

California Department of Education School Accountability Report Card

Reported Using Data from the 2024 - 2025 School Year
Published During 2025 - 2026

For: Rio Cazadero High School

Address: 7825 Grandstaff Dr, Sacramento, CA 95823
Principal: Doug Wendle

Phone: 916-422-3058
Grade Span: 9-12

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements, see the California Department of Education (CDE) SARC Web page at <http://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or LCAP, see the CDE LCFF Web page at <http://www.cde.ca.gov/fg/aa/lc/>.
- For additional information about the school, parents and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest Web page at <http://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

Admission Requirements for the University of California (UC)

Admission requirements for the UC follow guidelines set forth in the Master Plan, which requires that the top one-eighth of the state's high school graduates, as well as those transfer students who have successfully completed specified college course work, be eligible for admission to the UC. These requirements are designed to ensure that all eligible students are adequately prepared for University-level work. For general admissions requirements, please visit the UC Admissions Information website at <https://admission.universityofcalifornia.edu/>.

Admission Requirements for the California State University (CSU)

Eligibility for admission to the CSU is determined by three factors: (1) Specific high school courses, (2) Grades in specified courses and test scores, and (3) Graduation from high school. Some campuses have higher standards for particular majors or students who live outside the local campus area. Because of the number of students who apply, a few campuses have higher standards (supplementary admission criteria) for all applicants. Most CSU campuses have local admission guarantee policies for students who graduate or transfer from high schools and colleges that are historically served by a CSU campus in that region. For admission, application, and fee information, see the CSU website at <https://www2.calstate.edu>.

A. Conditions of Learning

State Priority: Basic

The SARC provides the following information relevant to the Basic State Priority (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair.

School Facility Conditions and Planned Improvements (School Year 2025 - 2026)

This school has 13 classrooms, a multipurpose room, and an administration building. The main campus was established in 1981. Additions were constructed in 1997. The Cindy Bartlett multi-purpose building, administration building, and two classrooms were built at that time. The school recently remodeled two classroom spaces to create specialized learning environments. One classroom was transformed into a classroom for English Learners and provides office space for specialized support programs. The other classroom was transformed into a media lab with current technology and equipment. EGUSD recently added a shade structure for the school to increase options for gatherings.

The LEA takes great efforts to ensure that all schools are clean, safe, and functional. To assist in this effort, the LEA uses a facility survey instrument developed by the State of California Office of Public School Construction. The results of this survey are available at the district office. Included is information from the facility survey instrument on the condition of the school and the efforts made to ensure that students are provided with a clean, safe, and functional learning environment. Our school received an "Exemplary" status based on the State's definitions for each of the eight categories evaluated, which is the highest rating possible.

The district's maintenance and grounds departments work in concert with the school site custodial team to ensure that school buildings, classrooms, and grounds are maintained by the site custodian and district operations staff to provide a safe and functional environment for all students. Emergency repair needs are immediately resolved by either the school custodian or district maintenance staff. The Board of Education has adopted cleaning standards for all schools in the district. A summary of these standards is available at the district office.

The State Deferred Maintenance Program (DMP) was established in 1980 to aid districts in major maintenance projects. Beginning with the 2013-2014 fiscal year and the inception of the Local Control Funding Formula (LCFF) the State has intended for Deferred Maintenance needs and expenses to be included in the District's LCFF allotment. The district continues to fund routine projects previously considered as part of the State's former DMP at levels required by the State and continues to use local resources.

The district conducted a study of all district facilities, including those at this site and a district master plan was developed and approved by the School Board. Additional recommendations will be made to the School Board for further action. Parent and community input regarding the needs of the site is welcome and can be provided to the school's principal.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the Pupil Achievement State Priority (Priority 4):

- **Statewide assessments** (i.e., California Assessment of Student Performance and Progress [CAASPP] System includes assessments for English language arts/literacy [ELA], mathematics, and science for students in the general education population and the California Alternate Assessment [CAA]. Only eligible students may participate in the administration of the CAA. CAA items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] or California Next Generation Science Standards [CA NGSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAA for ELA** in grades three through eight and grade eleven.
 2. **Smarter Balanced Summative Assessments and CAA for mathematics** in grades three through eight and grade eleven.
 3. **California Science Test (CAST) and CAA for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).
- **College and Career Ready:** The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Note: ELA and mathematics test results include the Smarter Balanced Summative Assessments and the CAA. The "Percent Met or Exceeded" is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAA divided by the total number of students who participated in both assessments.

