Existing Trustee Area Demographics

2020 Census Data

District		1	2	3	4	5	6	7	Total
	Total Pop	49,119	49,784	48,791	47,078	48,667	60,846	58,362	362,647
	Deviation from ideal	-2,688	-2,023	-3,016	-4,729	-3,140	9,039	6,555	13,768
	% Deviation	-5.19%	-3.90%	-5.82%	-9.13%	-6.06%	17.45%	12.65%	26.58%

With a deviation of 26.58%, the maps must be updated.

Redistricting

6

- Map revisions will ensure trustee areas are population balanced, compact, contiguous, and consistent with the law.
- Every ten years, after the U.S. Census data is released, school districts are required to evaluate whether their current trustee areas have approximately equal populations using the new census data.
- With the recent Official 2020 Census data release, EGUSD has begun the process of evaluating trustee areas for population balance.

Redistricting (con't)

7

- The variation in total population among trustee areas cannot exceed 10%. If the total peak variation exceeds 10% then trustee area boundaries will need to be adjusted.
- Trustee areas must be made as equal in population as possible and practicable to provide equal access to political representation consistent with the one person, one vote constitutional principle.
- Based on the Official 2020 Census data it is clear that EGUSD will need to make redistricting revisions to its trustee areas.

Redistricting (con't)

8

- The redistricting process is governed by the U.S. Constitution, federal law and California law.
- EGUSD is working with professional demographers, National Demographics Corporation, to draft and revise maps for consideration by the public and the Trustees.
- Proposed “revised maps” will ensure appropriate population balance.
- The redistricting process will be transparent, and interested individuals will have the opportunity to provide input on the proposed revised maps.
