Note: "Enr." indicates student enrollment, counting students in grades 5-12, enrolled during the survey window. "% Imp." refers to the percentage of students who rated the item as "very important" or "most important." "% Sat." denotes the percentage of respondents who rated the item as "very satisfied" or "satisfied." To reduce survey length, respondents were only asked to rate satisfaction if they rated importance as "most important." Ranks are based on the "% Imp."--lower ranks indicate higher importance--and duplicated ranks indicate ties between items.

Note: "Enr." indicates student enrollment, counting students in grades 5-12, enrolled during the survey window. "% Imp." refers to the percentage of students who rated the item as "very important" or "most important." "% Sat." denotes the percentage of respondents who rated the item as "very satisfied" or "satisfied." To reduce survey length, respondents were only asked to rate satisfaction if they rated importance as "most important." Ranks are based on the "% Imp."--lower ranks indicate higher importance--and duplicated ranks indicate ties between items.
