School Accountability Report Card
Reported Using Data from the 2020 - 2021 School Year
Published During 2021 - 2022

For: Monterey Trail High School

Address: 8661 Power Inn Rd, Elk Grove, CA 95624
Principal: Lara Ricks

Phone: 916-688-0050
Grade Span: 9-12

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements, see the California Department of Education (CDE) SARC Web page at <http://www.cde.ca.gov/ta/ac/sa/>
- For more information about the LCFF or LCAP, see the CDE LCFF Web page at <http://www.cde.ca.gov/fg/aa/lc/>
- For additional information about the school, parents and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest Web page at <http://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

School Description and Mission Statement (School Year 2021 - 2022)

Our mission at Monterey Trail High School is to create a learning community that will challenge ALL students to realize their greatest potential while preparing them for their future. In order to help us accomplish this mission we developed the following Expected Schoolwide Learning Results (ESLRs):

Academic Proficiency

Students will:

- Meet or exceed district and California State Standards in all curricular areas.
- Demonstrate proficiency on school, district, and state standardized assessments.

Critical Thinking and Problem Solving

Students will:

- Apply a variety of strategies to solve academic challenges and prepare for real-world experiences.
- Analyze, interpret, and evaluate information in order to draw logical conclusions.

College and Career Readiness

Students will:

- Plan and prepare for life beyond high school and acquire skills for success.
- Develop knowledge and abilities that can be applied in real-world settings.

Responsible Citizenship

Students will:

- Demonstrate the Positive Learning Behaviors (PLB's).
- Contribute time, energy, and talent to improve our school and community.
- Respectfully celebrate the diverse cultures of our school community.

Effective Communication

Students will:

- Express academic and creative concepts in a variety of formats.
- Work effectively in groups using a variety of communication strategies.

WE ARE MT. A COMMUNITY with RESPECT, INTEGRITY and CONFIDENCE.

A. Conditions of Learning

State Priority: Basic

The SARC provides the following information relevant to the Basic State Priority (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair.

Teacher Preparation and Placement (School Year 2019 - 2020)

Note: The data in this table is based on Full Time Equivalent (FTE) status. One FTE equals one staff member working full time; one FTE could also represent two staff members who each work 50 percent of full time. Additionally, an assignment is defined as a position that an educator is assigned to based on setting, subject, and grade level. An authorization is defined as the services that an educator is authorized to provide to students.

School Facility Conditions and Planned Improvements (School Year 2021 - 2022)

Monterey Trail High School opened in August 2004 with 14 buildings (pods). Each pod had a central work area in the center. The school currently has 71 classrooms and a shared library with the middle school. In addition, there are 7 computer labs, a digital media studio, a Medical Assistant room, a choir room, a band room, a dance studio, a black box theatre, a ceramics studio, an auxiliary gym, a wrestling room, a photo room, an art room, a weight room, an animation studio, a computer science room, a college & career center, a work room, a staff lounge and student services and administration buildings. Eight portable classrooms were added in 2006, four were added in 2007, and three additional portables were added in the summer of 2018. Since Distance Learning, all students have their own Chromebooks for a 1:1 environment for technology.

The LEA takes great efforts to ensure that all schools are clean, safe, and functional. To assist in this effort, the LEA uses a facility survey instrument developed by the State of California Office of Public School Construction. The results of this survey are available at the district office. Included is information from the facility survey instrument on the condition of the school and the efforts made to ensure that students are provided with a clean, safe, and functional learning environment. Our school received an "Exemplary" status based on the State's definitions for each of the eight categories evaluated, which is the highest rating possible.

The district's maintenance and operations departments work in concert with the school site custodial team to ensure that school buildings, classrooms, and grounds are maintained at exceptional levels to provide a safe and functional environment for all students. The district utilizes the latest electronic work order system enabling site administration and custodians to communicate maintenance needs, urgent repairs, or necessary projects. Emergency repair needs are immediately resolved by either the school custodian or district maintenance staff. The school's custodians work as a team and with administration to develop a daily cleaning process and schedule. Each morning the custodian inspects the school prior to students and staff entering school grounds. Restrooms are inspected throughout the day to ensure that they are adequately stocked, safe, and sanitary. The Board of Education has adopted cleaning standards for all schools in the district. A summary of these standards is available at the school office, or at the district office.

