(Row label at left, rotated: **Elementary**)

Note: "Fam." is the number of families, or the unduplicated count of unique addresses with at least 1 student enrolled during the survey window. "% Imp." refers to the percentage of respondents who rated the item as "very important" or "most important." "% Sat." denotes the percentage of respondents who rated the item as "very satisfied" or "satisfied." To reduce survey length, respondents were only asked to rate satisfaction if they rated importance as "most important." Ranks are based on the "% Imp."--lower ranks indicate higher importance--and duplicated ranks indicate ties between items.

The "All" header spans the # Fam., # Resp., Resp. Rate, % Imp., Imp. Rank, and % Sat. columns.

Note: "Fam." is the number of families, or the unduplicated count of unique addresses with at least 1 student enrolled during the survey window. "% Imp." refers to the percentage of respondents who rated the item as "very important" or "most important." "% Sat." denotes the percentage of respondents who rated the item as "very satisfied" or "satisfied." To reduce survey length, respondents were only asked to rate satisfaction if they rated importance as "most important." Ranks are based on the "% Imp."--lower ranks indicate higher importance--and duplicated ranks indicate ties between items.

Raymond Case

Note: "Fam." is the number of families, or the unduplicated count of unique addresses with at least 1 student enrolled during the survey window. "% Imp." refers to the percentage of respondents who rated the item as "very important" or "most important." "% Sat." denotes the percentage of respondents who rated the item as "very satisfied" or "satisfied." To reduce survey length, respondents were only asked to rate satisfaction if they rated importance as "most important." Ranks are based on the "% Imp."--lower ranks indicate higher importance--and duplicated ranks indicate ties between items.

Elk Grove Elementary

Note: "Fam." is the number of families, or the unduplicated count of unique addresses with at least 1 student enrolled during the survey window. "% Imp." refers to the percentage of respondents who rated the item as "very important" or "most important." "% Sat." denotes the percentage of respondents who rated the item as "very satisfied" or "satisfied." To reduce survey length, respondents were only asked to rate satisfaction if they rated importance as "most important." Ranks are based on the "% Imp."--lower ranks indicate higher importance--and duplicated ranks indicate ties between items.

Note: "Fam." is the number of families, or the unduplicated count of unique addresses with at least 1 student enrolled during the survey window. "% Imp." refers to the percentage of respondents who rated the item as "very important" or "most important." "% Sat." denotes the percentage of respondents who rated the item as "very satisfied" or "satisfied." To reduce survey length, respondents were only asked to rate satisfaction if they rated importance as "most important." Ranks are based on the "% Imp."--lower ranks indicate higher importance--and duplicated ranks indicate ties between items.

Arlene Hein

Note: "Fam." is the number of families, or the unduplicated count of unique addresses with at least 1 student enrolled during the survey window. "% Imp." refers to the percentage of respondents who rated the item as "very important" or "most important." "% Sat." denotes the percentage of respondents who rated the item as "very satisfied" or "satisfied." To reduce survey length, respondents were only asked to rate satisfaction if they rated importance as "most important." Ranks are based on the "% Imp."--lower ranks indicate higher importance--and duplicated ranks indicate ties between items.

Florence Markofer

Note: "Fam." is the number of families, or the unduplicated count of unique addresses with at least 1 student enrolled during the survey window. "% Imp." refers to the percentage of respondents who rated the item as "very important" or "most important." "% Sat." denotes the percentage of respondents who rated the item as "very satisfied" or "satisfied." To reduce survey length, respondents were only asked to rate satisfaction if they rated importance as "most important." Ranks are based on the "% Imp."--lower ranks indicate higher importance--and duplicated ranks indicate ties between items.

David Reese

Note: "Fam." is the number of families, or the unduplicated count of unique addresses with at least 1 student enrolled during the survey window. "% Imp." refers to the percentage of respondents who rated the item as "very important" or "most important." "% Sat." denotes the percentage of respondents who rated the item as "very satisfied" or "satisfied." To reduce survey length, respondents were only asked to rate satisfaction if they rated importance as "most important." Ranks are based on the "% Imp."--lower ranks indicate higher importance--and duplicated ranks indicate ties between items.

Union House

Note: "Fam." is the number of families, or the unduplicated count of unique addresses with at least 1 student enrolled during the survey window. "% Imp." refers to the percentage of respondents who rated the item as "very important" or "most important." "% Sat." denotes the percentage of respondents who rated the item as "very satisfied" or "satisfied." To reduce survey length, respondents were only asked to rate satisfaction if they rated importance as "most important." Ranks are based on the "% Imp."--lower ranks indicate higher importance--and duplicated ranks indicate ties between items.

Edward Harris, Jr.

Note: "Fam." is the number of families, or the unduplicated count of unique addresses with at least 1 student enrolled during the survey window. "% Imp." refers to the percentage of respondents who rated the item as "very important" or "most important." "% Sat." denotes the percentage of respondents who rated the item as "very satisfied" or "satisfied." To reduce survey length, respondents were only asked to rate satisfaction if they rated importance as "most important." Ranks are based on the "% Imp."--lower ranks indicate higher importance--and duplicated ranks indicate ties between items.

(Row group label: High Schools)

Note: "Fam." is the number of families, or the unduplicated count of unique addresses with at least 1 student enrolled during the survey window. "% Imp." refers to the percentage of respondents who rated the item as "very important" or "most important." "% Sat." denotes the percentage of respondents who rated the item as "very satisfied" or "satisfied." To reduce survey length, respondents were only asked to rate satisfaction if they rated importance as "most important." Ranks are based on the "% Imp."--lower ranks indicate higher importance--and duplicated ranks indicate ties between items.

Note: "Fam." is the number of families, or the unduplicated count of unique addresses with at least 1 student enrolled during the survey window. "% Imp." refers to the percentage of respondents who rated the item as "very important" or "most important." "% Sat." denotes the percentage of respondents who rated the item as "very satisfied" or "satisfied." To reduce survey length, respondents were only asked to rate satisfaction if they rated importance as "most important." Ranks are based on the "% Imp."--lower ranks indicate higher importance--and duplicated ranks indicate ties between items.

Alternative Schools

Note: "Fam." is the number of families, or the unduplicated count of unique addresses with at least 1 student enrolled during the survey window. "% Imp." refers to the percentage of respondents who rated the item as "very important" or "most important." "% Sat." denotes the percentage of respondents who rated the item as "very satisfied" or "satisfied." To reduce survey length, respondents were only asked to rate satisfaction if they rated importance as "most important." Ranks are based on the "% Imp."--lower ranks indicate higher importance--and duplicated ranks indicate ties between items.