Career Technical Education (CTE) Programs (School Year 2024 - 2025)

Rio Cazadero High School prepares students to succeed in real-world contexts through the development of conceptual thinking, effective communication, and the ability to apply knowledge and skills learned in the classroom. Our teachers have directed efforts toward establishing school-to-work structures within each curricular area for all students, including those with special needs. Advisors/Guidance Counselors offer additional support. Rio Cazadero High School offers students Career Technical Education (CTE) classes in Video Production and Broadcast Journalism. Explore CTE programs, formerly known as the Regional Occupation Program, allow students to complete an intensive training course in one year or less, take courses leading to industry certification, or experience internships or externships. All CTE programs have an advisory committee that includes industry representatives for guidance and input. CTE programs at Rio Cazadero High School also allow students to meet graduation requirements through courses that incorporate state-adopted academic standards. These courses provide our students with the necessary skills to seek life-long employment in the video media arts and medical fields. Technical terminology, proper career procedures, and work-place expectations are just some of the topics that are covered. Individual student assessment of work readiness skills in CTE programs takes place through end-of-course exams, preparation for the state licensing exam, and completion of course-required projects and externships. Regardless of the career path chosen, Rio Cazadero High School makes every effort to work with the students to ensure that they meet district and state graduation standards.

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the Parental Involvement State Priority (Priority 3):

- Efforts the school district makes to seek parent input in making decisions for the school district and each schoolsite.

[Opportunities for Parental Involvement \(School Year 2025 - 2026\)](#)

Parents can become involved at our school by volunteering, attending teacher conferences and Back to School Night, becoming involved in the site's English Learners Advisory Committee, representing the school at district forums, and joining the School Site Council. For more information on parent involvement opportunities, contact Veronica Azevedo at (916) 422-3058. Administration and the counselor are available to help facilitate connections between families and the school.

School Safety Plan (School Year 2025 - 2026)

We believe that nothing should get in the way of the academic achievement of our students, which is why it is important that our students feel safe. Our district is committed to providing a safe, secure environment for learning. Our staff reviewed and updated our School Safety Plan in September 2025 and a school committee collaborated in the development of the Comprehensive Safe School Plan. An Emergency Guidelines Flipchart, outlining a plan of action for emergencies such as earthquakes, fires, and chemical spills, is posted in every classroom. Access to the campus is only through the office and school staff monitor students before and after school hours. The district's School Security and Safety Department works closely with our school site to provide a safe, secure environment for all students.

Types of Services Funded (Fiscal Year 2024 - 2025)

At our school, we have highly qualified staff to assist students with special learning needs. Our resource program services not only special education students, but also general education students who need additional support to meet the standards. Students are supported by a Program Implementer on site to help students with the impact of alcohol, tobacco and other drugs and to make positive choices for themselves. We also work in partnership with Improve Your Tomorrow, a community-based program to support students. Students may also participate in the Career Technical Education program (CTE), which provides them with job skill training, an opportunity to learn about related college majors, and to obtain employment. Video Production and Broadcast Journalism is the program offered on site.

Professional Development

For 2025-2026, our school has a professional development emphasis supporting the California curriculum standards, providing High Quality Instruction, and supporting Social Emotional Learning. As a result, the primary focus for all subjects is helping teachers develop additional strategies and practices to improve instruction in the core subject areas, particularly for those students who have not previously been successful in school. PBIS (Positive Behavior Intervention and Support) offers another professional development opportunity for teachers to develop skills and supports for all student that promotes positive behaviors and supports student learning. The skills students learn to work well with others is as essential for success as other academic skills. In order to support ALL students, professional learning will focus on Active Participation. The district offers a variety of classes for support staff. Instructional aides, school secretaries, office clerks, and custodians may take classes that relate to their work such as learning new computer skills and learning to work more efficiently and in ergonomically correct ways.