The State Deferred Maintenance Program (DMP) was established in 1980 to aid districts in major maintenance projects. Beginning with the 2013-2014 fiscal year and the inception of the Local Control Funding Formula (LCFF) the State has intended for Deferred Maintenance needs and expenses to be included in the District's LCFF allotment. The district continues to fund routine projects previously considered as part of the State's former DMP at levels required by the State and continues to use local resources.

We recently added Medical Assistant to our CTE course offerings. To get this Pathway off the ground the district, through grant funding, invested in equipment to have an industry standard room. In addition, CTE grant funding also helped remodel our computer science room on campus. The students in the Digital Media pathway are able to take advantage of state of the art equipment to support a news broadcast and are working since COVID to relaunch this broadcast into a daily one. In addition, we have an industry standard art animation studio on campus. We are beginning ASL classes.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the Pupil Achievement State Priority (Priority 4):

- **Statewide assessments** (i.e., California Assessment of Student Performance and Progress [CAASPP] System, which includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAA items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).

- **SARC Reporting in the 2020 - 2021 School Year Only**

Where the most viable option, LEAs were required to administer the statewide summative assessments for ELA and mathematics. Where a statewide summative assessment was not the most viable option for the LEA (or for one or more grade-level[s] within the LEA) due to the pandemic, LEAs were allowed to report results from a different assessment that met the criteria established by the State Board of Education (SBE) on March 16, 2021. The assessments were required to be:

- Aligned with CA CCSS for ELA and mathematics;
- Available to students in grades 3 through 8, and grade 11; and
- Uniformly administered across a grade, grade span, school, or district to all eligible students.

- **Options:** Note that the CAAs could only be administered in-person following health and safety requirements. If it was not viable for the LEA to administer the CAAs in person with health and safety guidelines in place, the LEA was directed to not administer the tests. There were no other assessment options available for the CAAs. Schools administered the Smarter Balanced Summative Assessments for ELA and mathematics, other assessments that meet the SBE criteria, or a combination of both, and they could only choose one of the following:

- Smarter Balanced ELA and mathematics summative assessments;
- Other assessments meeting the SBE criteria; or
- Combination of Smarter Balanced ELA and mathematics summative assessments and other assessments.

- **College and Career Ready:** The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Mathematics (grades 3-8 and 11)	N/A	N/A	N/A	N/A	N/A	N/A

Note: The 2019-2020 data cells with N/A values indicate that the 2019-2020 data are not available due to the COVID-19 pandemic and resulting summative test suspension. The Executive Order N-30-20 was issued which waived the assessment, accountability, and reporting requirements for the 2019-2020 school year.

Note: The 2020-2021 data cells have N/A values because these data are not comparable to other year data due to the COVID-19 pandemic during the 2020-2021 school year. Where the CAASPP assessments in ELA and/or mathematics is not the most viable option, the LEAs were allowed to administer local assessments. Therefore, the 2020-2021 data between school years for the school, district, state are not an accurate comparison. As such, it is inappropriate to compare results of the 2020-2021 school year to other school years.

Career Technical Education Programs (School Year 2021 - 2022)

Career Technical Education (CTE) provides opportunities for MTHS students to prepare for college, career and life through a Linked Learning approach that integrates rigorous academics, technical skills, relevant real-world experiences, work-based learning opportunities, and wrap-around support to help students develop the 21st-century skills and habits of mind they will need to succeed after graduation. MTHS is proud of its College and Career Center. All students complete an annual college and career unit, designed to stimulate interest in a variety of careers. Our college and career program provides information on colleges and universities offering majors students want and need and identifies related MTHS courses. Scholarship and financial aid opportunities and SAT/ACT information are all available in the Center. MTHS offers the following CTE programs that promote leadership, develop job-related skills, offer work-based learning opportunities, and increase interest in school: California Partnership Academies (CPA), High Quality Career Pathways (HQCP), and Explore CTE Programs. CPAs feature cohort scheduling in CTE and academic core classes, integrated projects, and work-based learning opportunities. HQCPs provide a two-to-three year sequence of CTE courses within a career pathway. Pathway programs offer work-based learning opportunities and industry-recognized certification when available. Explore CTE programs, open to students across the district, allow students to complete an intensive training course in one year or less, take courses leading to industry certification, or experience internships. All CTE programs have an advisory committee that includes industry representatives for guidance and input. CTE programs at MTHS also allow students to meet graduation and A-G requirements. MTHS offers one CPA, the Design and Technology Academy (CPA) with three different career strands including engineering, computer science and architectural design. MTHS HQCPs include Animation, Digital Media/Broadcasting, and BOSS. We added Medical Assistant in 2021-2022. Students have access to Explore CTE programs through our counselors. Individual student assessment of work readiness skills in CTE programs takes place through end-of-course exams, projects, portfolios and defense of learning, industry certifications, and other means. CTE programs are evaluated through multiple measures, including the number of students completing a CTE pathway, graduation and A-G completion rates, GPA, and attendance. CTE teams complete a rigorous self-reflection process, followed by district certification. The district collects data regarding continued education and employment from students one year after graduation as part of the Carl D. Perkins reporting process.

