

California Department of Education School Accountability Report Card

Reported Using Data from the 2024 - 2025 School Year
Published During 2025 - 2026

For: Monterey Trail High School

Address: 8661 Power Inn Rd, Elk Grove, CA 95624
Principal: Lara Ricks

Phone: 916-688-0050
Grade Span: 9-12

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements, see the California Department of Education (CDE) SARC Web page at <http://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or LCAP, see the CDE LCFF Web page at <http://www.cde.ca.gov/fg/aa/lc/>.
- For additional information about the school, parents and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest Web page at <http://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

Admission Requirements for the University of California (UC)

Admission requirements for the UC follow guidelines set forth in the Master Plan, which requires that the top one-eighth of the state's high school graduates, as well as those transfer students who have successfully completed specified college course work, be eligible for admission to the UC. These requirements are designed to ensure that all eligible students are adequately prepared for University-level work. For general admissions requirements, please visit the UC Admissions Information website at <https://admission.universityofcalifornia.edu/>.

Admission Requirements for the California State University (CSU)

Eligibility for admission to the CSU is determined by three factors: (1) Specific high school courses, (2) Grades in specified courses and test scores, and (3) Graduation from high school. Some campuses have higher standards for particular majors or students who live outside the local campus area. Because of the number of students who apply, a few campuses have higher standards (supplementary admission criteria) for all applicants. Most CSU campuses have local admission guarantee policies for students who graduate or transfer from high schools and colleges that are historically served by a CSU campus in that region. For admission, application, and fee information, see the CSU website at <https://www2.calstate.edu>.

School Description and Mission Statement (School Year 2025 - 2026)

Our mission at Monterey Trail High School is to create a learning community that will challenge ALL students to realize their greatest potential while preparing them for their future.

Established in 2004, the seventh high school in the Elk Grove Unified School District, Monterey Trail High School is named after its proximity to the historic Monterey Trail of the 19th century which was used by travelers of the time to travel to Monterey, the capital of both Spanish and Mexican California.

The school color of hunter green is based on the abundant amount of trees along the areas of Elk Grove, Laguna Creek, and Franklin. The second color of gold is based on the Monterey Trail becoming well traveled after the discovery of gold. The third school color is black. The school mascot, the Mustang, is based on the horses that travelers rode while traveling the Monterey Trail in the 19th Century.

We were founded with the Core Values that are represented on our school crest as a Community with Respect, Integrity and Confidence. Today, the four core values are our foundation throughout and beyond campus. We have reached Gold level status for our Positive Behavior Intervention and Supports (PBIS) due to our outstanding work teaching and supporting our expectations surrounding these core values and we continue to reteach and support students throughout as needed. We are a school who believes in positive relationship building and restorative practices while delivering high quality instruction as we intentionally work to continuously improve and remove barriers for all to succeed. Taking a proactive approach through community building and trying to meet our students where they are at while holding them to high expectations is what we are about at MT.

We also know and value the importance of working together as one Trail, not only as a united staff, but also with all educational partners; parents, guardians, families and community members. As the world continues to shift and change, we continue to be lifelong learners, asking for and accepting feedback to grow and improve every day to help our students to be successful.

We love our Mustangs and are excited to continue to do everything with "what's best for our students" at the forefront of all of our actions.

WE ARE MT. A COMMUNITY with RESPECT, INTEGRITY and CONFIDENCE.

A. Conditions of Learning

State Priority: Basic

The SARC provides the following information relevant to the Basic State Priority (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair.

The school currently has 71 classrooms & shared library with the middle school. There are 7 computer labs, a digital media studio, a Medical Assistant room, a choir room, a band room, a dance studio, a black box theatre, a ceramics studio, an auxiliary gym, a wrestling room, a photo room, an art room, a weight room, an animation studio, a computer science room, a college & career center, a work room, a staff lounge and student services and administration buildings. Eight portable classrooms were added in 2006, four were added in 2007, and three additional portables were added in the summer of 2018. All students have Chromebooks for a 1:1 environment for technology.

The LEA takes great efforts to ensure that all schools are clean, safe, and functional. To assist in this effort, the LEA uses a facility survey instrument developed by the State of California Office of Public School Construction. The results of this survey are available at the district office. Included is information from the facility survey instrument on the condition of the school and the efforts made to ensure that students are provided with a clean, safe, and functional learning environment. Our school received an "Exemplary" status based on the State's definitions for each of the eight categories evaluated, which is the highest rating possible.

The maintenance & operations departments work in concert with site custodial team to ensure that school buildings, classrooms, and grounds are maintained at high levels to provide a safe, functional environment for all. We utilize the latest electronic work order system to communicate maintenance needs, urgent repairs, or projects. Emergency repair needs are resolved quickly. The custodians work as a team with administration to develop a daily cleaning process schedule. Each morning the custodian inspects the school prior to students/staff entering school grounds. Restrooms are inspected throughout the day. The Board of Education has adopted cleaning standards for all schools in the district. A summary of these standards is available at the school office, or at the district office.

The State Deferred Maintenance Program (DMP) was established in 1980 to aid districts in major maintenance projects. Beginning with the 2013-2014 fiscal year and the inception of the Local Control Funding Formula (LCFF) the State has intended for Deferred Maintenance needs and expenses to be included in the District's LCFF allotment. The district continues to fund routine projects previously considered as part of the State's former DMP at levels required by the State and continues to use local resources.

