

## CLASSIFICATION I FACILITIES USE FEE WAIVER

Classification I users may apply for a waiver for time spent performing community service activities in lieu of payment for **part** of the charges for use of District facilities.

The community service activities must meet the following criteria:

1. The community service activity must not directly benefit the user group applying for the waiver.
1. The individual/group receiving the community service activity must not be a for-profit entity and should benefit the community in general.
2. The amount of time spent performing the community service activity must generally correspond to the amount of time the facility will be used by the Classification I user.

The waiver will be calculated by multiplying the number of individuals performing the community service activity by the number of hours spent on the activity.

Classification I users qualifying for the Community Service Waiver will pay the application fee and one dollar (\$1.00) per participant annually as listed on the application. The \$1.00 per participant fee will only be collected once per individual for each school year of use.