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the Parental Involvement State Priority (Priority 3):

- Efforts the school district makes to seek parent input in making decisions for the school district and each schoolsite.

[Opportunities for Parental Involvement \(School Year 2021 - 2022\)](#)

Parents/Guardians can volunteer with clubs & ASB activities, attend events, join Band & Athletic boosters or sign up for the School Site Council, DELAC, ELAC & Governance committees. Families may join the MT Regional Equity Coalition & activities. Of course, the best way to be involved is to support your child on their academic achievement. All parents should register for ParentVue, our electronic communication tool. For any inquiries, please feel free to contact our Parent Involvement Coordinator, Marco Farias at (916) 688-0050.

School Safety Plan (School Year 2021 - 2022)

Student safety is of primary importance to us at Monterey Trail High School. We are committed to providing a safe and secure environment for student learning. All student events are supervised by campus security, administration, staff and/or law enforcement in order to ensure a safe environment. Our staff reviewed and updated the Comprehensive Safe School Plan in March 2021, and the plan is published on our school website. Included in the plan are monitoring practices that not only address student safety during school hours, but before and after school as well. We conduct multiple drills early in each school year so that staff and students understand procedures in case of an emergency. Catapult is available on our website under "incident reporting" as an anonymous reporting tool. For safety, "If you see something, say something."

[Types of Services Funded \(Fiscal Year 2021 - 2022\)](#)

Monterey Trail High School employs a highly qualified staff to assist students with special learning needs. Our "Strategies" department provides support for special education students. We offer extended learning opportunities in Math and English for general education students who need additional support to meet the standards. Specially trained instructors help our English Learners access the core curriculum, and assist students placed in classes to learn English as needed. All students have an opportunity to participate in multiple Honors and Advanced Placement (AP) courses. We offer CTE pathways designed to prepare students for college and careers, along with the AVID Program (Advancement Via Individual Determination) and the Design and Technology Academy (DATA). Our ASSETs After School Program that operates every day until 5:30.

Professional Development

Our school and district offer a variety of professional learning opportunities for teachers and non-instructional support staff. Our school has a weekly late start Thursday schedule (during Distance Learning this occurs on Monday afternoons) in order for teachers to meet in Professional Learning Communities. Teachers use this time to meet in teams to calibrate curriculum, create common assessments, improve instructional practice, and review student work as it relates to the Common Core State Standards and Curriculum Frameworks. New teachers who have been teaching fewer than two years are supported by the district's beginning teacher program (BTSA). They meet weekly with an experienced mentor to discuss their successes and work through their challenges.

Addendum

On July 14, 2021, the California State Board of Education (SBE) determined that the California Department of Education (CDE) will use the SARC Web Application as the mechanism to conduct a one-time data collection of the LEA-level aggregate test results of all school's local assessments administered during the 2020-2021 school year in order to meet the federal Every Student Succeeds Act (ESSA) reporting requirement for the Local Educational Agency Accountability Report Cards (LARCs).

Each local educational agency (LEA) is responsible for preparing and posting their annual LARC in accordance with the federal ESSA. As a courtesy, the CDE prepares and posts the LARCs on behalf of all LEAs.

Only for the 2020-2021 school year and the 2020-2021 LARCs, LEAs are required to report their aggregate local assessments test results at the LEA-level to the CDE by populating the tables below via the SARC Web Application. These data will be used to meet the LEAs' federal requirement for their LARCs. Note that it is the responsibility of the school and LEA to ensure that all student privacy and suppression rules are in place when reporting data in Tables 3 and 4 in the Addendum, as applicable.

The tables below are not part of the SBE approved 2020-2021 SARC template but rather are the mechanism by which these required data will be collected from LEAs.

For purposes of the LARC and the following tables, an LEA is defined as a school district, a county office of education, or a direct funded charter school.