CTE Medical Assistant program utilizes industry standard equipment. CTE grant also helped remodel our computer science room on campus & aided in the articulation of courses including Entrepreneurship. The Digital Media pathway takes advantage of state-of-the-art equipment. We have an industry standard art animation studio. A Newcomer Welcome Center is dedicated to help families new to the district with supports for our EL families with the help of our Family Community Engagement & English Learner Departments. Classrooms have Power of One Learning Systems to aid with the teaching/learning process. We have a shade structure for lunch time & events. Dance will enjoy a renovated floor in winter of 2025 and the exterior facade is undergoing repairs this year.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the Pupil Achievement State Priority (Priority 4):

- **Statewide assessments** (i.e., California Assessment of Student Performance and Progress [CAASPP] System includes assessments for English language arts/literacy [ELA], mathematics, and science for students in the general education population and the California Alternate Assessment [CAA]. Only eligible students may participate in the administration of the CAA. CAA items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] or California Next Generation Science Standards [CA NGSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAA for ELA** in grades three through eight and grade eleven.
 2. **Smarter Balanced Summative Assessments and CAA for mathematics** in grades three through eight and grade eleven.
 3. **California Science Test (CAST) and CAA for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).
- **College and Career Ready:** The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Career Technical Education (CTE) Programs (School Year 2024 - 2025)

Career Technical Education (CTE) helps MTHS students to prepare for college/career/life integrating rigorous academics, technical skills, real-world experiences, work-based learning, wrap-around support to help students develop skills & habits of mind to succeed after graduation. MTHS College Career Center students complete an annual college career unit, designed to stimulate interest in a variety of careers. This provides information on colleges/universities, majors students want, courses needed & identifies related MTHS courses. Scholarship & financial aid opportunities & SAT/ACT information are available in the Center. The goal is 100% FAFSA completion. We have a College Career Readiness program where students serve as peer mentors to other students. MTHS offers CTE programs that promote leadership, develop job-related skills, offer work-based learning opportunities & increase interest in school. CPAs feature cohort scheduling in CTE academic core classes, integrated projects, work-based learning. HQCPs provide a 2-3 year sequence of CTE courses within a career pathway. Pathway programs offer work-based learning opportunities & industry-recognized certification when available. Explore CTE programs allow students to complete an intensive training course in 1 year or less, take courses leading to industry certification, or experience internships. All CTE programs have an advisory committee that includes industry representatives for guidance & input. CTE programs at MTHS allow students to meet graduation and A-G requirements. MTHS offers one CPA, the Design & Technology Academy (CPA) with two career strands including engineering & computer science. MTHS HQCPs include Animation, Digital Media/Broadcasting, BOSS. We added Medical Assistant for seniors in 2021-2022. Students have access to Explore CTE programs through our counselors. Individual student assessment of work readiness skills in CTE programs takes place through end-of-course exams, projects, portfolios & defense of learning, industry certifications, & other means. CTE programs are evaluated through multiple measures, including the number of students completing a CTE pathway, graduation and A-G completion rates, GPA, attendance. CTE teams complete a rigorous self-reflection process, followed by district certification. The district collects data regarding continued education & employment from students one year after graduation as part of the Carl D. Perkins reporting process.

[School Safety Plan \(School Year 2025 - 2026\)](#)

Student safety is of primary importance to us at Monterey Trail High School. We are committed to providing a safe and secure environment for student learning. Events are supervised by campus security, administration, staff and/or law enforcement in order to ensure a safe environment. Our Comprehensive Safe School Plan was revised/updated September 2025, and the plan is published on our school website. Included in the plan are monitoring practices that not only address student safety during school hours, but before and after school as well. Visitors must check into the office with ID and with a purpose. We conduct multiple drills early annually so that staff and students understand procedures in case of an emergency. Catapult is available on our website under "incident reporting" as an anonymous reporting tool. For safety, "If you see something, say something."

Types of Services Funded (Fiscal Year 2024 - 2025)

MTHS employs highly qualified staff to assist students with special learning needs in our "Strategies" department. We offer extended learning opportunities for students to meet the standards. Specially trained instructors help our English Learners access the core curriculum & support students to learn English. All students are able to participate in multiple Honors & Advanced Placement (AP) courses. Professional Development

Our school and district offer a variety of professional learning opportunities for teachers and non-instructional support staff. Our school has a weekly late start Thursday schedule in order for teachers and staff to meet in Professional Learning Communities. Teachers use this time to meet in teams to calibrate curriculum, create common assessments, improve instructional practice, and review student work as it relates to the Common Core State Standards and Curriculum Frameworks. New teachers who have been teaching fewer than two years are supported by the district's beginning teacher induction program. They meet weekly with an experienced mentor to discuss their successes and work through their challenges. In addition, our staff are completed additional hours of professional development through the Educator Effectiveness Fund under the title of Diversity, Equity and Inclusion. We have also been trained during the pilot for Restorative Practices in EGUSD. We are excited to continue to grow for continuous improvement for our Mustang students to be successful. Professional learning cycles are integral parts of our staff meetings monthly and our teachers and counselors have been participating in Instructional Rounds led by our Instructional Coaches to observe, learn about and implement activities and strategies that are helping our students succeed.
