Therefore, the 2020-2021 data between school years for the school, district, state are not an accurate comparison. As such, it is inappropriate to compare results of the 2020-2021 school year to other school years.

Career Technical Education Programs (School Year 2021 - 2022)

Career Technical Education (CTE) provides opportunities for FRHS students to prepare for college, career and life. CTE offers a Linked Learning approach that integrates rigorous academics, technical skills, relevant real-world experiences, work-based learning opportunities, and wrap-around student support to help students develop the 21st-century skills and habits of mind they will need to succeed after graduation. Guidance and career counselors offer support focused on achieving the outcomes described in the EGUSD Graduate Profile by offering lessons on transcript review, college readiness, A-G completion, course selection, Academy applications, college admissions, postsecondary options, technology use and resources. FRHS offers the following CTE programs that promote leadership, develop job-related skills, offer work-based learning opportunities, and increase interest in school: California Partnership Academies (CPA), High Quality Career Pathways (HQCP), and Explore CTE Programs. CPAs feature cohort scheduling in CTE and academic core classes, integrated projects, and work-based learning opportunities. HQCPs provide a two-to-three year sequence of CTE courses within a career pathway. Pathway programs offer work-based learning opportunities and industry-recognized certification when available. Explore CTE programs, open to students across the district, allow students to complete an intensive training course in one year or less, take courses leading to industry certification, or experience internships. All CTE programs have an advisory committee that includes industry representatives for guidance and input. CTE programs at FRHS also allow students to meet graduation requirements and complete A-G requirements through courses that incorporate state-adopted academic standards. In 2019-20, FRHS offered two CPAs, The GREEN Academy and the STEM Academy, which represent the fields of engineering and computer programming. HQCPs at FRHS include Animation, Design Arts, and Digital Media. EGUSD's Department of College and Career Options supports FRHS's CTE programs through strategic planning, oversight, and professional development. Individual student assessment of work readiness skills in CTE programs takes place through end-of-course exams, projects, portfolios and defense of learning, industry certifications, Apple internship opportunities, and other means. Our CTE programs are evaluated through multiple measures, including CTE pathway completion rates, graduation rates, A-G completion rates, GPA, and attendance. Our CTE teams complete a rigorous self-reflection process, followed by district certification. The district collects data regarding continued education and employment from students one year after graduation as part of the Carl D. Perkins reporting process.

- Efforts the school district makes to seek parent input in making decisions for the school district and each schoolsite.

[Opportunities for Parental Involvement \(School Year 2021 - 2022\)](#)

Achieving our school's vision is a partnership between school, home, and community. Parents are encouraged to be active in their child's education through regular communication with teachers, and monitoring their child's academic progress through Synergy. Franklin High School has many parent organizations and opportunities for involvement, including School Site Council, Wildcat Booster Club, English Learner Advisory Committee and Sober Grad. If interested please contact the school secretary, Sandra Dinwiddie, at 916-714-8150.

School Safety Plan (School Year 2021 - 2022)

Franklin High School provides a safe and positive learning environment for all students. Staff members maintain high expectations for appropriate and respectful student behavior. The School Safety Plan was reviewed in January, 2021. An "Emergency Handbook", outlining a plan of action for emergencies such as earthquakes, fires, floods, and chemical spills, is kept in the school office. Many of our students serve as Link Crew Leaders and conflict managers to promote safe choices and conflict resolution on campus. A schedule is made to ensure supervision before and after school that includes both campus supervisors and administration. The areas of the campus that are open for entrance are monitored so all outside visitors need to check in through the main office and follow the appropriate procedures.

Specialized programs are staffed with six counselors, seven resource specialists, full-time school psychologist, health clerk, and full-time librarian. The site shares a speech therapist with its feeder middle school. Franklin High School's support of special populations also includes a comprehensive Advancement Via Individual Determination (AVID) Program, Math, English Science Academy (MESA) Program, and two California Partnership Academies (STEAM & GREEN). Special needs students participate in classroom instruction that strengthens writing, reading, and comprehension skills. New English learners study the Edge curriculum in designated ELD courses 9-12. Other English learners study the Study Sync curriculum in Integrated English 9-12 courses.

Professional Development

Our school offers a variety of professional learning opportunities for teachers, instructional aides, and non-instructional support staff. Teachers from different departments or programs provide professional development during monthly staff meetings. In addition, teachers meet regularly to collaborate in professional learning communities in order to ensure that all students acquire the knowledge and skills essential to achieving their full potential. For the 2021-22 school year grade level and subject matter teams have specific release days throughout the year to collaborate on common assessments, Integrated Math, Next Generation Science standards, AP/Honors vertical teaming, EL courses, as well as student placement in a variety of support/intervention programs.

Addendum

On July 14, 2021, the California State Board of Education (SBE) determined that the California Department of Education (CDE) will use the SARC Web Application as the mechanism to conduct a one-time data collection of the LEA-level aggregate test results of all school's local assessments administered during the 2020-2021 school year in order to meet the federal Every Student Succeeds Act (ESSA) reporting requirement for the Local Educational Agency Accountability Report Cards (LARCs).

Each local educational agency (LEA) is responsible for preparing and posting their annual LARC in accordance with the federal ESSA. As a courtesy, the CDE prepares and posts the LARCs on behalf of all LEAs.

Only for the 2020-2021 school year and the 2020-2021 LARCs, LEAs are required to report their aggregate local assessments test results at the LEA-level to the CDE by populating the tables below via the SARC Web Application. These data will be used to meet the LEAs' federal requirement for their LARCs. Note that it is the responsibility of the school and LEA to ensure that all student privacy and suppression rules are in place when reporting data in Tables 3 and 4 in the Addendum, as applicable.

The tables below are not part of the SBE approved 2020-2021 SARC template but rather are the mechanism by which these required data will be collected from LEAs.

For purposes of the LARC and the following tables, an LEA is defined as a school district, a county office of education, or a direct funded charter school.
